# AIR MONOPOLY DENIED BY HEAD OF RADIO CHAIN

N. B. C. Lost \$500,000 Last Year, Senate Committee Is Told.

By ROSCOE E. FLEMING  
WASHINGTON, Feb. 7.—President Aylesworth of the National Broadcasting Company, charged by independent broadcasters with attempting to monopolize the air, spent an earnest hour Monday discussing the question with the Senate Interstate Commerce Committee. He attempted to prove that his accusers are all wrong.

In order to prove that no censorship or partisanship is permitted, he offered to let Senator Wheeler of Montana, speak over the N. B. C. chain on the coal strike situation at any time he sees fit.

Cost is \$3,000 an Hour

Interesting points made by Aylesworth were:

That Walter Damrosch and the New York Symphony Orchestra get \$2,500 an hour for broadcasting and that John McCormack gets \$3,500, and that the wire costs for carrying such programs over the N. B. C. chain for forty stations is about \$3,000 an hour.

That the company has no control over its chain, but has the same relations with individual stations as a press association has in supplying individual newspapers.

That its only intent is to preserve the high quality of its programs and to guard against political, economic or religious partisanship of any kind.

Lose \$500,000 in Year

That the N. B. C. lost \$500,000 last year and wouldn't make a profit if it could.

"The company is owned jointly by the Radio Corporation of America, Westinghouse Company and General Electric Company," said Aylesworth. "They want to maintain the high standard of programs, fearing that listeners will lose interest. They all manufacture radio equipment, you see."

## TWO MEN HURT IN CAR CRASH RECOVERING

Victims of Accident Erroneously Reported as Negroes.

Luther Collins, 39, and John Martin, 75, of Maywood, injured in a three-automobile crash at Blake and Washington Sts., Monday, were erroneously stated in The Times to be Negroes.

The auto Collins was driving was struck by a car occupied by two Negro men and two Negro women and the Collins' car forced into another machine. The Negroes' machine struck Thomas Wolverson, 33, Negro, 523 Hiawatha St., who was standing in a safety zone, seriously injuring him, and crashed into a store window.

Two of the Negro men and a woman in the machine fled, and Mary Smith, Negro, 727 California St., the other woman was held on intoxication and vagrancy charges. Martin and Collins are recovering from their injuries at their homes in Maywood.

## DELAY WON BY DUVAL

## DRUGS EXCITE THE KIDNEYS, DRINK WATER

Take Salts at First Sign of Bladder Irritation or Backache.

The American men and women must guard constantly against kidney trouble because we often eat too much rich food. Our blood is filled with acids which the kidneys strive to filter out; they weaken from over-work, become sluggish, the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts; if you suffer with sick headache, or dizzy, nervous spells, acid stomach, or if you have rheumatism when the weather is bad, begin drinking lots of good soft water and get from your pharmacist about four ounces of Jad Salts. Take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then be at fault.

This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate clogged kidneys, to neutralize the acids in the system so they no longer are a source of irritation, thus often relieving bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water drink and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.—Advertisement.

# PARTY PARLEYS WILL BE DRY, LOWMAN EDICT

Prohibition Unit to Center Its Efforts on Houston and Kansas City.

By JOSEPH S. WASNEY, United Press Staff Correspondent

WASHINGTON, Feb. 7.—Prohibition headquarters let it be known today that everything possible will be done to keep Kansas City and Houston—party convention cities—dry next June.

Assistant Secretary of Treasury Lowman said the dry laws will be strictly enforced in the two cities chosen for the Republican and Democratic national conventions.

"Keeping liquor out of the convention cities will be the responsibility of administrators in Texas and Missouri," Lowman said. "We will give them any additional help they need, however."

Lowman said Assistant Prohibition Commissioner Alf Otfield, in charge of investigations, planned to send special under-cover officers into the convention district this spring to "stop the flow of liquor before it starts."

Bootleggers already have been lining up their forces so thirsty delegates might be supplied, according to reports reaching prohibition headquarters.

Officials said, however, there would be no search of hotel rooms of guests and delegates to the conventions. The Government's objective will be to cut off bootleggers' supplies.

Baggage of delegates also will be on the "courtesy list," for authorities feel it would be too great an undertaking to search all convention visitors for liquor.

## Prepare for Convention

By United Press

KANSAS CITY, Mo., Feb. 7.—Kansas City today continued its preparations for the Republican national convention, despite rumors that the convention might not come here because of alleged inadequate hotel facilities.

Members of the local convention housing committee said they would assure the Republican national committee, Thursday, that the city can care for the delegates.

James M. Ketter, housing chairman, said "all talk of taking the convention from Kansas City will be silenced."

"The convention will begin June 12," he said, "we have 5,600 rooms within a short radius of the hall."
