**BY OLIVE ROBERTS BARTON**

The change of status in thirty years concerning the girl who "works" is almost beyond belief. The young woman who now steps out of a normal school, business college, or university, fired by an ambition to earn money, deserves credit, but not the credit that went to those girls a generation or two ago who faced criticism and almost ostracism if they chose to be financially independent.

**Social Outlook**

We wonder what a girl would think now, who is preparing herself for teaching, if confronted by a certain paragraph in a small book of "suggestions" for teachers used by certain normal schools in 1900. Jellied tomato salad is excellent for this time of year when fresh tomatoes are high in price. There are many ways to vary the seasoning in the tomato jelly and either French or mayonnaise dressing is good. The following rule is unusual in that grated coconut is added.

### New Method of Healing

The most powerful method ever devised for healing and relieving leg troubles was developed by Europe's famous leg specialist, Dr. Clason of Germany. His methods were introduced into America five years ago. A new illustrated book, "The Story of Viscose Method," tells how leg suffering is quickly banished while the person works and walks instead of "lying up." It is sent FREE to all leg sufferers who write for it. If Dr. Clason's Viscose Home Method will help them, his methods have a history of continuous success, especially in varicose troubles, stopping painful vein suffering, reducing swollen legs and increasing circulation in the legs.
