

IT WON'T BE LONG NOW, SAY FORD BOSSES

Informally, They Admit New Flivver Is About Ready; Officially Ignorant.

RECEIVE MANY ORDERS

Rumors Are Plentiful and Facts Few; Strange Auto Causes Traffic Jam.

By United Press
DEARBORN, Mich., Oct. 24.—Henry Ford's associates announced today that production of the new de luxe flivver would commence "in a few days."

Only one other machine was ever produced amid such secrecy or got such liberal space in the newspapers. That was the tank which the British sprung on the Germans in 1916.

Bland in Ignorance
Ford executives here were bland in their apparent ignorance and unconcern. Their ignorance might have been genuine and their unconcern, no doubt, was based on the fact that the company has already received sufficient "sight unseen" orders to insure a successful debut for the late edition of Ford's commodity.

Facts about the car were few; rumors were plentiful.
The company was still engaged in tooling the mammoth River Rouge plant, it was stated. The number of employees there has been increasing gradually in recent weeks, though the total was still considerably below the peak point.

Seen on Detroit Street
However, the new Ford is an accomplished fact even if the assembly line has not yet started functioning. A number of cars have been turned out for exportation and recently the appearance of one of these in Woodward Ave., Detroit's main street, came near causing a traffic jam. It got away before it could be examined.

Residents here have seen the new Ford on a few occasions. The most recent was when Edsel Ford drove his father to the airport to welcome home Edward F. Schlee and William S. Brock, round the world flyers.

Edsel Dodges Camera
On that occasion Edsel drove the car into a covey of cameras, still and movie, belonging to newspaper men waiting the flyers. But Edsel was quicker than the cameramen. He swung the machine around and was off again to find a parking place half a mile away in an inaccessible spot.

That machine—it may have been a regular model or specially designed for Henry Ford—was a neat looking sedan somewhat larger than the present type. The lines were conservatively elegant and wire wheels replaced the old type. It moved swiftly and easily and if it was a gear shift car the fact could not be detected from Edsel's motions when he got stopped.

Death Held Accidental
GARY, Ind., Oct. 24.—Belief was expressed today that William M. Mackay, 87, whose body was found in the Grand Calumet River here Sunday, was a victim of accidental drowning. He disappeared two days previously. Relatives gave little credence to theories of death by violence or suicide.

Asthma So Bad She Was Hopeless
Expected to Die. Got Well Quickly
No Sign of Asthma Now

Readers whose asthma, or bronchial cough seems to be getting the best of them, will be glad to know how Mrs. M. Bennett, 128 N. Noble St., Indianapolis, Ind., regained health after she had lost hope. She writes:
"I suffered with asthma for several years. Then three years ago I caught the flu, and my asthma became so bad I was absolutely hopeless. I coughed and choked so terribly I could hardly get my breath. Friends and neighbors never thought I would get over it, and I thought my time had come. My daughter read about Nacor in the newspaper, and got a bottle. I didn't see any use in trying it, but I took it, and started improving almost at once. In all, I took three bottles. I recovered entirely and have never had a sign of asthma since. I am 63 years old and feeling just fine. I never can thank Nacor enough."
Hundreds of other sufferers who were just as discouraged as Mrs. Bennett have also reported their complete recovery from asthma and severe bronchial coughs. Their letters, telling how their trouble left and never returned, will gladly be sent free by Nacor Medicine Co., 413 State Life Bldg., Indianapolis, Ind., together with a booklet full of valuable information about these dread diseases. No matter how serious your case seems, call or write at once for this free information. It has guided thousands back to health and strength. Advertisement.

Ambassador to Peru Will Run for U. S. Senate.

By United Press
SPOKANE, Wash., Oct. 24.—Miles Poindexter, United States ambassador to Peru, told the United Press he will resign his diplomatic post next spring to become a candidate for nomination to the United States Senate on the Republican ticket.

Poindexter left today for Washington and will go from there to Peru.
Poindexter served in the Senate from 1911 to 1923. He introduced the bill to exclude Japanese from the United States.

"I will leave Monday for Peru and will return early in the spring to carry on my campaign to regain the Senate seat," Poindexter said. "My policy will be in accordance with the Coolidge administration in the main. I will also pledge myself to uphold the prohibition law."

YOUTHS FACE CHARGES

Five in Jail for Vagrancy After Weapon Is Found.

Charles Stewart, 19, of 2140 Randall Ave., Frank Johnson, 18, of 515 W. Vinton St.; Clifford Gause, 18, of 1312 Nordyke Ave.; Louis Smith, 20, of 1248 Randall Ave., and Claude Kicks, 17, of 813 S. Missouri St., are held at the city prison under high bonds on vagrancy charges.

Police stopped the quintet Sunday as their automobile sped past with open muffler. Stewart, who tried to dispose of a revolver at the time of the arrest, was charged with carrying concealed weapons. Johnson, the driver, was charged with violating the muffler law.

The Health of Mother and Baby

The expectant mother should guard against unnecessary suffering which may do permanent damage to her health. The kidneys are often the cause of much trouble—they are heavily burdened during this period, and should be given all the assistance and protection possible. Mountain Valley Water from Hot Springs, Arkansas, gives natural assistance to the kidneys.

JOHN E. MCGLOTHAN SAYS:
(Warrant Officer, U. S. Army, Ft. Harrison)
"I attribute my baby's fine health to Mountain Valley Water. I recommend it to any one desiring a pure, medicinal water with which to raise a healthy baby."

LIQUOR BUYING OF GILLIOM UP TO GRAND JURY

Adams County Panel Will Convene at Decatur Nov. 7.

By United Press
DECATUR, Ind., Oct. 24.—The showdown on Attorney General Arthur L. Gilliom's procurement of medicinal whiskey while a sister was at death's door will come Monday, Nov. 7, when the Adams County grand jury convenes.

C. L. Walters, Decatur Sunday school teacher, dry leader and attorney, and other Adams County dry leaders, remain firm in their contention the attorney general was false to his trust. Regardless of the moral issue. They maintain Gilliom should have obeyed to the letter the Wright bone dry law, which forbids prescription or use of medicinal whiskey.

Drys Want Indictment
If they have their way about it, the grand jury would be asked to investigate and determine whether Gilliom violated the law, but there is no assurance that Gilliom will come under investigation by the jury.

For one thing, the evidence—the pint of whiskey Gilliom admitted procuring in Ft. Wayne, to be administered to his sister, Mrs. Maude Gilliom, Berne, herself a staunch member of the W. C. T. U., has disappeared from the Decatur hospital safe in which it was being kept.

Nevertheless, Walters threatens to take matters into his own hands. If the grand jury fails to act, he says he will file an affidavit against Gilliom, provided he is convinced the evidence is sufficient.

Board to Meet Soon

Before the grand jury session, developments may come from a meeting of the hospital board, some of whose members are anxious drys. The board convenes early in November.

Gilliom, after admitting obtaining the whiskey and defending his action, retired into silence, broken only by the brief statement he was not "alarmed" by the Adams County agitation over the right of his act. The sister, Miss Gilliom, has taken no part in the controversy, but attended a W. C. T. U. meeting at which a resolution attacking her brother was adopted.
