

POLICEMAN PAY TILT DEMANDED

Firemen Also Need Boost,
Councilmen Declare.

City Councilmen Boynton J. Moore and Walter Dorsett have returned from vacations full of sparks which promise fire when the council meets next Monday.

They declared that the 1928 city budget will provide for a 50-cent daily increase for police and firemen, or they will not vote for it.

Dorsett was indignant because the special "hand picked" committee of council decided to quash the impeachment charges against Mayor Duvall and City Controller Buser in a closed door session.

He said he would support a minority report favoring impeachment, if Councilman Robert E. Springsteen, a committee member, files it. Moore said he might support it.

If Springsteen, his fellow Democrats, Edward B. Raub, Moore, Dorsett and Otis E. Bartholomew, who filed the charges, vote for a minority report, they could compel Duvall and Buser to stand trial, although it takes six votes to convict.
