

## THOUSANDS TO ENJOY LIFE AT CITY'S CAMPS

Eight Recreation Centers Will Attract Youth of Indianapolis.

Between four and five thousand youngsters will escape the city's heat this summer through the generosity of Community Fund contributors, and the cooperation of the city's social service agencies.

They will be cared for at eight camps in the vicinity of the city, where preparations already are being made to provide more fun and healthful activities than ever before.

The eight camps are: The Boys' Club, four miles northwest of Noblesville; the Camp-Fire Girls, also near Noblesville; Boy Scouts, near Indianapolis, on Millersville Rd.; Girl Scouts, west of the city on Crawfordville Rd.; Jewish Federation, Millersville Rd.; Y. M. C. A. near Bedford; Salvation Army fresh air camp at Oaklawn; and the Y. W. C. A., on Fisher's Rd., near the city.

### Many Will Attend

Registrations already received indicate that this year's camps will exceed all previous years in attendance. Many special features to increase public interest in the work of the camps are on the program.

The Girl Reserves of the Y. W. C. A. have sponsored a health contest and a swimming contest, the winner of each being awarded a ten-day stay at the Y. W. C. A. camp.

Equipment of the local camps will equal that of the most exclusive eastern camps, and a wide range of recreational and educational activities has been provided. Sports of all kinds, setting-up exercises,

## Says Rheumatic Aches and Pains Have Vanished

Konjola Gave Blessed Relief to Local Citizen; Cleansed Poison From System, He States.

"I developed an awful case of rheumatic trouble, which came to be so painful that I could hardly stand it, and yet, as bad as I had been, this Konjola compound seemed to cleanse all the poisons from my system and blessed relief

MR. JOHN W. CARVER

came so quickly that I was surprised," said Mr. John W. Carver, well-known Indianapolis citizen, living at 515 North Delaware Street, this city, during a recent conversation with The Konjola Man, who is at Hook's Drug Store, Illinois and Washington Sts., where crowds are calling daily to learn more about this amazing new medical preparation.

"Yes, my rheumatic aches and pains have vanished," said Mr. Carver, "and I had no idea that such a short treatment of any medicine would so completely relieve my trouble."

"I had been affected mostly across my back and through my hips. When I would go to move a certain way, either when walking or turning sideways in bed, I would get a sharp, terrific pain that seemed to come suddenly like a shock, and it certainly was miserable. Of course, I ached continually, but when these sharp pains would grab me I felt like I just couldn't stand the suffering another minute. If I attempted to rise from a sitting position, I had to hold to something and be careful not to twist a certain way. At nights I was subject to these attacks, which broke up my rest so that I could seldom get a night's sleep. I would wake every morning feeling so terrible that it was misery to even dress myself. I couldn't even fire the furnace—and I tell you this rheumatism is awful."

"I began on this Konjola as soon as I learned what it was doing for so many Indianapolis people, and as I said, it relieved me very quickly. I get up in the mornings and dress without a bit of pain now, and I sleep fine all night long and can bend and twist any way I care to. The pains in my back, hips and limbs are all relieved, and it's a blessing now that I have no fear of those awful attacks of pain and suffering as I experienced before. I've been helped in many other ways by Konjola, and my whole body has a new feeling of health all over. I can put in a good day's work now, and feel like doing lots of lifting and other things that require strength."

"After all this relief from rheumatism, I surely take pleasure in making a public endorsement of Konjola."

The Konjola Man is at the Hook Drug Store, Illinois and Washington Sts., Indianapolis, where he is daily meeting the public and introducing and explaining the merits of this remedy. Konjola is sold

in this city and dignitaries throughout this sec-

## Big Bill Haywood Is Ill

William D. Haywood known in American labor circles as "Big Bill," is reported critically ill in the Kremlin hospital, Moscow, suffering from diabetes. Haywood fled the United States in 1920 after conviction on a charge of violating the espionage act. He was under sentence of twenty years in prison and a fine of \$20,000. Haywood was one of the founders of the I. W. W. in America. Here he is shown with a Russian boy, his constant companion in the Kuzbas colony in Siberia, which "Big Bill" pictured as "a haven for oppressed workers."

nature study and handcraft courses are expected at this State Y. M. C. A. camp.

In the Y. W. C. A. camp ten-day periods for business and industrial girls will occupy June and August, and week-end vacations for working girls are scheduled for April and May, in addition to the three camps for school children during July.

Hikes, a multitude of outdoor sports, rifle practice and classes in nature study and handicraft will take up much of the attention at Camp Bedford, but present plans call for special tutoring classes in high school subjects this year. Many Indianapolis boys and girls

### Death Bests Stork

VALPARAISO, Ind., April 5.—Death won here over the stork, 32-31, during the first three months of this year, according to the city health board. In the quarter ended March 31, there were thirty-two deaths and thirty-one births recorded in Valparaiso.

## DOCTORS WILL CONVENE HERE

Two-Day Session to Open Next Tuesday.

More than 300 of the leading nurses and doctors of Indiana will assemble at the Lincoln Tuesday for a two-day meeting of the Indiana section of the American Hospital Association.

Dr. William A. Doeppers, city hospital superintendent, is chairman of the convention committee. He announced today that one of the best programs ever arranged for a section meeting has been prepared.

Open addresses will be delivered by Dr. M. S. Steele, J. Wayne, president of the Indiana section; Robert P. Neff, former Indiana University Hospital administrator, will preside and lead the roundtable discussions scheduled for the second day's session.

Speakers will include James A. McNamara, Chicago, editor of "The Modern Hospital," who will talk on hospitalization costs; and Dr. M. T. McEachern, associate director of the American College of Surgeons of Chicago, who will speak on the ideal medical staff from a standpoint of hospital efficiency.

Tuesday night a joint meeting of those attending the convention will be held with members of the Indianapolis Medical Society. Dr. Doeppers will be toastmaster. Principal address will be by Dr. Irving S. Cutter, dean of Northwestern

## New Radio Boss

Successor to the late Admiral Eulard, Federal Radio Commissioner, is Judge Ira Robinson, above. This picture was taken in Washington just after his appointment had been confirmed.

University Medical School, who will speak on "Medicine's Relation to Hospitalization."

Wednesday will be devoted to general discussion and election of officers. In the afternoon a tour of Indianapolis hospitals is planned.

## CHILD HEALTH DAY PLANNED

Hoover Urges Observance of National Rally.

By Times Special

NEW YORK CITY, April 5.—A national rally day of childhood to be celebrated May 1 as Child Health Day throughout the country is announced by Herbert Hoover, Secretary of commerce and president of the American Child Health Association, which originated the idea.

This fifth birthday of Child Health Day, according to Secretary Hoover, finds every State organized under a chairman so that large and small communities will have celebrations which will include permanent health activities, such as medical examination of school children and establishment of child clinics, as well as the promotion of colorful pageants, plays, parades in schools, parks and playgrounds.

Says Secretary Hoover, "The National Congress of Parents and Teachers will use May Day as the inspiration for a national campaign called the summer round-up which has as its aim the physical examination of pre-school children so that they may enter the first grade with every defect remedied and in

as nearly 100 per cent condition as possible."

The General Federation of Women's Clubs will make the day the starting point for a careful survey of health activities in communities all over the country looking toward more rounded community programs of child health."

Firemen's Dog Wins

By Times Special  
LINTON, Ind., April 5.—Dave, German police dog owned by the Linton fire department, was first prize winner in his class at the Wabash Valley Bench Show held in Sullivan.
