

# SHIPPERS FROM 4 STATES WILL CONVEENE HERE

1,000 Traffic Men Expected for Advisory Board Meeting.

More than 1,000 traffic men, including representatives of shippers' organizations and railroads operating in Indiana, Kentucky, Ohio and West Virginia are expected to attend the summer meeting of the Ohio Valley Shippers' Advisory Board at the Claypool Tuesday.

Chairman Paul C. Hodges, Columbus, Ohio, will preside over a preliminary meeting of the executive committee on Monday.

**Slack to Speak**  
Guy L. Cory, Springfield, Ohio, general chairman of the board, will preside at the Tuesday meetings. Mayor L. Ert Slack will welcome the board members.

John A. Morris, district manager for the car service division of the American Railway Association, Cincinnati, will preside during presentation of carriers' reports. These will cover the general transportation situation, including the purchases of new equipment, road and terminal improvements and other matters of interest to shippers and receivers. Nineteen railroads will have chief operating officers at the meeting and several will speak.

**Committees Named**  
L. E. Banta, Indianapolis Board of Trade traffic manager and president of the Indianapolis Traffic Club, will head the shippers' committee, and Lawrence N. Helm, Norfolk & Western commercial agent, is in charge of arrangements.

**NEW MATERNITY LAW SOUGHT IN CONGRESS**

**Infancy Welfare Bill Free of State Rights Objections.**  
By Times Special  
WASHINGTON, June 1.—A new maternity and infancy welfare bill said to be free from States rights objections has been introduced by Representative Walter Newton (Rep., Minnesota).

If it is passed by the next session, infant and maternity welfare work now being done under the Shepard-Towner act can be continued without a break. The later act expires June 30, 1929.

Newton has modeled the new bill after laws authorizing Federal extension service activities in the Department of Agriculture. The annual appropriation would be \$1,000,000.

Instead of each State being required to match Federal funds on a fifty-fifty basis, Newton's bill provides for Federal cooperation with States under any basis agreed on.

**BOLT KILLS 40 COWS**

**Cattle Huddled by Fence During Storm.**  
MEADE, Kan., June 1.—Getting two birds with one stone had nothing on a bolt of lightning which electrocuted forty head of cattle belonging to George Theis, near here. The cattle were huddled together along a wire fence during a storm and the lightning appeared to have struck the fence and caught the hapless animals.

**City Street Falls In**  
WILKESBARRE, Pa., June 1.—Two hundred feet of Newport Ave., dropped from sight when a cave-in occurred at the Glen Alden Coal Company, whose cellar extended under the street.

# Excursion to Cincinnati \$2.75 Round Trip

To Shelbyville...\$.75  
To Greensburg...1.25  
To Batesville...1.50  
Sunday, June 3

# Ah, Give a Look

Sweden has been holding beauty contests, too, with an eye for honors in the international pageant to be held at Galveston, Texas. Here's the winner of the finals who will represent her country. She is Mlle. Rene Bjorling.

# I. U. LABORATORY MAKES LIME QUALITY STUDY

Two Chemists Announce Results of Research.

**By United Press**  
BLOOMINGTON, Ind., June 1.—A new laboratory study showing how the quality of lime produced from burning limestone can be controlled to produce best results in such commercial uses as plastering, water softening, wool washing and purification of sewage has been completed in the Indiana University chemistry laboratories by Dr. F. C. Mathers of the department, and K. W. Ray, graduate.

Numerous requests for reprints of a recent article setting forth the results of laboratory experiments here indicate widespread interest in the research.

Using pure Oolitic limestone of this section for their work, the University chemists have shown how differences in temperature of the burning limestone cause differences in properties of the lime formed.

# 'PSYCHI' HOLDUP FAILS

Book Learning Proved of No Aid to Tyro Bandit.

**By United Press**  
NEW YORK, June 1.—Psychology has been proved a failure in the holdup racket.

George Hoffman had been studying the "A. B. C. of Psychology." Armed with the book and a crowbar he attempted to rob a Bronx butcher. However, things failed to work out according to Hoyle.

The crowbar didn't put the butcher to sleep and when he started howling for help (contrary to psychological premeditation) George headed for the elevated stairway only to be caught in the arms of Patrolman Corcoran.

# 278 TEACHERS WILL GRADUATE

Dr. G. L. Mackintosh to Talk at Commencement.

Dr. George L. Mackintosh, Crawfordsville, Ind., former Wabash College president, will be the speaker at Teachers' College commencement exercises to be held at 1:30 a. m., Thursday, June 7, at Cadle Tabernacle. Two hundred and seventy-eight will be graduated, seventy-two from Indianapolis.

Dr. Homer P. Rainey, Franklin College president, will preach the baccalaureate sermon at Broadway Methodist Church at 3:30 p. m., Sunday. Mrs. Ruth O. Benedict of the music department will be in charge of the musical program.

Class day will be observed at the college at 3 p. m., June 5, and the faculty will entertain the graduates the evening of June 4.

At the commencement exercises the junior class dressed in white, will form an aisle down which the graduates will march. The annual alumnae luncheon will be at 3 p. m., Commencement day at the Claypool.

**Survived Famous Charge**  
**By Times Special**  
FINCASTLE, Ind., June 1.—In this little Putnam county village, Samuel Walker, 91, one of the six men who escaped unharmed in Pickett's charge at the Battle of Gettysburg nearly sixty-five years ago, is waiting for life's sunset. Twenty thousand men took part in the charge July 3, 1863.

**Slack to Speak**  
Guy L. Cory, Springfield, Ohio, general chairman of the board, will preside at the Tuesday meetings. Mayor L. Ert Slack will welcome the board members.

# KNOXVILLE MANAGER IS VISITOR IN CITY

Tennessee City Saves Vast Sums Under New Rule.

City Manager O. T. Roehl of Knoxville, Tenn., was a visitor at city hall Thursday.

Roehl, who became city manager of the Tennessee city Oct. 1, 1927, expressed opinion that the manager

form "will be a good thing for Indianapolis."

He said Knoxville had saved thousands of dollars since adoption of the business-like form of government in 1923.

"We do not have to bother with politicians all the time. There is a political faction fighting the manager form, but it is not sufficiently strong at present to control conditions."

"I do not like to talk about graft

all the time, but the manager form has eliminated corruption. The city manager is like any other form it must have the right type of citizens behind it."

**Never Tardy Nor Absent**  
HAMMONTON, N. J., June 1.—Arthur Lewis Yates, 14, has set what is believed to be a world record for school attendance. In nine years in grammar school he has never been tardy or absent.
