

DEATH RATE AT PEAK IN MARCH, LOW IN AUGUST

City Health Officer Says Outdoor Life Benefit to Health.

You have a good chance to live through the rest of the year now that you've lived through March, says Dr. Herman G. Morgan, city health board secretary.

Death and sickness rate reaches its peak during March when weather conditions are unfavorable for the best health, he declared.

In April there is an aftermath from influenza, pneumonia, sinus and respiratory infections, but the sickness and death rate shows a downward trend.

Dr. Morgan said August, with its sweltering heat, is the healthiest month of the year in this climate.

Of the 4,929 deaths in 1927 there were 403 in March compared with 344 in August.

"Sunshine in April begins to draw folks out into the open and an occasional warm day makes them throw open the windows letting an abundance of fresh air in their houses," Dr. Morgan said.

"We begin to see a rapid decline in sickness and deaths this season of the year when everyone is taking up their favorite outdoor sport. This is strong evidence of the result of fresh air and hygienic living conditions."

"For years August has shown the best health record despite the cur-

Storm Proves a Jonah to This Whale

Hundreds of curious folks went down to the sea in flippers when word came that a giant whale had been washed ashore during a storm off Wrightsville Beach, near Wilmington, N.C., the other day.

Fisherman pronounced it a sperm whale and as soon as this picture had been taken they lost no time in dividing up the prize. It measured 54 feet in length and weighed nearly 50 tons.

Recent beliefs that 'dog days' and maladies go along with the hot months. This is particularly true in recent years since public health measures have been designed to improve sanitation.

"Public health measures aided by outdoor life have been more successful in preventing hot weather maladies than winter diseases. Winter maladies are hard to treat because of the indoor-existence of a high percentage of the nation's population."

June and July also record a low sickness and death rate.

Divorce Suit on Anniversary

MT. VERNON, Ind., April 13.—A divorce suit here of Mr. and Mrs. Carl Allison, marked their fifth wedding anniversary. In her complaint for divorce, Mrs. Allison charged he had failed to provide for her. She asks custody of a daughter, Selma.

GILLIOM FLAYS KLAN

Urge G. O. P. Rally Against Corruption.

By Times Special

KENTLAND, Ind., April 13.—

"Shall Republican voters be for the

Republican party and its success

or for Wizard Evans and his

companions?" was the issue Attorney General Arthur I. Gilliom, candidate for the Republican nomination for United States Senator reiterated in a speech here Thursday night.

"A few pie-counter politicians

think it bad policy that I am asking

Republicans to rally on the Repub-

lican side of the issue of old-

fashioned Republicans against

Klanism and fanaticism," said Gil-

liom. "They go on the theory that people soon forget outrages and that the way to win is to evade issues and to make secret deals with wizards and dragons. It is exactly their type that has brought on this issue."

"I am certain that the people of Indiana will not support any political party in November that will temperance with Wizard Evans and his crew."

WINE OF 1653 FOUND

German Casks Bear Dates of Oldest Rum Available.

By Times Special

BERLIN, April 13.—Huge casks

of wine that bear dates as old as

1653 are stored in the famous Rats-

keller in Bremen, Germany.

Some of the oldest wines avail-

able are to be found there. Among

them is the famous Rudesheim,

vintages from 1653 to 1784.

The food of the rabbits includes

several species of important forage

grasses, as well as the bark of mes-

quites, catclaws and Palo Verdes.

They drink water when available

but over most of the year they rely

on cactus and buried tuberous roots

for liquid refreshment.

RABBIT YOUNG SELDOM FOUND

Broods Too Well Hidden Even for Naturalists.

By Science Service

WASHINGTON, April 13.—Jack rabbits may be dumb, but they know how to hide their young so well that very few are ever found by naturalists, Dr. Chas. T. Vorhies of the University of Arizona, and Dr. Walter P. Taylor, of the United States Biological Survey, told members of the American Society of Mammalogists here today.

Craig was paroled to a Muncie business man when he promised Baltzell to go straight. He just had been released from a two-year term at the Indiana State Reformatory for minor theft and previously had served time in Illinois.

Seven days ago the youth was arrested at Muncie in a stolen automobile. He will face Baltzell in a day or two and learn whether he must serve the prison term.

PAROLED: AGAIN IN BAD

Youth Given Suspended Sentence

Is Found in Stolen Car.

Luther Craig, 19, Muncie, paroled in February by Federal Judge Robert C. Baltzell, who suspended a two-year prison sentence for robbing the postoffice at Napoleon, Ind., today was back in the Marion County jail.

Craig was paroled to a Muncie business man when he promised Baltzell to go straight. He just had been released from a two-year term at the Indiana State Reformatory for minor theft and previously had served time in Illinois.

Seven days ago the youth was arrested at Muncie in a stolen automobile. He will face Baltzell in a day or two and learn whether he must serve the prison term.

Dread of Extraction Found Without Foundation

More and more the family physician is asking his patient, when chronic disorders stubbornly resist treatment and the operating table seems near, "How about your teeth, are they in good order?"

To put off extracting a decayed tooth or one that has an abscess at the root is to leave a poison center in the body that makes disease incurable.
