

## ARRESTS OF 19 CRUSH BOGUS LIQUOR PLOT

All of Men Indicted in Strip Stamp Case Are in Custody.

With arrest of Hayman Meyers and William Meyers at Minneapolis, Minn., this week, all of the nineteen defendants indicted by the Federal grand jury here last fall in a nation-wide counterfeit liquor stamp conspiracy case have been taken into custody.

Several defendants in the case will enter pleas here May 10. George L. Winkler, deputy dry administrator, says a conspiracy responsible for flooding the country with counterfeit "bonded" liquor completely has been broken up.

Fourteen tons of counterfeit whisky labels of all the old pre-Volstead favorites and Government revenue stamps for giving "bottled in barn" bootleg liquor the appearance of genuine bonded whisky, were confiscated, shortly before the indictments were returned, in raids on Chicago warehouses.

### Plot Revealed Here

Plates and other printing equipment from which tons of counterfeit labels and strip stamps had been printed and sent to bootleggers in all parts of the country, were confiscated in raids on an Albany (N. Y.) printing plant.

The alleged conspiracy was originally discovered in Indianapolis by Winkler.

William and Isaac Sagalowsky, partners in the Sagalowsky Bottling Company, 603 S. Capitol Ave., were arrested on charges of selling labels, strip stamps and other counterfeit liquor accessories last fall.

Office records of the company disclose the names of Chicago firms wholesaling this equipment. Raids on the Chicago firms, in addition to netting large quantities of contraband materials, revealed names of the manufacturers and other dealers and customers, followed by indictments and subsequent arrests.

Defendants in the case include: Peter Ziff, Charles Ziff and Abraham Ziff, of the Ziff Brothers Company, Chicago wholesalers; Harry J. Brody, Chicago; Nathan Altman, Albert C. Goodwin Sr., Albert C. Goodwin Jr., and Thomas D. N. Goodwin, all connected with the Goodwin Lithographic Company, Albany, N. Y., charged with printing the stamps and labels; Kenneth Whetsel and Guy R. Whetsel, Muncie; Clark G. Behler, Ft. Wayne; Samuel Joseph, Isaac E. Herschorn, Mike Teumko and Arnold N. Greenburg, Milwaukee.

Federal officials here have experienced difficulty in obtaining removal of Chicago defendants to Indianapolis for trial.

Kenneth and Guy R. Whetsel, Sam Fogle, Jake Fogle and Behler have pleaded guilty but will not be sentenced until after trial of their co-defendants. Date for the trial has not been set.

## GEORGE ADE INDORSES LESLIE FOR GOVERNOR

Humorist Says Candidate Alike Fitted for Office.

George Ade, humorist, today gave his indorsement to the candidacy of Harry G. Leslie, candidate for the Republican nomination for Governor, in a statement, characterizing Leslie as a "square shooter."

Ade and Leslie, both Purdue graduates and active in Boilermakers alumni affairs, have been life-long friends.

"He knows the business of the State and the workings of State institutions," Ade said. "He knows the ins and outs of legislative procedure, and all of the men who are influential in both parties. We, who are supporting him, believe that he is the very best man that could be picked out."

## SYNOD MEETING OPENS

Evangelical Churches in Four State Represented at Mt. Vernon.

By United Press  
MT. VERNON, Ind., May 3.—Approximately 225 ministers and laymen will gather here this evening for the opening of the five-day session of the Evangelical Synod of North America.

The Indiana district of the synod embraces all of southern Indiana, including churches in Indianapolis, and western Ohio, southeastern Illinois, and churches in Kentucky cities along the Ohio River.

The first business session will be held Friday morning. A memorial service will open Saturday's program and in the afternoon Dr. Earl Harper, president of Evansville college and a leader in church music in the Methodist Episcopal conference, will speak on music and religion.

Sunday's program includes English and German worship, communion rites and a special young people's meeting at which the Rev. Henry Koch, Cincinnati, Ohio, will speak.

### Side Show by Students

By Times Special  
TERRE HAUTE, Ind., May 3.—Chi Delta Chi of Indiana State here will present a "Turkish Harem" side show for the carnival of the Sycamore school yearbook. Members scheduled to appear in the show are Arvin Ewing, Clinton, Farrel Speer, Brazil; Bert Barnes, Jasonville; Fred Corbin, Brazil; Frederick Bogardus, Terre Haute; Waldon McBride, Marion; M. Moore McDowell, Campbellburg; Charles Roney, Terre Haute; Chester Hale, Blackhawk; Francis Post, Terre Haute; William Johnson, Linton; Lewis Stunkard, Lawrenceburg; Bernard Horn, Sullivan; Lloyd Wagner, Greencastle; Lester Irons, Sullivan; Earl Mann, Jr., Terre Haute; Richard Gemmecke, Terre Haute; Eldon Johnson, Brazil; Maurice Kessel, Brazil, and Robert Mosely, Danville.

## Back From Honeymoon

Back from an extended honeymoon tour through Europe are Bud and Lena Stillman, whose marriage in Grande Anse, Quebec, caused such a stir last year. Here are the pair as they arrived in New York. "Very happy," says the rich boy who married a daughter of the north woods.

## WATSON IS SCORED

Offers No Hope for Future Cleanup, Says Manager.

"Senator James E. Watson has made no mention of any need for an Indiana clean-up. Having failed to mention it, can any one believe he intends to effect one?"

Oscar G. Foellinger, Indiana manager for Herbert C. Hoover's presidential campaign, asked that question in a statement today in which he charged, "Senator Watson has been for years the head of a political machine, which, because of his lack of leadership and his overt acts, dragged the good name of Indiana through the mire."

"The approaching primary May 8 should be a turning point in Indiana's political history," declared Foellinger.

## GOTHAM BOUND FROM MISSOURI ON SKATES

Will "Roll Along" 1,500 Miles to Settle \$500 Wager.

By United Press  
KANSAS CITY, Mo., May 3.—Asa Hall of Mexico, Mo., has left here via roller skates for New York.

"I'll roll over each of the 1,500 miles," he said cheerfully as he left Kansas City with a letter from Mayor Beach to which will be added the names of other mayors Hall plans to visit en route.

The skater said he is making the long trip to settle a wager of \$500. He anticipates little trouble skating over the graveled highways, he said, and plans to average much better than walking or "bunion derby" time.

Hall left here for St. Louis whence his route would take him to Chicago and the eastern coast.

## WOMAN OFFICIAL QUILTS UNDER CRITICS BARRAGE

Probation Agent at Evansville Charges Political Plot.

By Times Special  
EVANSVILLE, Ind., May 3.—Mrs. Belle Norwood, Vanderburgh County probation officer, has resigned under a barrage of criticism by the city council of Parent-Teacher clubs. The organization attacked methods of disbursing mother's pension funds through the Probate Court of Judge E. Q. Lockyear, to which Mrs. Norwood was attached.

An investigating committee of the council declared it was unable to find eleven persons listed as among those being paid from the fund. Mrs. Norwood declared the criticism was "a political frame up" to embarrass Judge Lockyear, who is seeking renomination on the Republican ticket.

## WAR ON WILD HORSES

Cattlemen Join to Protect Cattle; Herds Strip Ranges.

By United Press  
EL PASO, Tex., May 3.—A fight has been instituted by cattlemen of this section upon herds of wild range horses which are roaming the cattle districts in large numbers.

So plentiful have the wild horses become that in some places in New Mexico they are stripping the ranges of grass. Ranchers have been forced in many localities to fence their water holes against the onslaught of the horses. A herd of more than 1,000 was recently driven to El Paso from New Mexico by rangers on the Datil forest reserve as a community project to protect the range for cattle.

## ENTER HONOLULU RACE

World's Yachtsmen to Compete in May 30 Event.

By United Press  
LOS ANGELES, Cal., May 3.—The Honolulu race, to start from Newport Harbor near here on May 30, will attract yachtsmen from all parts of the world.

Sir Thomas Lipton has donated a prize cup and the trophy already has been brought here from England. The trans-Pacific event is under the sponsorship of the Newport Harbor Yacht Club.

Don Lee's Invader of Los Angeles, winner of the event the last time it was held (in 1926), will defend its championship this year.

## GOUGHAM SPLIT OVER RAISE IN SUBWAY FARES

Administration Will Fight for Retention of Nickel Rate.

By United Press  
NEW YORK, May 3.—Rule of the nickel began to wane in the Nation's greatest city today.

The Federal District Court Wednesday ruled the Interborough Rapid Transit Company—which operates the great system of subways and elevated lines by which a majority of New York's 12,000,000 daily go to their labors—could charge a 7-cent temporary fare instead of 5 cents. A special master will decide later on a "fair and reasonable" rate.

That spelled doom for the nickel in New York unless Mayor James J. Walker and his city organization is victorious in the retaliatory drive.

The masses, straphangers, who daily undergo subway jams for the five and ten-mile rides from home to work, were divided on the new fare. Some thought it would mean better service and perhaps more rolling stock—which might mean the possibility of getting a seat occasionally.

Others lamented the move because it would mean additional cost.

Newspapers were divided. One urged the city to fight. Another said it would bring about a better return of profit and better service.

Another had a thought for the city's poor who have a struggle now. But the city administration has no thought of giving up the nickel fare—the last stronghold of the five-cent piece in New York—without a legal battle.

Mayor Walker, who recently said he would retire after this term, re-nounced that decision and said he would be a candidate for re-election of a "five-cent fare" platform.

He also called in city attorneys to make plans for an appeal to the United States Supreme Court to restrain the I. R. T. from charging seven cents. This appeal will be filed immediately and a temporary injunction will be sought pending final decision.

Former Judge Buried.

UNION CITY, Ind., May 3.—Business halted here today during funeral services for Theodore Shockney, former Randolph Circuit Court judge and State legislator, who died in Ormond, Fla.

## In High Court

Miss Virginia Diedel of Washington is the youngest girl to gain the coveted honor of practicing before the United States Supreme Court. She received her Bachelor of Laws degree from George Washington University and has done legal work for the Children's Bureau and the Mixed Claims Commission of the United States and Mexico.

## ORDER DATA ON CAMPAIGN COST

Senators Call Treasurers of Candidates.

By United Press

WASHINGTON, May 3.—Treasurers of campaign organizations working for presidential candidates in both the Democratic and Republican parties will be called before the Senate investigating committee probably Monday, it was learned here today.

The witnesses will be required to submit an up-to-date list of contributions and expenditures.

This move has been tentatively decided upon by the investigators as a routine start for the inquiry which is expected to continue until election time in November with close check on the financial affairs of political leaders.

For the present, the committee will be satisfied to call the treasurers of the main headquarters.

An executive session of the committee was called by Chairman Steiwer for today to issue the subpoenas.

### Baby Dies of Burns

MISHAWAKA, Ind., May 3.—Patricia West, 4 months old, is dead of burns suffered when a coal oil stove exploded at the home of her parents.

## Inside Dope

"Daylight saving" time, voted for Indianapolis by city council, is a work of the "Devil" and is extremely displeasing to the Lord.

So Councilman Robert E. Springsteen was advised by a woman opposing the ordinance. "I have talked with the Lord about it several times. Such schemes are from the hand of Satan," said the woman who called Springsteen to solicit his negative vote.

She gave biblical references to substantiate her belief, Springsteen said.

### Dirigibles on Training Flight

By United Press  
LAKEHURST, N. J., May 3.—The Navy dirigible Los Angeles returned to its hangar today after a nine hour repair and training flight.

## When You Choose

a creation of jewelry with the Dyer trade mark on it you choose that which has unquestioned good style and which will be cherished for years to come. As a gift it will be a source of pride to its owner and an evidence of your good judgment and discrimination.

C. B. DYER, Jeweler

Indianapolis

## FINDS TWINS IDENTICAL

Scientist Says They are Biologically Same Although Separated.

By Science Service

WASHINGTON, May 3.—Identical twins are biologically the same even though they are physically divided into two individuals. This is the novel twin theory expressed by Dr. J. M. Wolfsohn of San Francisco and Dr. S. A. Kinnier Wilson of London before members of the American Neurological Association here this morning.

The specialists described four sets of identical twins each pair of which suffered from the same form of organic nervous disease. One set developed diabetes at the age of fifty-two and both died of acute apoplexy at the age of fifty-nine.

Another set of twins, who were separated at birth, both died of the same disease at the age of fifty-nine.
