Italian Will Be Guest of Governor and Mayor at Wednesday Luncheon.

Nicola Sansanelli of Italy, president of Fidae, the international allied veterans organizations, left Indiana for Chicago today after an elaborate reception by the Indiana American Legion at Culver Military Academy Sunday.

Sansanelli, who is a member of the Italian Chamber of Delegates and former secretary-general of the Fascist party, will be in Indianapolis Wednesday and Thursday as the guest of the city and National Legion headquarters. He is on a good will tour of America.

### Entertained at Culver

Culver Military Academy presented elaborate ceremonies for the welcome and entertainment of Sansanelli Sunday, as part of the program of the annual State Legion conference, attended by more than 500 Indiana Legionnaires.

Among other notables at Culver were National Legion Commander Edward E. Spafford, Maj. Gen. Dennis Nolan, commander of the fifth corps area, United States Army, and Brig. Gen. Leigh R. Gignilliat, Culver superintendent.

Sansanelli's party will arrive at the Union Station here at 8 Wednesday morning. Prominent Indianapolis men will greet the Fidae head and escort him to the Indianapolis Athletic Club, headquarters for the two days' stay.

Governor, Mayor Welcome

Wednesday morning Sansanelli will address the legion foreign relations committee at national headquarters. At noon Governor Ed Jackson and Mayor L. Ert Slack will officially welcome the visitor at a Chamber of Commerce luncheon.

The luncheon will be public, with special invitations to members of Italian societies of Indiana.

The party will be entertained at the home of William Portune, chairman of the Indianapolis Red Cross chapter Wednesday afternoon. Portune met Sansanelli in Europe last year.

On behalf of Italian World War veterans, Sansanelli will present an Italian flag to the Indiana World War memorial in a ceremony on the south steps of the new memorial shrine Thursday morning.

Lindbergh and Tunney Visit

Gene Tunney and Charles Lindbergh had a visit in New York recently and both agreed that it was a nuisance to be public idols. They are very much alike in their tastes. Both avoid habits that are injurious to health and morals. They are outstanding young men of sterling character.

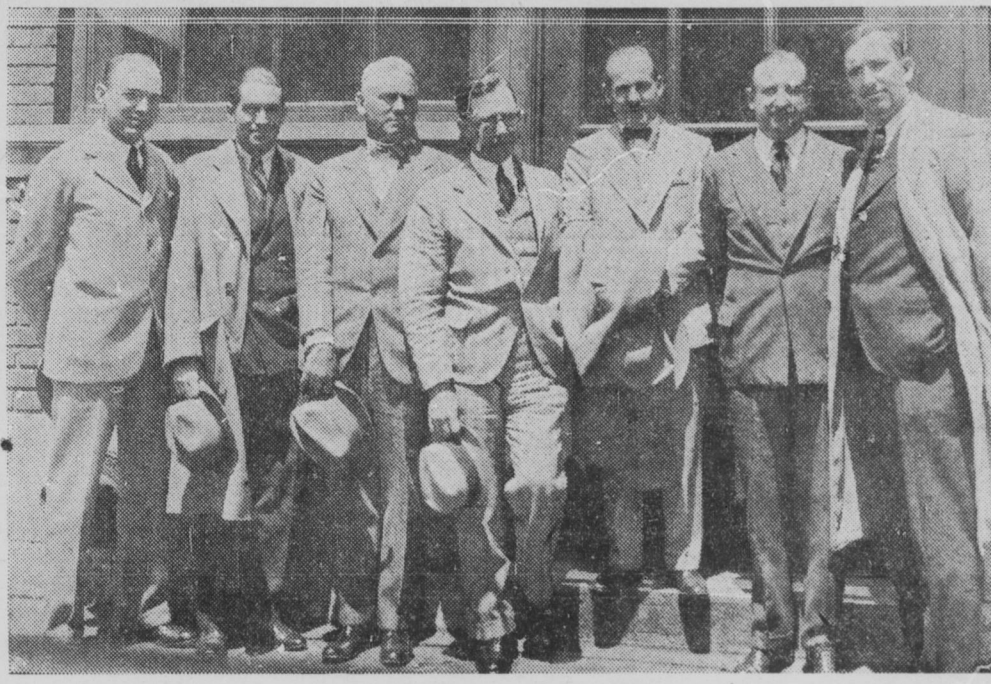

Both Lindbergh and Tunney are thrifty and either one of them would advise any one who asked them to save something out of their earnings. Follow the advice of the great and save regularly at the City Trust Company.

Don't Make a Toy Out of Baby—Babies Have Nerves

By RUTH BRITAIN

Much of the nervousness in older children can be traced to the overstimulation during infancy, caused by regarding baby as a sort of animated toy for the amusement of parents, relatives and friends. Baby may be played with, but not for more than a quarter of an hour at a time daily. Beyond that, being handled, tickled, caused to laugh or even scream, will sometimes result in vomiting and invariably causes irritability, crying or sleeplessness.

Profuse, crying and sleeplessness from this cause can easily be avoided by treating baby with more consideration, but when you just can't see what is making baby restless or upset, better give him a few drops of pure, harmless Castoria. It's amazing to see how quickly it calms baby's nerves and soothes him to sleep; yet it contains no drugs or opiates. It is purely vegetable—the recipe is on the wrapper. Leading physicians prescribe it for colic, cholera, diarrhea, constipation, gas on stomach and bowels, feverishness, loss of sleep and all other "upsets" of babyhood. Over 25 million bottles used a year shows its overwhelming popularity.

With each bottle of Castoria you get a book on Motherhood, worth its weight in gold. Look for Chas. H. Fletcher's signature on the package so you'll get genuine Castoria. There are many imitations.—Advertisement.
