

LINDBERGH GIVEN GREAT OVATION BY ISLAND THROUGHS

AIRMAN FLIES
1,000 MILES
TO REACH ISLERemarkable Flight Over Sea
Made to Land at
St. Thomas.

By United Press
ST. THOMAS, Virgin Islands, Feb. 1.—Back on United States territory, Col. Charles A. Lindbergh was a guest today at the residence of Governor Waldo Evans, while the entire, if small, population of the island united to do him honor.

The American flier's program included a luncheon and a short visit to the golf course, where his Spirit of St. Louis airplane landed yesterday.

Streets in St. Thomas—formerly called Charlotte Amalie—were decorated gaily today in Lindbergh's honor and the flying ambassador was cheered heartily whenever he appeared.

Native girls presented the smiling aviator with a wreath of flowers.

Two guns fired in town and the ringing of church bells signaled the approach of Lindbergh to St. Thomas yesterday and caused a great rush to the golf course, three miles west of the city.

As the Spirit of St. Louis landed, a town battery fired a twenty-one-gun salute—a royal honor—and steamships in the harbor sounded sirens. After his presentation, Lindbergh was taken by Governor Evans to an open automobile which headed a procession to the Governor's palace.

The flying good will ambassador made a typical Lindbergh flight here from Maracaibo, Venezuela, yesterday, covering the more than 1,000 miles of airway in scheduled flying time. He dropped out of a clouded sky just before dusk to receive the acclaim of thousands.

Lindbergh's flight was remarkable in its precision. It was the longest flight he had made since leaving Mexico City and it was made at a swift flying schedule, as the American aviator wanted to bring his Spirit of St. Louis to the flying field here before darkness.

Keeps True to Course

He took off from Venezuela, with the good wishes of thousands ringing in his ears, at 7:24 a. m. From then on it was just a steady and rhythmic swing, somewhat in the form of an arc, that brought Lindbergh over the Lesser Antilles chain and thence to the Virgin Islands.

Flying at a rate of approximately 100 miles an hour, the plane was sighted at the island of St. Lucia at noon, over Guadalupe about an hour and a half later, over Montserrat Islands, over St. Christopher's Island, and finally he was sighted over American soil flying steadily toward his goal.

He circled the city, then swung to the landing field and dropped to an easy landing as the thousands of residents gathered to welcome him back to American soil.

He grinned good humoredly and appeared to be in excellent condition after the long flight. His first concern was with his beloved airplane. After inspecting it and seeing it placed in safe care for the night, he was ready to accept the adulation of the people.

Cheered by Throng

Government officials greeted him and told how delighted they were to have him visit their islands. There was a steady cheer and there were many women in the group to give welcome to Lindbergh.

It was the longest over-water flight since his notable cruise to Paris last spring and was made with the same perfect manner as the flight over the North Atlantic.

He was guest at a banquet last night and was to be entertained by government officials at a luncheon today. His plans call for a rest here today and then a flight to Porto Rico Thursday. From Porto Rico he subsequently will visit Santo Domingo, Hayti, and then wind up his good will tour at Havana.

SENATE PASSES
COURT CHANGEIndiana Would Get Two
U. S. Districts Under Bill.

By United Press
WASHINGTON, Feb. 1.—The Senate today passed the Robinson bill giving Indiana a new Federal judicial district. The bill now goes to the House.

The bill provides separate judges and other court officials for the northern and southern halves of the State, the dividing line being the north boundaries of these counties: Vermillion, Fountain, Montgomery, Clinton, Howard, Madison, Delaware and Randolph.

Judge Robert C. Baltzell would continue to preside in the southern division at Indianapolis and Judge Thomas Slick in the northern at South Bend.

For two years the State has both Slick and Baltzell with concurrent jurisdiction, but they have worked under an agreement giving Slick the northern and Baltzell the southern half.

One grand jury, meeting in Indianapolis, has handled all cases. There would be separate grand juries for each judge under the Robinson bill.

'BIGOT' IS ASSAILED

'Southern Senator' Insults
Veterans, Says Spafford.

By United Press
ALBANY, N. Y., Feb. 1.—The religious tirades of a certain Southern Senator are insults to every man who served in the World War, Edward E. Spafford, national commander of the American Legion, said in a speech here.

The Legion commander did not name the Senator but said he would make public the man's name when his speaking tour took him into "the home State of the bigot."

"He used words to breed hate," Spafford said. "That man ought to be taken to France and shown the names on the white crosses. He will learn there is no distinction within our ranks," Spafford said.

"I plan to go to the home State of that Senator and I am prepared to say the same thing, without fear, I am certain, of being tarred and feathered."

One report from Riga, Latvia, said that four companies of the army had revolted and was bombarding the Kremlin walls with artillery.

Moscow correspondents denied this immediately, saying that there were no untoward incidents in Moscow and that only a regular peaceful gathering crowds around the Kremlin.
