

# JUDGES' RULINGS WILL NOT HALT GAMING RAIDS

Worley Orders 'Sport'  
Broken Up Whether or Not  
Any Convictions Result.

"The rulings of municipal court judges will not stop the arrests of persons we know are gamblers," Police Chief Claude M. Worley said again today as he ordered members of the police department to continue their war on gamblers.

"Whether we gain conviction or not we still can make it so inconvenient for gamblers that eventually we will break up the commercialized gambling in Indianapolis," he declared.

"No Signs of Gambling"

Municipal Judge Clifton R. Cameron again denounced methods used by police in arresting 124 persons in raids Saturday night, in two cases before him Wednesday afternoon. He discharged five persons arrested in a poolroom operated by Claude Poland, 48, of 18 S. Capitol Ave., and fifteen in a poolroom operated by John Overton, at 1318 1/2 N. Senate Ave.

"I understand there is gambling in Indianapolis," he told Lieut. Patrick O'Connor, who testified he had found the five men playing dominoes in Poland's poolroom.

"Go and get the gamblers and I'll punish them, but do not bring in private citizens who are only playing dominoes in a public place."

When Sergt. Michael Morrissey testified he found no signs of gambling in Overton's poolroom because they had time to clear them away before he was admitted, Cameron discharged Overton on a charge of keeping a gaming house and the fifteen on visiting charges.

"This Isn't Russia"

"This is the United States—and these persons have certain rights which the Constitution says we must respect," said Cameron. "You can't just lock them in jail to satisfy the whims of certain officials like they do in Russia. Before you make any more arrests be sure you have evidence warranting the arrests."

Members of the safety board emphatically declared today that they would back Worley in his campaign to rid Indianapolis of gamblers. The court action would have no effect on plans for future raids, Fred Connell, president, said.

## WINS ON TRADE NAME

"Lik-a-Maid" Upheld in Appeal by  
"Kitchen Maid" Makers.

Appeal of the Wasmuth-Endicott Company of Andrews, manufacturers of kitchen cabinets, from a decision of the Allen Circuit Court which gave authority to the Richmond Cabinet Company to use the name "Lik-a-Maid" for its cabinets and also use smooth flat-surfaced doors, was lost when the State Appellate Court Wednesday upheld the decision of the lower court.

Contention of the Wasmuth Company was that the "Lik-a-Maid" name was an infringement on the name "Kitchen Maid" used by them.

## HARD ARTERIES

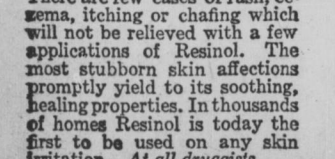

Hardening arteries indicate high blood pressure, which means that the blood in the heart and blood vessels is under too great a tension—a condition which may end life suddenly.

High blood pressure, indicated by hard arteries, heart palpitation, dizziness and difficulty in breathing, is the penalty of our abnormal habits of living. We place too great a strain on the vital organs, especially the liver. The liver becomes "lumpy" or sluggish, fails to cleanse the blood of the toxic poisons formed in food waste. The whole system then becomes toxic, with stomach, kidneys, heart and blood vessels affected.

It is generally recognized that the liver occasionally needs a little help. There is nothing better for this, as medical men know, than a little ox gall. Ox gall has been found to be a great stimulant for the liver. The genuine, pure ox gall is to be had, dainty and tasteless, in the form of Dioxol tablets. Each tablet represents 10 drops of pure ox gall and costs less than 2¢ at good druggists. To be sure of getting the genuine, look for the name Dioxol and picture of ox's head on the package.

Free Test Take this ad to the druggist named below and he will give you a free sample of Dioxol Tablets. Try them yourself. See the splendid, quick results. One trial of Dioxol and you will want a full package!

# BARE PACT TO BLOCK TILT IN LIGHT CO. TAX

Agreement With Officials in  
1927 Made to Put Over  
Refinancing Plan.

Two members of the State tax board and power company representatives agreed at a hearing in 1927 not to raise the 1928 Indianapolis Power and Light Company tax valuation figures because it might halt a financing plan then under way.

This has been revealed by the company's appeal to have its 1927 tax valuation reduced.

Details of this agreement made by John J. Brown, chairman of the tax board, and Philip Zoercher, member, were narrated by the opposing member, Judge Willis Hough, at a hearing Wednesday.

Hough said that the 1928 valuation was placed at \$17,230,000, based on the income return of the power company reported to the tax board. Then he learned that the utility report to the public service commission showed that more than \$1,000,000 should have been added to the personal property report, he said.

## Agreement Is Reached

Power company officials pleaded at a hearing called by the Tax Board to add the new figures, that a financing plan to place all of the common stock of the company into the formed Indianapolis Light and Power Corporation, was under way and that to increase the tax valuation would spoil the financing plan.

It was agreed that in computing the 1927 valuation the new figure would be added.

Consolidation of the Indianapolis Light and Heat Company with the Merchants Bank and Light has resulted in a total personal property tax valuation of \$23,607,000, the tax board claims, while Carl Mote, attorney for the power company, argues that the value is \$20,000,000.

## Argue Appeal Right Lost

Mote further argues that a promise to the public service commission that if the merger were authorized the rates would be reduced has been carried out and the company can show a decrease in income of approximately \$400,000.

He promised the tax commissioners that he would be able to present a sworn statement to this effect within a few days.

Brown however argued that the power company lost its right of appeal to the board for a lower tax valuation rate when it did not file such an appeal within ten days following notice of the increased valuation.

## Disagree on Income Tax

The power company endeavors to show that the total amount of personal property should be computed on a basis of 10 per cent of the net earnings. Net earnings of the company, minus income tax, was \$2,312,685.95. This figure was reached by the income of seven months, from February to August, inclusive, projected over a period of twelve months.

Members of the tax commission disagree with Mote that the income tax should be deducted.

Mote has declared, however, that the power company will be willing to accept a valuation of \$21,000,000 at the most.

# THREE ANGLES GUIDE QUIZ IN POISON DEATH

Possible Murder, Suicide  
and Love Affair Considered at Muncie.

MUNCIE, Ind., Jan. 26.—A possible murder, suicide of a woman a year ago and hint of a love triangle are before a coroner's inquest here today in the death of Miss Margaret Milligan a week ago. Her brother-in-law, Charles Lykins, farmer near Gaston, is being held for questioning.

The inquest opened Wednesday after a report from the State laboratory at Indianapolis disclosed the stomach of Miss Milligan contained arsenic.

## Poison in Biscuits

The dead woman had been employed by Lykins as his housekeeper. A week ago Wednesday she became violently ill after eating some biscuits and died within a few hours.

Lykins tells authorities he believes Miss Milligan was murdered. He asserts a woman whose name is not disclosed made threats against Miss Milligan. He intimates this woman was jealous of him and his elderly housekeeper.

## Threatened Suicide

Evidence has also been obtained that Miss Milligan contemplated suicide. Mrs. Mary Porter, an illegitimate daughter of Miss Milligan, killed herself by drinking poison about a year ago, and at the time the mother is said to have remarked she would "go the same way some of these days."

Miss Milligan had been in Lykins' employ since 1912, when she was rescued during the burning of the Delaware County infirmary, where she was an inmate.

## CITY REQUESTS COUNTY TO PAY

Hack Duns Dunn for Old Bill of \$126,000.

Board of Works President Oren Hack today prepared a request to county commissioners for \$126,528, which the county owes the city for track elevation. Most of this account has been long outstanding, and the statement is to be sent to County Auditor Harry Dunn with a note asking immediate payment.

Dunn has agreed to ask a bond issue to cover the amount, so that the city can be reimbursed, Hack said.

Of the total, \$117,900 dates back ten years, prior to July 15, 1925. On that date the county commissioners entered an agreement with the board of works under the Shank administration to pay in September, 1925, \$50,000 for the city getting the money is concerned. September never arrived, Hack said.

In addition to the \$126,528, which will be asked, the county owes an additional 16 per cent of \$51,498 for track elevation and \$14,000 for flood prevention work during 1926 and 1927. This will be asked for soon, according to Hack.

# LIBERTY FIGHT IS STARTED BY GEORGE REMUS

Insane Hospital Head Holds  
Authority to Release  
Wealthy Patient.

By United Press  
LIMA, Ohio, Jan. 26.—George Remus, former millionaire rum-runner acquitted of the murder of his wife, Imogene, on the grounds of insanity, may make a bid for freedom from the State hospital for the criminally insane here this afternoon.

This was indicated following a conference between Superintendent W. H. Vorbau, of the hospital, and Remus' attorneys, Charles H. Elston, Cincinnati, and Francis W. Durbin, Lima.

Vorbau is empowered under the State laws to liberate Remus at any time the former bootleg king is declared cured. Vorbau, alone, shall determine whether a patient is sane.

Remus has been a model inmate, on the strength of this behavior, Elston and Durbin will seek his release—permanently—on a writ of habeas corpus, it was said.

Remus was committed to Lima by Judge W. H. Lueders of the Cincinnati Probate Court who, while finding him sane, declared he is "too dangerous to be at large."

Elston, Durbin and Vorbau held a conference with Common Pleas Judge Becker here late yesterday, and Judge Becker, it was said, will consider a habeas corpus petition this afternoon.

A hearing probably would be held Thursday.

## SON ILL; TAKES POISON

Mother Prepares to 'Be With' Boy Who She Fears Can't Recover.

"There is no greater love than a mother's," said a wise man long ago, and Mrs. Bertha Andis, 29, of 547 Bell St., proved the saying Thursday when she attempted suicide by taking poison so she could be with her son, James, 11, who is suffering with tuberculosis and who doctors say will not recover.

Mrs. Andis was taken to city hospital where her condition this morning was reported as "fair." The boy will be taken to Sunnyside Sanitarium immediately for treatment in an effort to save his life. When Motor Policemen Harry Schley and Otto Maas took her to the hospital, she told them "I'd rather be with my son in the next world than live without him."

Cork legs are so called, not from the material used in them, but from their inventor, Dr. Cork.
