

FAMED BRITISH SCIENTIST WILL LECTURE HERE

Bertrand Russell to Speak at Open Forum; Debated With Durant.

Bertrand Russell noted English scholar and scientist, will come to Kirshbaum Community Center Sunday for the opening lecture on the Open Forum series under auspices of the Jewish Community Center Association.

Russell will arrive from Boston, where he has just debated with Dr. Will Durant.

Throughs filled Symphony Hall to hear these famous men debate the question, "Is Democracy a Failure?" and at the conclusion both men received flattering applause.

Dr. Durant, small in stature and dressed in evening clothes, his hair dark with just a strand of gray here and there, and with a small black mustache and imperial, took the view that democracy is a failure.

Dr. Russell, a special professor at Harvard and now on the lecturing staff of the British Institute of Philosophical Studies, is a man of medium height, of rather square build, with silvery hair and black piercing eyes, declared that the danger in electing only educated men and men experts in the economic and finance is that they would be apt to pass laws which would neither be wanted nor understood by the great mass of the people.

Democracy Test Simple
"My test of democracy would be a simple one," said Russell. "Are the Democratic countries of the world, taking the population right, happier? Are they more intelligent, more progressive than the undemocratic countries? And when you take that broad basis I cannot see how anyone can question the fact that our country and mine also are among the happier countries of the world."

"If you compare the happiness of the average citizen in your country with the happiness of the average citizen of past times, or of undemocratic countries, it is hardly possible to resist the conclusion that democracy has been a contributing factor in the general distribution of welfare. No people are as happy as they would like to be, but they are happier now than they were in former times."

"Democracy has certain very great merits. It is in the first place the educational merit, and that is an enormous one. Do you suppose that if in this country you had a government of the best people—and by the best people, I mean the five per cent, who have the most money—there would be anything like the money spent upon education that is now spent upon it?"

Another Great Merit
"The second great merit is that it prevents certain forms of gross cruelties. In all the cases that history ever has shown us or can show us at the present day, where one set of men has the power to govern another set of men, those who will have the power will exert the grossest cruelty they can use. If you are

TAKE SALTS FOR A KIDNEY BACKACHE
Drink Lots of Water All Day Long to Keep Kidneys Flushed.

Too much rich food forms acids which excite and overwork the kidneys in their efforts to filter it from the system. Flush the kidneys occasionally to relieve them like you relieve the bowels, removing acids, waste and poison, else you may feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, the stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, the channels often get irritated, obliging one to get up two or three times during the night.

To help neutralize these irritating acids and flush off the body's urinous waste, begin drinking water. Also get about four ounces of Jad Salts from any pharmacy, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine and bladder disorders disappear.

This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive and makes a delightful effervescent lithia-water drink which millions of men and women take now and then to help prevent serious kidney and bladder disorders. By all means, drink lots of good water every day.—Advertisement.

What Have Your Teeth to Do With Ill Health?

We are constantly being asked by patients, "What have my teeth to do with my sickness?"

The world has come to know through physicians and others that bad teeth mean bad health, that the infection from a decayed tooth or an irritated gum lasts as long as the condition is untreated. If your teeth are bad and your health is low, you need dentistry. If obtained here it is a high grade service at low cost.

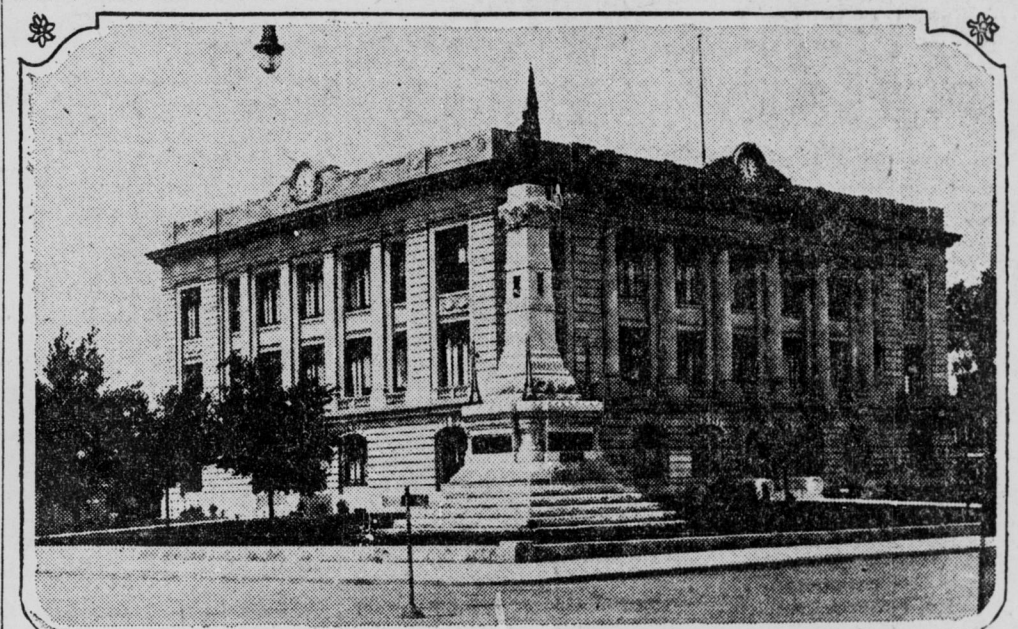

"There is no need of fear of the dental chair at The People's Dentists. I had teeth taken out—didn't know they were out—just thought the doctor was getting ready."

—Mrs. Dora Doran,
1027 W. Brook.

FARM HAND INDICTED AS KILLER IN DEATH OF AGED RECLUSE

Murder trial of Lloyd Kimble, farm hand, charged with brutally slaying and burning the body of Daniel Sink, aged recluse, will be the first in the Carroll County courthouse (shown at top), built ten years ago at Delphi, Ind. Harry Gates (right, below), Indianapolis, deputy State fire marshal, assisted Sheriff Riley Sink, distant cousin of the murdered man, in obtaining the confession from Mrs. Jeanetta Taylor, 24, which led to Kimble's arrest and indictment. Judge E. E. Pruitt (center, below), presides in Carroll Circuit Court, where the trial is to be heard. Prosecutor Joseph T. Ives, 24 (left, below), will be assisted in the prosecution by former Judge Charles R. Pollard.

going to have people with self respect, who are not viewed with contempt, you must endow them with their share of power."

Dr. Russell's subject for his Sunday lecture is "Education and World Peace" and it is expected the capacity of the new auditorium of Kirshbaum Center, at Meridian and Twenty-Third streets will be taxed to the limit.

Dr. Howard E. Jensen, professor of sociology will be chairman of the meeting, and after the address the public is invited to join in the discussion of the subject.

Season tickets for the seven lectures are on sale at downtown book and department stores, and tickets for each lecture may be purchased each evening before the lecture.

OCTOPUS IS IN SUIT
Realty Firm Seeks Damages for Hook's Lease.

An octopus and Mexican gems figure in a suit for \$10,000 filed in Circuit Court today by the Block Realty Company against the Hook Drug Company, in which the realty firm seeks an injunction preventing Hook from conducting anything other than a general drug store at 105 and 107 N. Illinois St.

The building was leased to the drug company Nov. 9, 1923, for six years and two months, by the Mercantile Building Company, of which Albert M. Rosenthal is president, and which is a subsidiary of the Block Realty Company, the suit sets out.

It is alleged that the drug company violated the terms of the lease when it sub-leased 105 N. Illinois St. to O. H. Mitchell, retailer of Mexican gems, and sub-leased the adjoining room to J. M. Hamilton, who displayed an octopus in it.

Complaints from neighboring business men and depreciation of the property's value is given as causes for the action.

AL SMITH TO GO ON AIR
WJZ and WFW to Broadcast Speech to Democratic Rally

NEW YORK, Nov. 4.—Governor Alfred E. Smith's speech at a Democratic campaign meeting in the academy of music in Brooklyn tonight will be broadcast over radio stations WJZ and WGY. Joseph V. McKee, president of the board of alderman, will speak.

SUICIDE'S WIDOW SUE
RICHMOND, Ind., Nov. 4.—Mrs. Dora B. Miles of this city, whose husband, Frank Miles, committed suicide last June, is defendant in a \$10,000 alienation of affections suit filed in Wayne Circuit Court here, by Mrs. Lillie A. Hamilton, Connorsville.

Mrs. Hamilton alleges Mrs. Miles robbed her of the love of her husband, Charles Hamilton. The husband recently sought a divorce.

SHORT TALKS BY THOUGHTFUL MOTHERS
A Pennsylvania mother says: "I know the worth of Foley's Honey and Tar Compound. We used it for years, and it has never failed us. For croupy children, feverish colds, disturbing night coughs, it gives us a feeling of security to have Foley's Honey and Tar Compound in the house." No opiates, no chloroform. Foley's Honey and Tar Compound carries a strong appeal to thoughtful mothers everywhere. Ask for it. Sold everywhere.—Advertisement.

Fayette Circuit Court at Connorsville, but decision in the case was taken under advisement.

COMB SAGE TEA IN HAIR TO DARKEN IT
It's Grandmother's Recipe to keep her Locks Dark, Glossy, Beautiful.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product for only 75 cents, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive.—Advertisement.

Inspection of Furnaces Urged by City Engineer

This is the first of a series of interviews with City Combustion Engineer Joseph C. Buchanan upon smoke elimination, to appear exclusively in The Times.

BY EDWIN V. O'NEEL
City Combustion Engineer Joseph C. Buchanan today appealed to citizens to take advantage of the fine fall weather to have heating plants inspected for winter use.

"This is an opportune time to have a competent and reliable heating contractor look over furnaces," said Buchanan.

Such service is volunteered free by about 200 dependable heating firms, he said. He pointed out the reliable firms are bonded and pledged to carry out orders of the city building department.

Tips on Inspection
Buchanan gave these tips to persons who undertake to inspect their own plants:

Examine smoke pipe connection with chimney, to insure it is airtight and does not project beyond flue lining.

See that chimney projects beyond highest point of building and neighboring structures. This will help draft and not annoy neighbors.

How to Clean Chimney
Use one of these three effective methods of cleaning soot from chimney:

About twice a month drop in an old dry cell battery, two or three tin cans, or double handful of salt. This causes a chemical action which tends to loosen soot, allowing it to pass out through the chimney.

Buchanan advised property owners to clean soot on days when atmospheric conditions are such that smoke will go straight up.

"Do not try it on wash days," he advised.

TWO NARROWLY MISS DEATH AT CROSSING
Couple in Car on Way to Buy Flowers Struck by Train.

On their way to buy flowers for the funeral of a friend, Charles S. Rock, 49, of 2120 Winter Ave., and Mrs. Fannie Shaffer, 53, same address, narrowly escaped death today when a cut of freight cars struck the Ford coupe in which they were riding and carried it half a block down the tracks at the Winter Ave. Belt Railroad crossing.

Both were thrown from the car and the machine was wrecked, but they are believed to have suffered only bruises.

Mrs. Shaffer is the mother of Police Captain Charles Sumner, who made a survey of Belt Railroad crossings in that vicinity several years ago and recommended they be guarded.

HOW TO STUDY COURSES HELP I. U. STUDENTS

Psychology Department Head Reports Higher Grades.

By United Press
BLOOMINGTON, Ind., Nov. 4.—The college "grind" who is compelled to study long into the night or "stunk" his classes, soon may have his labors lightened if "How to Study" courses, such as have proven so successful at Indiana University, are introduced into other schools.

Such is the report of Dr. William F. Book, head of the department of psychology, after tests with a number of such classes. Students taking the course have been able not only to earn more credits per semester, but also to improve the quality of their work. Whole classes have improved their grades as much as 6.56 credit points on the average, and one individual actually increased his grade from a C to an A minus.

"How to Study" courses for freshmen especially, should be an important part of every university curriculum," Dr. Book insists. He explains the purpose of such classes is to teach the student how to plan his studies efficiently so that he will lose no time. A definite standard of efficiency measurement shows that by taking the course, students have been able to increase the efficiency of their work from 76 to 96.3 per cent in one class and from 84 to 98.1 per cent in another.

"Efficient habits, however, cannot be incidentally acquired," Book points out. They must be established by getting the students definitely interested in making further and continued improvement in this direction and by giving them the encouragement and help needed."

SALE of New DUNBAR Living Room Furniture

Convenient Monthly Terms

Dunbar put into their products the BEST OBTAINABLE materials. DUNBAR frames are made entirely by hand of kiln dried hardwood. The corners are blocked, the joints reinforced with corrugated fasteners. The Springs in the base and back are of Premier wire. Nachman spring units are used in all cushions. The covers are skillfully selected with an eye for design, quality and beauty.

"The Delmar-Manor"
