

## CITY MANAGER LEAGUE NAMES DOUBLE SLATE

Indorses Candidates From  
Democratic Party and  
G. O. P.

Marion County voters had before them today lists of legislative candidates of both parties bearing the stamp of Indianapolis City Manager League endorsement.

The slates were drawn up, said John W. Esterline, the league's executive committee chairman, upon recommendation of the ward organization. Republican league members selected the Republican ticket, he said, and Democratic members the Democratic slate.

The lists were advanced, Esterline explained, because of the large number of candidates. "The experience of the past has taught the people that if they go to the polls and vote indiscriminately for the nearly one hundred candidates who have offered themselves, those who do not represent the best interests of the people would surely be nominated," he said.

"There has, therefore, been an insistent demand for some method of concentrating the vote of the people on a preferred list of candidates in each party."

"There were more good candidates than places and to include all of them would mean the defeat of all. We earnestly urge united support of these candidates to the end that the city manager statute may be preserved."
