

MIAMI MAY BE DEMOCRATS' '28 PARLEY CHOICE

First Time Since 1860 Party Has Considered South for Convention.

By United Press
NEW YORK, Dec. 9.—The Democratic party, for the first time since 1860, is seriously considering holding its next national convention in the south.

Clem L. Shaver, chairman of the national committee, after several conferences here, revealed that Miami, Fla., is looked upon with great favor by Democratic leaders as the scene of the 1928 convention, even going so far as to say that the decision probably would rest with the southern resort itself.

The contest for the convention virtually has narrowed down to Miami and two other cities, Detroit and Cleveland, Shaver said.

If Miami decides to back up its tentative offer, made by representatives several months ago, of \$200,000, Chairman Shaver believed it would be the choice of the committee.

The committee has a deficit of approximately that amount left over from the 1924 campaign, and is anxious to erase it from the ledger.

Railroad and steamship lines, meanwhile, have promised to cut their passenger rates in half should Miami be chosen.

If no bona fide financial offer came from the southern city, Cleveland was believed to be the most favored site because of its central location, Shaver said.

Would Break Marriage
RUSHVILLE, Ind., Dec. 9.—Edith Louise Jackson, Negro, who alleges she was only 15 years old when she became the wife of Irvin Jackson on Aug. 4, 1923, seeks annulment of the marriage in a suit filed in Rush Circuit Court here by her father, George Baly.

Clinic Boost to Health of Children in County

Beverly Ann Bradford (left) and Alice Jean Bradley (right), two of the happy products of the Fleming Garden Clinic, and County Nurse Alma Lancaster.

Among the varied health activities which the Marion County Tuberculosis Association carries on constantly in Indianapolis and Marion County as part of its preventive and curative program against the white plague is the child health clinic at Fleming Garden School, approximately three miles west of the city limits on the National Rd.

Hundreds of children of pre-school age are examined in this clinic by a physician from the county board of health, Miss Alma Lancaster, county nurse for the Tuberculosis Association, assists the physician there and does follow-up work in the homes.

The clinic meets monthly and mothers from the territory in the western part of the county bring their babies and pre-school age children to the clinic for medical examination and attention to various physical defects or conditions found.

Results often mean the difference between anemic, undernourished childhood and robust, thriving youngsters when they arrive at school age.

Similar child health clinics are held at Edgewood School and Keystone Avenue School.

The association's part in the functioning of these clinics is financed by the sale of Christmas Seals and Health Bonds.

Italians Give Monument
By United Press
RICHMOND, Va., Dec. 9.—Italian Ambassador Nobile De Martino today unveiled a monument to Christopher Columbus, the gift of Italian citizens of Virginia.

ARREST 64,000 IN U. S. DRY AGENTS' RAIDS

Helped State Authorities in Taking 13,000 Others During Year.

By United Press
WASHINGTON, Dec. 9.—Prohibition agents during the fiscal year ended June 30, 1927, made 64,986 arrests, assisted State authorities to make 13,506 arrests and furnished State officers information resulting in 1,587 arrests, Prohibition Commissioner J. M. Doran announced today in his annual report.

The Government collected fines totaling \$5,776,225 from liquor law violators and sent 11,818 to jail for sentences aggregating 4,477 years.

\$53 Rum Boats Seized
Enforcement operations resulted in the following seizures:

Boats 353, value \$316,333; automobiles 7,137, value \$3,529,296; property, valued at \$24,500,000; stills 14,512; stills, 11,881; liquor, 1,462,532 gallons; beer, 5,971,903 gallons; wine, 389,568 gallons; hard cider, 156,512 gallons; mash, 21,085,558 gallons.

Doran reported that the greatest number of "wild cat" distilleries were captured in Georgia, while New York activities resulted in the greatest seizures of hard liquor. More beer was confiscated in Michigan than in any other State.

Agents arrested 17,797 liquor law violators in New York State; Kentucky was second with 4,541 arrests, and Texas, third, with 3,499.

Six Dry Agents Slain
Six dry agents were killed by bootleggers during the year and fifty-nine injured, Doran said. Two were killed in California, two in Florida, one in Maryland and one in South Dakota.

The annual report stated there were now thirty concentrated whiskey warehouses in the United States.

Sniff Proof

By United Press
CHICAGO, Dec. 9.—There was nothing to do but dismiss a Federal prohibition law violation charge against John Taglio, who proved today that he owned only 1,000 gallons of grain alcohol, when prohibition agents raided his garage.

The dry agents obtained a "sniffer" warrant to raid Taglio's premises, on the ground they had smelled fermenting mash. All they found was 1,000 gallons of alcohol in sealed cans.

United States Commissioner Henry C. Beidler ruled the agents couldn't smell the alcohol through the cans and voided the warrant was void.

containing about 23,000,000 gallons of whiskey.

Col. L. G. Nutt, head of the narcotics division of the Treasury, announced today that 4,458 persons were convicted for violations of the drug laws during the fiscal year ended June 30, 1927.

Narcotic law violators were fined \$175,127 and received sentences aggregating 7,089 years, Colonel Nutt said in his annual report.

MAIL RIDES BLIZZARD
River Must Freeze for Northernmost City to Reach Outside.

BAUDETT, Minn., Dec. 9.—Northwest Angle, northernmost settlement in the United States, received its first mail in four weeks today.

The blizzard which caused suffering in other sections of the north was welcome at Northwest Angle because it permitted communication with civilization over the ice of the Rainy River.

Oscar Naylor, with fifty pounds of mail strapped on his back, walked eighty miles on the river ice from Baudette to deliver the mail. Several tons of mail and freight remain to be delivered as soon as the river freezes sufficiently to carry a sled.

BANDIT SUSPECT IS CAPTURED IN OHIO

Charles Hovious, 26, of Indianapolis, arrested at Bryan, Ohio, Thursday afternoon after the hold-up of the Huntington (Ind.) State bank, in which two bandits obtained \$13,000, has been identified by pictures as one of the bandits in a \$13,000 hold-up at the Forty-Second

St. State bank, 4209 College Ave., in August, according to Detective Chief Claude F. Johnson.

Local detectives will be sent to question Hovious and efforts may be made to bring him here, Johnson said.

Hovious also is wanted here for a number of filling station hold-ups and a hold-up of an Amboy bank.

Although detectives are following several clues, they have no definite trace of the bandits who held up the Madison Avenue State Bank Thursday. With the recovery of an additional \$50 in pennies, bank officials announced total loot was \$5,916.

The bandit leader, who gave his name as Kenneth Wilson when he opened an account and rented a safety deposit box in the bank Nov. 21, gave his name as Frank Kramer, the Lincoln, when he rented the green Chrysler car believed used in the hold-up, at 1 p. m. Thursday from the Saunders System, 234 N. Illinois St.

The car was found abandoned at 3:45 p. m. in front of 1119 N. Oakland Ave.

MONDAY PROVED BLUE
Woman Professor Finds No One Works Well That Day.

By United Press
LONDON, Dec. 9.—That peculiar languidness which one experiences on Monday mornings after a short week-end rest, known universally as the "Monday blue feeling," is a definite scientific fact, according to Prof. Winifred Cullis.

This revelation was made when Prof. Cullis was speaking on "Industrial Psychology Applied to the Home."

She declared that no one in the world works so well on Mondays.

LEGION PLANS WET-DRY POLL FOR NEXT YEAR

Will Submit 3 Questions; Spafford Gives Views on Enforcement.

By United Press
NEW YORK, Dec. 9.—A prohibition poll of the entire American Legion and its women's auxiliary will be taken May 15, 1928, Edward E. Spafford, national Legion commander, told the department of New York.

Three questions to be submitted: "Shall the Eighteenth amendment and the Volstead act be approved and continued?"

"Shall the Eighteenth amendment be continued?"

"Shall the Volstead act be amended, so as to permit the use of light wines and beers, with the usual natural percentage of alcohol?"

Asserting that there never had been a popular vote, by the people of the United States, on the adoption of the Eighteenth amendment, Spafford declared that no law should be enforced until it had the approval of a majority of the voters.

Bedford Motorist Hurt
By United Press
BEDFORD, Ind., Dec. 9.—Joe Duncan, Bedford, is in a serious condition in a hospital here as a result of injuries suffered today when the automobile he was driving was forced off the road by another said to have been driven by Emmet Bales, also of Bedford. The second driver did not stop after the accident and police are searching for him.

TOOK DOCTOR'S ADVICE — COLD GONE NEXT DAY

A great many Indianapolis people—like James H. Springer, have learned that it is no longer necessary to let a cold make a person feel miserable. For doctors at the clinic are recommending a simple home treatment that brings quick, sure relief—often in a few hours.

A severe cold had kept Mr. Springer from business several days. When nothing seemed to help him he called the clinic for advice. Doctors recommended double strength doses of Cherry Pectoral. With the first swallow he felt its soothing, comforting warmth, from his nose deep down into his bronchial tubes. Relief began immediately and as soon as the cold was completely gone.

COUGH GREW WORSE; FEARED PNEUMONIA

Every day cases are reported which show the same quick, sure relief experienced by Mrs. C. B. Ellis and vast numbers of Indianapolis people. Mrs. Ellis awoke on Tuesday with an inflamed throat, nose stopped up and eyes watery. She was unable to get relief through use of a nose spray and by the following day the cold was worse.

Congestion had spread deep down into the tubes which lead into the lungs, and pneumonia was feared.

Wednesday noon her physician was called and prescribed Ayer's Cherry Pectoral—a mixture of ingredients which hospitals have found to be the most effective to end coughs and colds. That night her head began to clear up and she could sleep without coughing. The next day she was greatly improved and by Friday night was completely rid of the cough and cold.

Doctors Show Quickest Way to End Head Colds, Coughs and Bronchial Colds

Head colds and chest colds can now be ended quickly—often overnight—by the unique double action of a home remedy now recommended by doctors at the health clinic. And druggists here say that vast numbers of Indianapolis people, like Mrs. Edna Case, have found that it quickly drives out a stubborn cold, even in severe cases where every known remedy used had failed.

"Is Quick Method for Home Use"

Doctors at the clinic were called for advice when Mrs. Case's cold grew worse, causing fear of pneumonia. They immediately advised Ayer's Cherry Pectoral—a concentrated mixture of ingredients which hospitals have found to be the quickest, safest and most dependable to end a cold. Almost instantly she felt the comforting, healing warmth—from her nose passages deep down into her chest. In a few hours she was greatly relieved and in another day or so was entirely rid of her cold.

See other cases—all certified by a member of the hospital clinic.

Doctors find that this hospital medicine does far more than stop coughing instantly. It goes straight to the seat of a stubborn head cold or chest cold. Absorbed through and through the whole system, it quickly checks phlegm, heals irritation and drives out the cold from the nose passages, throat and bronchial tubes.

Just a few pleasant spoonfuls of

MASON ENDS COLD QUICK, NOVEL WAY

By choosing the home method recommended by doctors at the hospital clinic, E. K. Mason, like numbers of people here found how quickly one can get rid of a head cold, chronic cough, or chest cold.

CHILD COUGHED HARD — GRANDMA WORRIED

Mrs. Edith Cummings became worried when her seven year old granddaughter, Betty, coughed so hard Sunday night it seemed she would strangle. Her little bronchial tubes were rapidly filling up with congestion and pneumonia was feared.

As soon as daylight came she called her family doctor who phoned the druggist to send up a bottle of Ayer's Cherry Pectoral. Little Betty liked the taste and just a swallow or two relieved the hard coughing spells. She continued taking it as the doctor ordered and in a day or so was out frolicking—as well as ever.
