AN INVESTMENT

Those of you who have been automobile owners in the past, and that is the greatest percent of you readers, know that the automobile is the most expensive piece of property that can be owned. But, nevertheless, the car is a necessity and we just can not get along without it.

Now since that is true, you also know the greatest depreciation is in the first year's use, which is always 40 or 50 per cent in price, but you know it is not possible for it to depreciate that much in service value.

WHY THROW YOUR HARD-EARNED MONEY AWAY when you can buy one of Carl H. Wallerich's like new, high grade used cars at a price that makes your purchase become a good investment in place of a loss?
