Delegates to Labor Parley Call on Coolidge to Withdraw Forces.

WASHINGTON, July 19.—Nicaraguan delegates to the Pan-American Federation of Labor Congress here today introduced a resolution calling upon President Coolidge to withdraw United States forces from their country immediately.

The resolution said the majority of the 200 to 300 Nicaraguans reported slain in the July 16-17 battle between marines and rebels at Ocotal were "pacific and long-suffering workers who have taken up arms because they can not tolerate that armed force of a foreign nation should rule their country."

The document would place the congress on record in "fullest sympathy with the aims of the working masses of Nicaragua, who are resolved to withstand foreign invasion of their country."

U. S. Plane Shot Down

MANAGUA, Nicaragua, July 19.—Two American airplanes, sent on a reconnaissance trip by Capt. Gilbert Hatfield, were struck by bullets yesterday and one was forced down when the gasoline tank was punctured. It was reported today at marine headquarters here.

Skilled navigation by Gunner Sergeant Albert S. Munsch brought his crippled plane to earth at Ocotal, where he plugged his gas tank and took off again. He next was heard from at Estel, where he telephoned to marine headquarters at Managua that General Sandino, Liberal leader, again was attacking Ocotal.

Hatfield was advised that 300 Nicaraguans and one United States marine were killed in the 16-hour battle at Ocotal last Saturday, which ended with the routing of the Nicaraguans by five American planes.

Word of the new attack caused Marine Major Floyd to leave with a column of troops to prevent Sandino from reorganizing his forces.

CONDEMNED PAIR REFUSE TO EAT

Sacco and Vanzetti Disdain Prison Meals.

BOSTON, July 19.—Nicola Sacco and Bartolomeo Vanzetti refused again today to eat breakfast brought to their cells in the Cherry Hill section of Charlestown State prison.

At 8 a. m. today more than forty-eight hours had elapsed since either of the prisoners had taken solid food.

Vanzetti slipped his coffee this morning, but, as was the case yesterday, declined all solid food. Sacco continued his abstinence from both food and liquids, with the probable exception of water. There is running water in each cell.

The warden, who has authority to order forced feeding, gave no hint today that he was considering such methods. The physical condition of the prisoners was reported unchanged.

BOY PATIENTS EAGER TO SEE LINDBERGH FLY

Hero Worshiper Asks Visit to Hospital; Aviator to Start on Tour.

BOSTON, July 19.—Little patients at the Boston Children's Hospital will be unable to go to the Boston airport Friday to greet Colonel Charles A. Lindbergh, but Lindbergh may go to them.

Mayor Nichols has forwarded a letter sent to him for the flier from an enterprising young hero-worshiper, confined to the hospital.

The letter read:

"Dear Colonel Lindbergh: 'I made a mistake and sent my letter to you care of the Mayor of New York, but my aunt said that was a mistake, because he would lose it. So I am writing again and this time I am sending it to the Mayor of Boston. I asked you in my other letter please to fly over the Children's Hospital when you come to Boston Friday.'

"I would like it much better if you would come to see me, but if you can't, will you fly over the hospital, very low? I am on the third floor and I have double mastoids, but I'm not sick and I will watch for you all day Friday on the porch and I'll tell the other children."

"I hope the Boston mayor won't forget to send this to me. I live in Spokane, Wash., and I am here on a vacation."

"From your friend, 'NED'."

Leaves Mitchell Field

Colonel Lindbergh left Mitchell field at 9:30 a. m. at the controls of a Wright service plane for Hasbrouck Heights, N. J.

From there he planned to go by automobile on an inspection trip of the plant of the Wright Aeronautical Corporation in Paterson.

Charles L. Lawrence, designer of the Wright Whirlwind motor and President of the Wright Corporation, and Lew Gower, test pilot for the Wright Corporation, were passengers with Lindbergh.

Will Fly Own Plane

After the visit to the plant, Lindbergh was scheduled to fly back to Mitchell field in the Spirit of St. Louis, his own plane, which has been overhauled at the Wright plant.

At noon tomorrow Colonel Lindbergh was expected to take off for Hartford, Conn., the first leg of the nation-wide tour under auspices of the Guggenheim fund for the promotion of aviation.

AIR BOOSTERS WILL LAY PLAN BEFORE GLOVER

Possibility of New Mail Service for City to Be Discussed Wednesday.

Postmaster Robert H. Bryson and George T. Bryant, Central Airways, Inc., representative, will confer Wednesday with W. Irving Glover, second assistant postmaster general, in charge of air mail, relative to local air mail possibilities. Glover will be here for the tri-State postmasters' convention.

Bryson said there is no doubt Glover will advertise for bids when he learns that Central Airways, which proposes to establish commercial routes in sixty days, is anxious to bid on air mail.

It is Bryson's hope that Indianapolis will be made the "air mail cross roads" of America, with a Southern trans-continental line and a Chicago-Atlanta route connecting here.

Bryson returned today from Detroit where he collected data to be used by the local firm.

He has been collecting data on cooperation methods and costs and other technical information which will be presented the Central Airways directors after Aug. 10, when it will be decided what lines can be operated profitably. Paul Q. Ritchey, Airways secretary, is studying eastern airports.

Bryant will go to Chicago Friday to confer with Paul Henderson, National Air Transport Company president, relative to linking an Indianapolis line with the Chicago air mail service.

A plan whereby Indianapolis patrons can mail a letter at 3 p. m. and reach New York at 7 a. m. is being considered, Bryant said.
