Success to You, Indians!

Indianapolis is back of you to a man. With the splendid material you have there is no reason why you shouldn't win the pennant this year.

Babe Ruth Line of Baseball

Babe Ruth helped to design this line and his signature on each number is his endorsement of its fitness for use in playing ball.

GET WISE TO THE CURVES!

Do you realize illumination and power costs have been tremendously reduced, while costs of everything to make them have risen.

**Power and Light at Low Cost
NOTE THE DIFFERENCE**

Here's hoping the Indians' batting averages rise as high as the cost of living curve and the errors are as low as the cost of electricity.
