

WATSON LIKELY TO FACE BORAH QUIZ ON BOOZE

Indiana Senator in Line for Questionnaire as to Dry Law Stand.

WASHINGTON, FEB. 17.—Senator Watson of Indiana, as an avowed presidential candidate, soon will have to answer four very pertinent questions regarding prohibition, if Senator Borah of Idaho pursues the same course toward Watson as he has toward other presidential candidates.

Borah, however, has not yet indicated that he thinks Watson enough of a candidate to have addressed to him the prohibition inquiry already made to Senator Willis of Ohio, Senator Curtis of Kansas and Herbert Hoover, although nearly a week has gone past since Watson's informal announcement. Borah is expected soon to write.

However, and if he writes as he did to the other three, Watson will be required to answer the following questions:

1. "Do you favor incorporating in the next national Republican platform a plank specifically referring to the Eighteenth Amendment and pledging the candidates and the party to a vigorous and faithful enforcement and to the laws enacted to carry into effect the constitutional amendment?"

2. "What is your attitude toward the amendment and its enforcement, if you are nominated and elected?"

3. "Do you favor the enactment into law of the principle embodied in the New York referendum that Congress should modify the federal act to enforce the Eighteenth Amendment so that the same shall not prohibit the manufacture, sale, transportation, importation, or exportation of beverages which are not

Suicide Victim Buried.

By Times Special
INDIANAPOLIS, Ind., Feb. 17.—Funeral services were held today for Frank J. Davenport, 49, farmer, who committed suicide by shooting Tuesday following arrest on charges of criminally attacking Blanche Moore, 14. Prosecutor Cliff Haworth declares reports that the arrest were part of a blackmail scheme, as alleged by Davenport's relatives, are unfounded.

in fact intoxicating, as determined in accordance with the laws of the respective states? In other words do you favor a program of legislation which will enable every State to determine for itself the alcoholic content of beverages to be manufactured, sold, and transported through the country?"

4. "Do you favor the repeal of the Eighteenth Amendment or the repeal of the Volstead act?"

BOULDER DAM FIGHT IMPENDS

Power Lobby Ready to War on Measure.

By Times Special
WASHINGTON, Feb. 17.—The Boulder Dam bill, one of the three major items against which the seventeen million dollar private power lobby is training its guns this winter, faces a bitter fight in the Senate.

Over this measure, the second power battle of the session will probably be waged. While the vote by which the Walsh power resolution went down to defeat was not a fair forecast of strength for and against the Swing-Johnson Boulder Dam bill, it indicated the growth in strength this year of the power lobby, and made it evident that the Johnson bill, if it passes at all, will do so only with the narrowest kind of margin.

While Walsh lost some votes because of anti-Catholic fear that he will become a strong presidential candidate, and because of offense taken by some southern Democrats at his recent remarks about the Civil War, still the greater part of

his opposition was the same as will line up against public control on the Colorado river.

Escapes Jail in Daylight

By Times Special
WAKARUSA, Ind., Feb. 17.—A padlock on the door of the town jail here didn't impress Claude Cripe, North Liberty. A short time after being locked up on a charge of striking his wife and driving an automobile while drunk, Cripe pulled the padlock from the door and escaped in broad daylight. He is still free.

RADIO SAVES WOMAN

Negro Flees When "Voice" 'Blurts' From Another Room.

LEXINGTON, N. C., Feb. 17.—"Please stand by a few moments" said a voice through the loud speaker, and the wife of a prominent local physician stepped into another room. She was confronted by a burly negro. A shriek and a big hand was clamped over her mouth. Suddenly a voice boomed forth from the other room. The burglar didn't stop to investigate the source and fled in haste. The woman went back to the set and tuned it down.

SEWAGE PRODUCES GAS

Making of Usable Fuel From Refuse Found Feasible.

NEW BRUNSWICK, N. J., Feb. 17.—Usable gas is now being produced from sewage. According to Dr. William Rudolph at the New Jersey Agricultural Experiment Station, a disposal plant in a city of 50,000 is producing from 16,000 to 25,000 cubic feet of gas daily. The

gas, he says, has a heat value which is higher than natural gas, and represents a saving of \$10,000 yearly.

Dread of Extraction Found Without Foundation

More and more the family physician is asking his patient, when chronic disorders stubbornly resist treatment and the operating table seems near, "How about your teeth, are they in good order?"

To put off extracting a decayed tooth or one that has an abscess at the root, is to leave a poison center in the body that makes disease incurable.

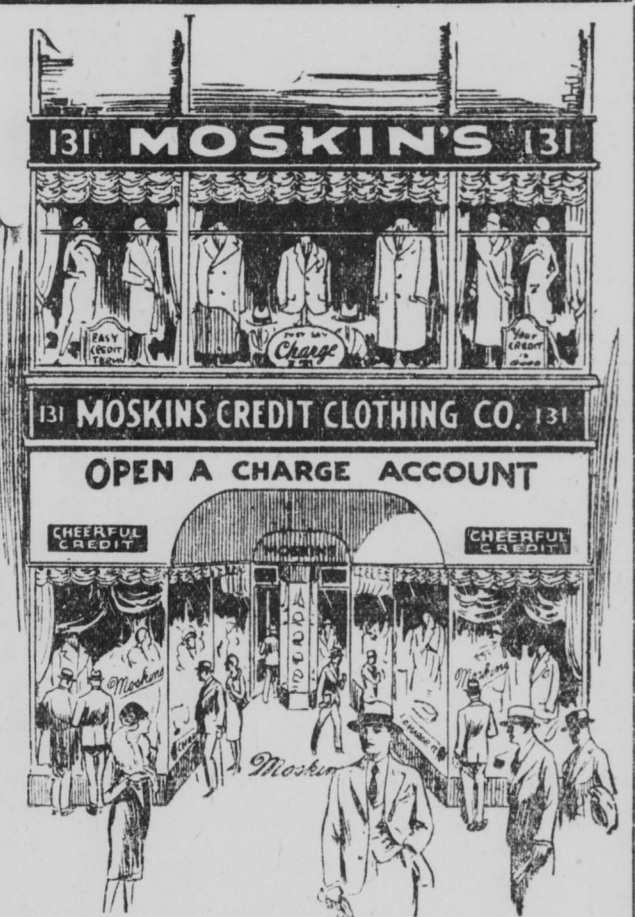

"I certainly want to praise The People's Dentists, for they extracted twenty-three teeth for me without the least pain."

GOES DOWN TOWN FOR FIRST TIME IN FIVE WEEKS

Capitol Avenue Lady Indorses the New Konjola Medicine; "It Is Wonderful," She Says.

It is declared by druggists and the general public that nothing like this Konjola has ever been known before in the city of Indianapolis. Nearly 5,000 Indiana people have given public endorsements of this new medicine. Almost 2,000 of these

MRS. ETTA BURRIS

statements are from Indianapolis residents alone. Many appear in the papers day after day, but it is impossible to publish them all.

There is only one reason for the great success of Konjola—and that is merit. This medicine actually is helping thousands in this vicinity. Konjola acts upon the inner system (stomach, liver, kidneys and bowels). It cleanses and invigorates these organs of the system to better activity, thus bringing new feelings of health over the body in general.

One of the latest Indianapolis residents to indorse Konjola is Mrs. Etta Burris, address 634 North Capitol Ave., this city. Her report was given to the Konjola Man in person at the Hook Drug Store, Illinois and Washington Sts., Indianapolis, where he is meeting large crowds daily.

"I willingly indorse Konjola as a wonderful health-builder," said Mrs. Burris. "It is restoring my health after all other remedies failed. While I am not well yet, I have received so much benefit that I feel it is my duty to tell others. Mine was a case of nervous prostration. At times I would feel as though some one would grab me and murder me. People who have never been in such a condition cannot begin to realize what my condition really was. At times I was so nervous that it seemed that my breathing would be stopped. I was unable to work at any kind of work for over a year. During that time I spent fifteen weeks in a hospital. I also had severe pains in the stomach, which was so terrible I could hardly stand them. I was also constipated and was very dizzy."

"I began taking Konjola and although it worked very slowly in my case, I gradually became stronger and today I came to town, something I have been unable to do for five weeks. I am improved in general and am still taking Konjola, believing that it will in time restore me to perfect health. The benefit I derived through use of it already means much to me and I highly recommend it to others."

The Konjola Man is at the Hook Drug Store, Illinois and Washington Sts., Indianapolis, where he is daily meeting the public and introducing and explaining the merits of this remedy.—Advertisement.
