

NAVAL OIL IS SEALED UP IN BIG RESERVES

Fields Restored After Long Court Fight and Production Halted.

By United Press
WASHINGTON, Sept. 2.—The naval oil reserves which are leased out by Albert B. Fall now have been practically sealed up and the millions of barrels of Navy fuel are being held in the ground against the day of need.

Control of these tremendous oil fields was restored to the Navy Department, effective Aug. 1, by executive orders of President Coolidge canceling the famous Harding order putting the Navy oil in the hands of Fall, then Secretary of Interior.

The great California naval reserves have been restored outright to the Navy Department, Doheny's Elk Hills lease having been canceled by the United States Supreme Court.

Doheny made three small California leases with Fall about the same time as the big Elk Hills lease. Suit for recovery was brought by the Government on the ground of fraud.

Closed Twenty-One Wells

The Navy has closed all of the twenty-one producing wells on the California reserves which once had an output of 1,500,000 barrels a year.

The Teapot Dome reserve in Wyoming, leased to Sinclair, is now held by receivers pending the outcome of the Government's suit to cancel the lease. The Government lost in the trial court, but won a reversal in the Appellate Court. Final decision will be made by the United States Supreme Court.

Meanwhile production has been

Enjoy your food—

as it nourishes your body

If your appetite is not keen you owe it to yourself to take S.S.S. regularly before each meal. It will give you a good appetite.

In these days of fast competition, only full-blooded, robust, healthy people can keep to the front, and success comes to those who have the snap, vigor and magnetism that go with a wholesome, healthy life.

Don't despair because others forge ahead of you. Start right now to regain the health which will help you progress. A hearty appetite will restore your energy, build you up and give you "pep."

Thousands have benefited them-

held down to about 900 barrels a day, the receivers taking the position that they should protect the interests of the Government by retaining as much oil as possible in the ground. Teapot Dome is estimated to hold between 25,000,000 and 30,000,000 barrels. Experts of the geological survey are making a new survey now and these figures may be revealed.

Only two new wells have been drilled in Teapot Dome since the receivership went into effect March 13, 1924. Those were necessary to offset wells put down outside the reserve line by private companies.

Before the receivers took charge, Sinclair had, under his lease, taken out oil valued at \$2,200,000. The Government will be reimbursed if it wins the suit.

The Navy has entrusted its oil reserves to Rear Admiral Rousseau and Capt. H. A. Stuart is again in active charge. He had charge of the oil reserves under Josephus Daniels, who insisted upon keeping the oil in the ground when efforts were made to open up the reserves to private drilling. He was taken off of the assignment when Rear Admiral Robinson came in and supported the Fall leasing policy.

CELEBRATE EXPANSION

Standard Nut Margarine Salesmen to Join in Picnic.

More than 100 salesmen for the Standard Nut Margarine Company are expected to take part in the company's celebration today and Saturday of the completion of the new addition to the plant at Roosevelt Ave. and Lewis St.

Salesmen and trucks of the company herded through the business district this morning.

A picnic and chicken dinner at Broad Ripple Park will follow the parade.

BORER INTO NEW AREAS

Fourteen Counties of State Now Are Infested.

Spread of corn borer infestation to two new northeastern Indiana counties, bringing the total to fourteen, is announced by State Entomologist Frank Wallace. Total number of infested townships soared to 111, with today's report from

Auburn, State field headquarters. New townships in St. Joseph County, hitherto an uninfested county are: Harris, Clay and Elkhart, the other new county, has Jefferson, Baugo and Benton townships infested.

Jefferson and Scott townships in Kosciusko County were added to the list.

PLANES PACK NUGGETS

Russia's Klondike Connected With World By Quick Delivery

By United Press

MOSCOW, Sept. 2.—Russia's Klondike has been connected with the outside world by airplane for delivery of the gold nuggets dug from the earth in the rich Aldan goldfields of Siberia.

The gold deposits were formerly several days' travel from the nearest railroad, when the journey out was made by pack-horses and sleds, loaded with gold. Now the gold is rushed out in a few hours by airplane.

INSANE PATIENTS ARE TREATED WITH COLORS

Ruby Hue Found Best for Melancholia and Depression

By United Press

PEORIA, Ill., Sept. 2.—A patient suffering from melancholia or depression in the future will be placed in a room decorated chiefly in ruby tones, if the treatment of Dr. Geo. A. Zeller, Superintendent of the State Hospital at Bartonville, Ill., becomes general.

Dr. Zeller, who already prescribes colors for various troubles of patients committed to his care, says that violet as a predominating color scheme and violet glasses

prove restful to patients who are irritable, while chrome has a relaxing effect and relieves spasmodic conditions.

Particularly will treatment of insanity cases in the future include prominently the use of colors, Dr. Zeller says.
