## WELL KNOWN REAL ESTATE MAN BACK TO HEALTH AGAIN

C. S. Buck Tells How Konjola Ended Every Form of Suffering He Had.

Strong proof of what this Konjola medicine has done for Indianapolis people in cases of stomach, liver kidney and rheumatic or neuritis troubles is told in this surprising report from Mr. C. S. Buck, 2319 College avenue, this city, which was given personally by Mr. Buck to the Konjola Man at Hook's drug store, Illinois and Washington

MR. C. S. BUCK

streets, where greater throngs of local men and women continue to call throughout each day to hear a personal explanation of this new compound.

Mr. Buck is a prominent real estate dealer of Indianapolis and is also widely known throughout the state of Indiana.

"Konjola has ended every form of suffering I had," reads Mr. Buck's statement, "and it restored me to health right at a time when I was almost sure that nothing in the world could possibly help me, so I am going to publicly endorse a medicine for the first time in my life."

"Hundreds of people in the city well know the condition my health was in before I found Konjola. My stomach, liver and kidneys were badly disordered and I was afflicted with neuritis in my shoulders and arms, and was a victim of constant pains and aches. I couldn't bend my elbow or raise my left hand above my waist line, and was unable to dress myself without help. My stomach was so unhealthy that everything I ate brought pains in the pit of my stomach, food would sour, causing a hot, bitter liquid to rise in my throat and my chest would burn like fire. I became so bloated with gas that I couldn't fasten my belt or vest. I was finally forced on a strict diet of only milk, but yet I suffered, and I was always having terrible headaches and bilious spells, due to a sluggish liver, and subject to dizzy attacks any hour of the day. I was afraid to venture out of the house alone. Owing to weak kidneys, I had to rise from six to ten times a night, and my back was stiff and sore. I didn't know what a night's rest was like, and my system in general seemed to be so full of poison that I was told I had dropsy and so many other things I can't remember."

"I have spent a fortune the last few years trying to regain my health. I tried everything, regardless of expense, but was going from bad to worse. I first saw Konjola in the window of one of Hook's downtown stores. I got it for my stomach trouble, and had no idea it would help my other suffering. I was in a pitiful condition, and thought if it would only help my stomach so that I could eat, I would be more than thankful. Yet I had no faith in it, but started taking it exactly as directed. The change came over me the first week. I began to eat heartily, and the bloating pains and belching was gone. My stomach was certainly better and in a short while the other pains and aches were leaving my body. I kept right on taking several bottles of Konjola until I felt sure I was in good health again, and then I made up my mind to endorse this medicine. Today my liver is in a healthy condition. I don't know what it is to have a dizzy spell or bilious attack. The headaches are gone, and my back is free of pains, and I only get up once at night on account of my kidneys—sometimes not at all. Every trace of neuritis is gone, and I can raise my hand far above my head. This one thing alone is worth a thousand times the price of Konjola to me. It is an honest fact that I am feeling better today than I have in twenty years, and my only hope in making this endorsement of Konjola is that it will convince other sufferers about the great good this medicine will do for them."

The Konjola Man is at Hook's Drug Store, Illinois and Washington streets, Indianapolis, where he is daily meeting the local public and introducing and explaining the merits of this remedy. Konjola is sold in every Hook drug store in this city and all druggists throughout this section.—Advertisement.
