

PROTESTS SET FOR JAN. 10 ON BASEBALL PARK

Plan Commission Delays Ruling on North Side Site Plan.

North side residents who object to the location of a baseball park south of Thirty-Eighth St., a boulevard, will appear before the city plan commission Jan. 10.

The plan commission delayed ruling on a permit to build the \$500,000 plant on the new site bounded by Monon railroad, Thirty-eighth St., Kissel Ave. and Fairfield Ave. until after citizens have opportunity to present objections.

Oscar P. Schmidt, former works board president, living on Fairfield Ave. near the proposed site, said a number of residents of the neighborhood were opposed and would appear before the park board.

Daily McCoy, State purchasing agent, 1017 Thirty-Eighth St., also said his community has started a move to fight location of the park there.

Slack Favors Location
The north side location was offered after citizens protested an east side location.

The park board took the petition to establish the ball park along the boulevard, under park jurisdiction, under consideration until Thursday. Baseball club officials presented plans to the park board Thursday.

Mayor Slack told park board

Married 60 New Years

Mr. and Mrs. Samuel A. Hogue

New Year's day will be more than just another holiday for Mr. and Mrs. Samuel A. Hogue, 1330 S. Reiser St. They will observe their sixtieth wedding anniversary.

On Dec. 31, 1867, Mr. and Mrs. Hogue were married in Shelbyville. They moved to Indianapolis

in 1881. Hogue has been in active business at the stockyards forty-five years. He was 80 Christmas day and Mrs. Hogue was 76 July 24.

They have two children, Joseph L. Hogue, former city controller, and Mrs. Mattie Albright, and two grandchildren.

PARK BOARD TO SLASH WAGES; COMBINE JOBS

Strict Economy Compulsory Following Reduction of Budget.

Consolidation of several park board positions and wholesale reductions in salaries probably will be ordered by the park board at a special meeting Tuesday night.

Strict economy during 1928 was made compulsory by the reduction of the park levy from 9 cents to 5 1/2. Superintendent Walter Jarvis declared the department would be seriously handicapped under the reduction and very few improvements are considered during the year.

The slash makes necessary a cut of \$240,000 from the appropriations requested under the 9-cent rate. The low levy will bring in about \$341,000 instead of \$240,800.

Combine Positions
Michael E. Foley, board member, declared the department had never operated under a 7 cent levy and large reductions would be necessary.

Recreation department budget for 1928 will be \$97,000, requiring a cut of \$32,000 from the anticipated returns.

Appointment of Edward B. Raub, Jr., Democratic attorney, as park board counsel is expected. Raub will replace Park Attorney Telford Orblison and Recreation Attorney William T. Quillen, Republicans.

Dismissal of Consulting Landscape A. W. Brayton and several office aids is considered likely. Several positions will be combined. It was indicated salary cuts would not apply to laborers.

Mayor to Hold Control
Mayor L. Ert Slack will have control of the park board after its reorganization despite the refusal of Adolph G. Emhardt, Democrat, and Mrs. Mary Hoss, Republican, to give their resignation. The mayor has a vote in case of a deadlock. Two members of the board will be friendly to the administration.

Indiana Asphalt Company submitted a low bid of \$47,695 on widening of Meridian St. between Sixteenth St. and Fall Creek. The bond issue was turned down some time ago because of the mayor's controversy.

Engineer J. E. Perry will analyze bids and submit recommendations to the board.

LAW 'FRAT' IN SESSION
A tour of Indianapolis was the feature of today's session of Sigma Delta Kappa, national intercollegiate law fraternity, in convention at the Lincoln.

Governor Ed Jackson, Mayor L. Ert Slack and John W. Kern, United States commissioner, will speak tonight at a dinner. Officers will be named Saturday morning, and a New Year's Eve party will be given in the Travertine room closing the convention.

Opera King's Widow Plans Club Venture

Mrs. Oscar Hammerstein to Open Night Club in New York.

Mrs. Oscar Hammerstein..... believes in liquorless night life.

NEW YORK, Dec. 30.—The widow of Oscar Hammerstein, opera king, wants to follow in the footsteps of Texas Guinan and Mrs. Park Benjamin and become a night club hostess.

Mrs. Hammerstein has advertised for a backer for her night club projects, the "Hammerstein Black Bottoms," in New York and in Palm Beach.

Her motive, she said, is to make a living.

Mrs. Hammerstein found herself penniless a few years after litigation with Hammerstein's children over his estate. She became an entertainer in an Atlantic City night club, and now she is ready to come into New York—just as soon as the backer does his part.

Mrs. Hammerstein makes no bow to the 400.

"I don't belong to New York society," she said. "There is no society in New York. Money is king here. Anyone with a big enough bank roll can cash into this town."

"The fine old families, the names that once stood for real aristocracy and taste, aren't heard of any longer."

"The club I propose will be for those who act like ladies and gentlemen and obey the laws of the country. There will be no liquor permitted."

"Those who want to poison themselves and hide behind the locked door will find no welcome on my mat. Given a chance, I'm sure I can show New Yorkers that they don't need liquor to have a good time. All I need is the cash."

MARMON PLANT GROWTH TO PUT FIRM AT FRONT

Expansion Planned for 1928—Motor Company Will Hire 4,000.

The largest sales and factory expansion in the seventy-six years of the industry which now is the Marmon Motor Car Company will be effected in 1928, President G. M. Williams announced today.

Completion of this program in the next two weeks will place the company in first rank among major automobile companies, in point of number of units manufactured and in dollar value.

New Sales Units

The program includes complete rearrangement and re-equipment of two plant units and an expansion in the sales organization involving opening of six direct factory regional sales offices. The major factory operation was at Plant No. 2 on the Belt railroad between Drovers St. and Nordyke Ave., which now is one of the largest single automobile plants in the country. It has more than 300,000 square feet of floor space.

With the announcement of the New Marmon 78, a straight-eight in the medium-price class, early in December, production was started in the Marmon Plant 3, Morris St., at the rate of 100 cars a day. The output of straight-eights will be increased to 300 cars a day in January when Plant 3 is placed in operation.

Employ 4,000

Approximately 4,000 men will be employed and the Marmon factory will be one of the leading quality

producers of straight-eights in the country. The 1928 program follows the success of last year when the company enjoyed its largest percentage of gain and increased nearly three times its number of distributors and dealers.

When Indianapolis was the home of several automobile companies the city was regarded as second in importance in the entire motor car industry. Yet in 1928 one local company, Marmon, will produce several times as many cars as were manufactured collectively by every automobile company in Indianapolis when a dozen or so factories were located here.

As the first step in the expansion of the sales department, John Tainish has been appointed sales manager in charge of the new regional offices in Chicago, New York, San Francisco, Atlanta, Kansas City and Indianapolis. H. H. Brooks, general sales director, continues over all sales branches. W. T. Young Jr. is assistant sales director.

Detailed plans will be made known Tuesday and Wednesday when 1,500 distributors and dealers will meet here in convention. Sessions will be held Tuesday at the Murat Theater and at the Claypool Wednesday.

Covers Four Blocks

Plant 2, which will be placed in operation the first of the year, covers four city blocks and has been equipped with new machinery to enable the company to manufacture straight-eights in quantity. The large Marmon Series 75 which the company has manufactured for years is being produced in Plant No. 1, on Kentucky Ave., where the milling machinery division formerly was located.

At Plant 2 is a railroad siding accommodating nineteen freight cars which will enable material to be brought directly to the plant, eliminating storerooms. Modern machine shop equipment, assembly lines, enameling ovens and other machinery has been installed. Length of the assembly lines in the Marmon factory will be approximately 1,000 feet when the new plant is placed in operation.

HOLD DOCTOR AS KILLER IN SACK MURDER.

Slain Woman Identified as Owner of Extensive Properties.

En United Press

LOS ANGELES, Cal., Dec. 30.—The mysterious club killing of a woman whose body was found Monday, with all identification marks removed, just outside the city limits, was believed to have been solved with the arrest last night of Charles M. McMullen, 57, a retired doctor.

The announcement of McMullen's arrest on suspicion of murder was made early today by Sheriff William Traeger.

The slain woman was identified as Mrs. Amelia Appleby, also known as Mrs. Mollie Burke and Mrs. Amelia Ellenborough.

Mrs. Appleby was the holder of extensive properties in Chicago. A power of attorney to administer to these holdings, which was made so as to will them to McMullen in case of her death, was found in the doctor's possession.

McMullen was poring over letters and personal effects of the murdered woman when officers arrested him, they said.

The body of Mrs. Appleby was found tied hand and foot and sewn in a burlap sack. The face had been crushed by blows believed to have been administered by a heavy club, causing death by skull fracture. No jewelry, laundry marks or other identification marks were found.

Mrs. Clarence Cole, 59 W. Fall Creek Blvd., told police two rings and a watch, valued at \$443, were stolen or lost when she moved to the Fall Creek Blvd. address from 2442 N. Illinois St.

WORDS WAR WORDS

Slack Writes 3 Pages to Protest Verbosity.

Wordy ordinances not drawn in legal fashion will not pass the eye of Mayor L. Ert Slack.

Slack, an attorney, today wrote a three page letter to city council explaining why he disapproved of an ordinance providing additional safety for elevators.

Slack objected to the language in the ordinances, because it was not "good form" and contained unnecessary words and repeated the word "whereas" too frequently.

He pointed out he had no serious objection to the provisions of the measure, but indicated it should be rewritten in the usual ordinance form. The letter said the text is not proper, contained the section which it proposed to amend, and was encumbered needlessly with a penalty clause which is provided in the building code.

"All these things add to the cost of printing," Slack declared.
