

QUICK COUNCIL ACTION IS SEEN FOR HOSPITAL

Architect Selection. Waits Authorization of Bond Issues.

Selection of an architect and hospital consultant for the city hospital building program is being delayed until the \$60,000 bond issue is passed by council. It was said at city hall today.

An ordinance authorizing a bond issue of \$60,000 for employment of an architect and consultant to give detailed estimates and plans on the hospital building needs will be introduced in council tonight.

It is thought that council will suspend rules in order to pass the measure immediately. The hospital has sought relief from the congested condition for more than a year, but has been unable to obtain a bond issue for the emergency.

Several councilmen have been interested themselves in the selection of an architect and consultant. It is said.

Councilmen will meet at regular time (7:30 p. m. standard time), despite the daylight saving ordinance which was "voted last council meeting. Statute sets the hour.

FREEDOM IN MARRIAGE

Ball Teachers College Not Likely to Use Ban Like I. U.

By United Press

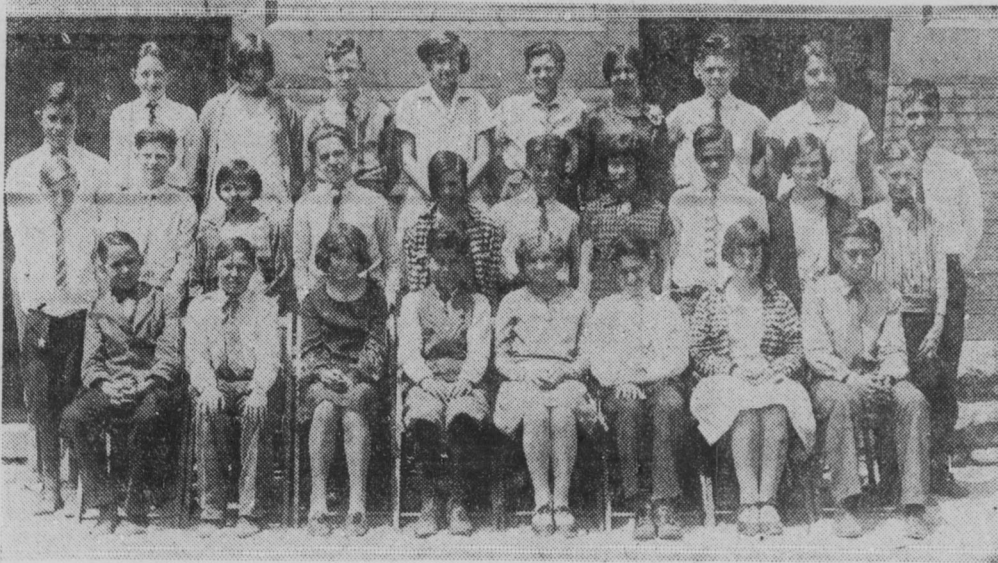

MUNCIE, Ind., June 4.—Indiana University's ruling against students, holding that weddings unannounced after two weeks might result in loss of credits to the bride and groom, probably will not be adopted at Ball Teachers College here, officials declare.

Officials here have no objection to student marriages—even secret ones—according to Miss Grace De Herity, dean of women. "There may be a few co-eds here who are secretly married, but the situation never has caused the college any trouble," Miss DeHerity said.
