## NATION LOSING ONE-FOURTH ON DROUTH LOANS

Uncle Sam Lends Seed Money to Distressed Farmers but Gets Less Back.

By Times Special

WASHINGTON, Sept. 2.—The Government gets back only 75 per cent of the money it loans to American farmers during droughts and other times of distress, it was estimated at the department of agriculture today.

These loans are handled through the agricultural extension bureau on authority of Congress and first came into existence in 1921.

In that year \$2,000,000 was loaned to farmers of the North West because of drought. The next year an additional \$1,500,000 was loaned. The return since that time has been about 72 per cent, although several good crop years have followed.

### New Mexico Loan

The next loan was in 1924, \$450,000 to farmers of New Mexico because of drought. The return on that has been about 65 per cent.

In 1926, \$244,000 was voted for relief of Florida farmers as result of the hurricane there. While the returns are just coming in, they are expected to be good enough to pull the average of all loans up to 75 per cent.

This money is loaned only on condition that it will be used for purchase of seed. It is expended through committees and Government agents, set up temporarily in the communities where the emergencies arise.

### Bill Defeated

The last Congress set up the machinery to expend \$8,500,000 in assisting Southeastern farmers, but failed to appropriate the money when the deficiency bill was defeated.

Relief to farmers in the flood-stricken Mississippi Valley will probably come through legislation in the next Congress along similar lines.

Because of lack of Government funds, the agricultural department has set up seed-loan organizations all through the Mississippi Valley, which are being financed with Red Cross funds and with the assistance of the United States Chamber of Commerce other loans are being made for reconstruction.

## SOLDIER PRINCE TO REST

Henry's Regiment Will Be Stationed In London This Winter

By United Press

LONDON, Sept. 2.—Great Britain's "soldier prince," as well as the Prince of Wales, is to have a new London residence as soon as the Canadian trip of the heir to the throne is completed.

When the Prince of Wales moves into Marlborough House upon his return to London, York House, his former residence, will be occupied by Prince Henry, King George's third son, whose regiment, the 10th Hussars, will be stationed in London this winter.

Prince Henry has been careful to take his leave from his military outfit only when they have come around and has avoided acceptance of any special privileges.

Pastor Charges Another Clergyman With Altar Fraud

CAMBRIDGE, Eng., Sept. 2.—The Rev. Charles Henry Scott of Ely cathedral, sued the Rev. Montague Hobart, Rector of Lymington. He alleged that Bethune had misrepresented the value of an oak altar and equipment sold to Scott for \$100.

Judge Farrant dismissed the case and referred the holy men to the Bible, first verse, sixth chapter of the first Corinthians: "Dare any of you, having a matter against another, go to law before the unjust and not before the saints."
