And 'Her Tattered Ensign' Yet Waves

"Old Ironsides" goes into drydock at Boston to be reconditioned from funds contributed by schoolboys and girls everywhere in the land. And as the water falls away from her historic sides the "tattered ensign" of which Oliver Wendell Holmes sang poetically back in 1828 still waves on high. Saluting it from near by were a presidential volley of 21 guns and (inset) Secretary of the Navy Willbur, surrounded by high officers of the army and navy.

The executive committee, which met here in May, failed to re-elect the famous attorney, and named Abe Waldauer, youthful Memphis lawyer, to succeed him. Announcement of the change was withheld lest it should inflame Sapiro's suit against Henry Ford.

Waldauer, who was formerly associated with Sapiro, will be entrusted with the duty of drawing up the exchange's five-year contract which must be signed by all member State organizations.

Swimmers Are Urged to  
Abide by Safety Rules

Recreation Director Suggests Regulations for Bathing Pools.

Recreation Director Jesse P. McClure today appealed to swimmers to aid water safety in Indianapolis this year by observing regulations. Here are some suggestions:

Don't swim alone; every swimmer needs a water buddy to give the alarm in case of an accident. Avoid long swims after a period of inactivity. Train gradually. Wait two hours after eating to avoid stomach cramps. Don't dive in deep water first; wade in shallow water until the body is accustomed to the water. Be sure there is six feet of water free from stumps and rocks before diving. Don't remain in water too long.

Plan More Pools

Five more modern pools costing \$30,000 are planned by the park board. Proposed sites include Ellenberger, Garfield and Brookside Parks. The pools will be 150 by 75 feet with a wading pool for children in the center.

Ernest S. Hoelscher of the American Red Cross staff will conduct weekly classes at pools and instruct life guards in teaching beginners.

Women Teach Children

Young women give special instruction to children. They are: Alberta Clark, Willard Park; Olive Willworth, Ringgold; and Louise Schetter, Wardleigh Beach.

McClure Beach, closed on order of Dr. Herman G. Morgan, health secretary, is expected to be open next week when sewage pumps at Fifty-Fourth and Meridian Sts., are in operation. The stream was contaminated by sewage.

Excessive rains soaked the wool of a flock of sheep near Sedalia, Ohio, and when the animals burrowed into haystacks timothy seed fell on their back, germinated and sprouted.

TOWN SEEKING  
TO BUY MUSCLE  
SHOALS POWER

Alabama Citizens Press  
Plan to Obtain Cheap  
Electricity.

WASHINGTON, June 25.—Demand that the Government let a municipality buy Muscle Shoals power was made of the War Department today and will be continued today by a delegation of sixty citizens, who say they represent 30,000 Alabamians.

They are residents of Sheffield, Tusculumba, Florence and Muscle Shoals City, all of which are grouped around the Government property in Alabama. The specific demand is power be sold to Muscle Shoals City, which borders on nitrate plant No. 2.

Muscle Shoals City recently filed a bid with the Government, asking for the right to operate a Government pumping plant to supply water to its community and to serve the Government free at the same time.

The application was favored by the ordinance office of the War Department and approved by Secretary of War Davis.

In seeking the water permit, Muscle Shoals citizens had the idea in the back of their heads that they could obtain control of two huge transformers in the water plant and thus, by purchasing power directly from the Government, serve themselves with electricity at a low rate.

Company Opposed

These citizens charge that the Alabama Power Company got wind of their plans and is doing everything to block them. The company has filed for a bid for use of the water plant and is pressing its claim.

Although it already had approved the application from Muscle Shoals City, the ordinance office says other agreements with the Alabama Power Company also involve the use of the water plant and now urges the citizens of the municipality to agree to buy their water from the power company and let it operate the water plant.

This delegation has refused as yet to do, and the ordinance office has asked delay while it investigates the situation more thoroughly.

Charge Monopoly Sought

Speakers told the secretary that the Alabama Power Company was trying to get a monopoly and that they were trying to break up the high power rates being charged by the power company in Alabama cities.

The secretary of war refused to make any decision and said that any action was up to the army engineers. The delegation plans to put its demands before Maj. Gen. Edwin Jadwin, chief of the army engineers, today.

In case the water and power permit is granted, Muscle Shoals City plans to sell electricity to its inhabitants at \$1 per month per user. There will be no meters and a consumer will be permitted to use

Europe's Trouble-Maker

This is the young man who started all the trouble between the Soviet and Poland, by assassinating M. Volkoof, the Soviet minister to Warsaw. His name is Boris Kowderka, and he is shown here under arrest. Moscow got hot under the collar because the Poles punished Kowderka with only an indeterminate prison sentence and the League of Nations got busy to prevent possible trouble.

W. C. T. U. Asks Jim,  
'Why Did You Do It?'

"Oh! Jim, why did you do it?" This query of Charles M. Fillmore, general secretary of the National Woman's Christian Temperance Union, unless Senator James E. Watson answers the question soon.

There can be no smoke screen for the august Senator this time. It is up to him to explain how his "handsome physiognomy" and "illustrious cognomen" was used in a famous cigar advertisement. The phrases are Fillmore's.

Fillmore demanded explanation and other league members have written letters, but all to no avail.

all the power that he wishes, day or night. This municipality at present generates its own power with gas engines, saying that it refuses to deal with the Alabama Power Company, because that concern demands exclusive rights for serving the community.

EMPLOY BUS DIRECTOR

Public service commissioners at a conference has permanently employed Luke Duffey, former State Senator and Farm Federation leader, as assistant service director at a salary of \$2,700. He has served in this capacity for several weeks, his duty being to coordinate bus lines throughout the State.

Edgar S. Coffman and Clinton J. Whitney were named engineers, at salaries of \$2,100. J. B. Robbins was employed for thirty-one days at \$165 as engineering assistant.

LEAGUE WANTS  
ELEVATION OF  
TRACKS RUSHED

City Officials Scored at  
Meeting of South Side  
Citizens.

In a resolution adopted by members of the Garfield and Surrounding Civic League Friday night, city boards and officials of the Indianapolis Union Railway were urged to hasten elevation of the Belt railroad.

Citizens of the South Side who spoke at a meeting in the Garfield Park shelter house declared the elevation work has been postponed. The resolution follows: "Resolved, eight years. That this league urge prompt action be taken for the promised elevation of the Belt railroad tracks and that it shall be taken before expiration of four years, and we earnestly petition the proper authorities to act as soon as possible."

John Rittenbach, executive committee member stated that if the South Side waited for "politicians to hand us what they can, all hope is gone."

Manager May Help

"Perhaps through the city manager plan we can whip the politicians and get something for the south side," he said. "We should continue to fight. We do not want to wait five years for the track elevation work. We want it at once."

Other association members declared no satisfaction was obtained from board of work members in connection with the situation. They said they received a promise from the board that track elevation will start thirty days after the flood prevention work at Morris St. and White River is begun.

H. F. Kottkamp, president of the league, said there was no use to name a committee to call on the board of works about the situation.

Useless to Ask

"That bunch of city hall politicians would send us back home without doing anything for us as they always have," he declared. "If we want to bring about elevation of these tracks, we are going to have to get out and fight for it. There is no reason why we should have to wait four years for an improvement that means so much to the South Side. It is up to us to show city officials that the South Side's interests must be considered and we want quick action."

R. M. Love, publisher of the South Side citizen said "the cards are stacked against us politically."

It was agreed to send letters to the board of works seeking better lighting facilities in the district.

A committee composed of Mrs. Edward Baumgart, chairman; John Chieffler, Kottkamp, and Claude Miller, was appointed to make nominations for officers of the league to be elected July 29.
