

DICTATOR OF PEKIN FLEES; CITY IS QUIET

Peaceful Occupancy by Invading Nationalists Is Predicted.

DEPARTURE DRAMATIC

Ruler Rides Through Streets in Armored Car to Say Farewell.

BY D. C. BESS
United Press Staff Correspondent
PEKIN, China, June 4.—This northern capital today calmly awaited new developments of the Chinese civil situation—probably the peaceful occupancy of the city by southern Nationalist troops.

There have been few demonstrations since Chang Tso-Lin, dictator of affairs for the past five years, rode smilingly through the streets in an armored car Sunday, and started his retreat back to Manchuria. He left an interim government in charge and made arrangements for gendarmes to maintain order.

Generals Chang Hsue Hsiang and Yang Yu Ting, remaining of the northern forces that Chang Tso-Lin controlled, have decided to maintain their armies at a point thirty miles south of Pekin. This, it is understood, is an effort to create peace between the Nationalist armies and the northern people.

Chang Tso-Lin's departure from the capital he had ruled for five years was as dramatic as has been his unsuccessful defense of the city.

For hours he remained quiet, as to the time of his leave-taking. Then he issued a circular pointing out that he has assumed control to save the state. However, military operations had become intolerable and he had decided to leave the city with his troops.

Shortly thereafter, as bands played and troops saluted, Chang Tso-Lin took his departure.

Chang's Train Bombed

MUKDEN, China, June 4.—Manchurian soldiers were concentrated within the walled city today after an attempt had been made on the life of Chang Tso-Lin, retiring dictator of the north China government, by bombing his special train.

Chang and several of his aids were injured. Several guards were killed.

The injury to the Manchurian war lord was said not to be serious. He was injured in the forehead.

Two nationalist spies were shot and killed by Japanese soldiers, who helped in restoring order to the panic-stricken city.

Among the injured were the minister of agriculture, Governor Wu Chun Sheng, Governor of Heilun Kiang province, and the Japanese military adviser, Major Giga.

Machine gunners started firing at random soon after the explosion. There was some fighting between the northern guards.

Dynamiting of the train carrying the Manchurian war lord—a special train chartered to bring Chang in retreat from Pekin—occurred at 5:30 a. m. today in one of the suburbs of the city near the Lao to Kao railroad bridge.

Chang's ally quits

SHANGHAI, June 4.—Sun Chuan-fang, Chang Tso-Lin's principal ally in the civil war, followed the example of his chief today and resigned command of the Shantung and Chihli armies.

Sun's decision left only Chang Chung-chung remaining of the three principal northern leaders and Chang's army had been routed and fleeing to safety.

Sun announced he would withdraw from his headquarters at Tientsin.

Foreign forces at Tientsin are occupying defensive positions bordering the foreign quarters. Many Chinese are seeking refuge in the quarters, depending upon the foreign troops to guard them against looting.

DISCUSS PROBLEMS OF UNWED MOTHER

Need for Restoring of Proper Mental Balance Is Stressed.

Need for restoring a proper mental outlook to the unwed mother was emphasized at the opening of the two-day session of the forty-fifth annual Florence Crittenton conference at the Marriott Hotel this morning.

Seventy delegates and national officers and leaders in the movement from throughout the country are in attendance.

Mrs. Albert R. Coffin, president of the Crittenton home here, presided, following a welcome address by Mayor L. E. Clark.

"Unwed mothers are of varying types and from all social and economic classes," Dr. Ada E. Schweitzer, director of the Indiana State board of health child hygiene department, told the delegates at the opening session. "They range from those who are actually feeble-minded to superior types, who flaunt conventions because of some anti-social quirk for which they have worked out a philosophical basis."

Sessions Continue Tuesday
"After the catastrophe of a fatherless child the future of the mother depends so much upon mental conditions and strength or weakness in withstanding social criticism that the problems of the homes and other agencies in dealing with these things are to a great extent the problems of mental hygiene."

Mrs. A. Brooks of Fargo, N. D., also spoke. The delegates went to Woodstock Country Club for lunch and will continue sessions this afternoon and Tuesday.

Devotional services for delegates were held at All Souls Unitarian church Sunday afternoon.

The principal address was delivered by National Secretary C. R. Preston of Boston, Mass.

Touching upon the varying causes of the modern girl falling in to the class of the unwed mother, Preston listed as contributing factors the automobile, roadhouses, bad plays, bad books, public dance halls and commercialized amusements, mental afflictions, bad rearing, ignorance of sex matters, financial conditions, love of excitement, drugs and drink.

No Longer Fallen Women
"It is not the girl who is a steady drinker that falls," he declared. "It is usually the one who takes only an occasional drink."

Dr. Alva H. Taylor, national secretary of welfare work of the Disciples of Christ, presided. He declared that the unwed mother is no longer placed forever in the class of fallen women.

The sixty-five Crittenton homes administered to 2,500 unmarried mothers and 1,800 babies daily last year, Robert S. Barrett, national president, of Alexandria, Va., reported.

The Indianapolis home has been established since 1912. It is located at 2044 N. Illinois St.

DYING RADIUM VICTIMS WILL GET DAMAGES

Judge Assures Five Young Women of Financial Ease in Last Days.

By United Press

NEWARK, N. J., June 4.—Hope that their final days of life may be spent in financial ease was given today to the five diseased wracked young women who are suing the United States Radium Corporation for \$1,250,000 because of injuries from contact with a radium compound.

Federal Judge William Clark offered them the hope after a conference in his chambers here between attorneys for the corporation and the plaintiffs.

The former is acting as a mediator, hoping to effect a settlement so the women may not die before the suit is brought into court. A settlement probably will be made this afternoon, said Judge Clark.

Judge Clark intimated that an agreement had been reached upon by attorneys for both sides, and that the formal signing of the papers was all that remained to complete negotiations.

"I can make no formal statement at this time," Judge Clark told the United Press, "but in all probability the radium suit will be a closed chapter at 2 o'clock this afternoon."
