

BILL TO REMOVE WAR INSURANCE LIMIT IS FILED

Walsh Plan Would Permit Compensation Application During Lifetime.

By ROBERT TALLEY
WASHINGTON, Jan. 25.—Unlimited time for filing of claims for adjusted compensation by World War veterans or their dependents is sought in a bill now before the Senate Finance Committee, introduced by Senator Walsh (Dem.), Massachusetts.

The period allowed by law expired Jan. 1, 1928, and there have since been several bills to extend the time for two years, but this is the first attempt to remove the time limit entirely.

"Unofficial figures indicate that at least 400,000 veterans or their estates have failed to apply for adjusted compensation," Walsh said.

Open During Lifetime

"The Government, having recognized the right of all veterans to this adjusted compensation, should permit persons entitled to same to make application at any time during life."

Walsh had also offered five other amendments of interest to war veterans.

1. Providing for the same money allowance for dependents of veterans whose disability is rated as total and permanent as is now provided for dependents of veterans whose disability is total and temporary.

2. Free out-patient treatment at all Veterans' Bureau hospitals or dispensaries for any disease or injury, without regard to its nature or origin, to all veterans of all wars now receiving pensions or compensations. Only World War veterans receive this service now.

More Sons to War Schools

3. Classification of chronic diseases of heart or blood system, diabetes or nephritis, as presumptively service connected if shown to exist prior to January, 1921, this entitling claimant to disability compensation.

4. That medical examinations of

applicants for pensions be made at Veterans' Bureau hospitals, instead of by special examiners.

5. Increasing from forty to eighty the number of sons of men killed in the World War, who are eligible annually for entrance examinations at West Point, and the same increase as to Annapolis. This would be broadened to include sons of disabled veterans.

HALT SANDINO PARADE

GUATEMALA, Jan. 25.—Police dispersed 3,000 persons who tried to parade through the city to show their sympathy with the Nicaraguan revolutionist, General Augustino Sandino, whom American Marines are fighting. The attempted parade came after a mass meeting in Cordoba Park.

'I AM DRY,' IS CURTIS ANSWER TO BORAH QUIZ

Kansas Senator, Candidate for President, Favors Platform Plank.

By United Press
WASHINGTON, Jan. 25.—Senator Charles Curtis of Kansas, an announced presidential candidate, favors strict enforcement of the Volstead law, he told Senator Borah today, in a letter replying to Borah's question on that subject.

"While I have no desire to dictate what shall be in the next national Republican platform," Curtis said, "I personally favor a plank referring to the Eighteenth amendment and the laws enacted to carry it into effect and I favor a plank pledging the nominee to a fair, vigorous and faithful enforcement of them."

Greatest Moral Issue

"In my opinion, it is the greatest moral issue of all ages and public sentiment demands that both political parties declare themselves unequivocally upon it."

"Should I be nominated and elected President, I favor meeting the issue squarely, and believe in the strict and energetic enforcement of the laws to carry out the constitutional amendment."

Curtis said he opposed a policy allowing the States to determine the alcoholic content of beverages and also opposed repeal of the Eighteenth Amendment.

Cites Own Record

He told Borah that as prosecuting attorney of Shawnee County, Kansas, from 1885 to 1889, he closed every saloon in the county within thirty days of his election and kept them closed during the four years he was in office.

"I believe in meeting the issue squarely and am heartily in favor of faithfully enforcing all our laws," Curtis concluded, "and I am opposed to the repeal of the Eighteenth Amendment of the Volstead act."

Borah has announced he will ask presidential candidates to make known their views on prohibition.

FEARS VOTERS SLEEP

Asia's Example Cited in Plea by Walter Myers.

By Times Special

GREENSBURG, Ind., Jan. 25.—"Asia was the cradle of the race; America the cradle of free government," said Walter H. Myers, Indianapolis attorney, and candidate for the Democratic nomination for United States Senator, addressing the Greensburg Kiwanis Club here Tuesday night.

"Asia has grown old and fallen asleep. Her traditions have hardened into customs and her customs have made a farce of a republican form of government," Myers declared.

"America is young and active. Her ideals are written into a Constitution and other instruments of government. She has a representative form of government for all the people, of all the people and by all the people."

"But her voters are falling asleep. They are letting blocs get the offices, make the laws, enforce them, and disgrace has followed."

"The rights of those outside the blocs are disregarded or forgotten. They grumble now about graft and oppression. That grumble will become a mighty roar and all will know what is going on, else we shall sleep like the Asiatics and our Constitution shall become a dead letter."

Warns Against Colds

New York Health Authority Points Out Danger in "Common" Colds.

In a letter published in a recent issue of the New York Sun, the New York Tuberculosis and Health Association says this about colds:

"This is the season for colds—yes 'common' colds. But like many other things that are called 'common' because they are so frequent, colds are no trifle—far from it."

"Colds take more dollars and cents out of the workers' pocket in one year than any other sickness. They are responsible for a greater loss of time from school and work than any other single cause."

"Colds lead to very serious diseases."

"Here are the big preventives: Plain, nourishing food; plenty of sleep; six glasses of water a day; frequent bathing (to train the skin to stand changes in temperature); sensible clothing; breathing through the nose; keeping the feet dry; plenty of fresh air by night as well as by day."

"When you feel a cold coming on, stop at a drug store and get a box of Hill's Cascara-Bromide-Quinine, the tablets in the red box. Take a couple immediately and cold will break up in 24 hours. Hill's ends a cold quickly because it does the four necessary things at one time: Stops the cold, checks the fever, opens the bowels, tones the system. Costs only 30 cents."
