

CITY TO WELCOME 26 FLIERS ON FIRST AIR TOUR STOP

PLANES SLATED TO REACH HERE SATURDAY NOON

Pilots on Reliability Trip Will Visit Cities All Way to Coast.

LUNCHEON TO BE GIVEN

Civic Leaders, Industrial Chiefs on Committee of Greeting.

Everyone in Indianapolis was invited to participate in welcoming pilots of the twenty-six planes in the national reliability air tour, who will make their first stop at the Speedway shortly after noon Saturday.

There will be not admittance charge. Free parking space will be provided in the Speedway infield. After all planes have landed, the public will be permitted to inspect at first hand the various new type planes. G. M. Williams, Marmon Motor Car Company president and financial sponsor of the tour, said: "Motorsists may reach the Speedway by driving out Indiana Ave. to Sixteenth St., then west on Sixteenth to the Speedway. The main gate opposite the Purest-O-Lite plant will be the only gate open."

Leave Detroit in Morning

The planes will leave Detroit at one minute intervals, the first plane taking off at 10 a. m. Saturday. The Lockheed Vega, one of the fastest planes in the tour, piloted by Robert Canwell, is expected to be the first arrival, landing probably at 12:15 p. m.

While the public is inspecting the planes, pilots and passengers will be luncheon guests at the Prest-O-Lite factory restaurant. H. H. Brooks, Marmon general sales director, will preside. Homer McKee will give the address of welcome.

Several airplanes from the Hoosier airport and Ft. Benjamin Harrison will fly to greet the visiting planes a distance from the city and escort them to the Speedway.

Each Craft Checked

Each plane will be checked as it arrives. Western Union will have a sending station in a tent at the Speedway to wire departure time to the next stop, St. Louis, Mo. The planes will leave for St. Louis at one minute intervals, beginning at 3 p. m.

The tour is not a race, but rather a reliability contest. Planes will be judged on technical points.

Among the interesting planes in the tour is a Mohawk monoplane, piloted by Dr. Joseph A. Nowicki. This is similar to the Junkers plane in which the German and Irish fliers recently spanned the Atlantic, in that the single wing is located below the fuselage, instead of above, as in most monoplanes. The Lockheed Vega is full streamlined and has a speed of about 175 miles an hour.

Myers Is Referee

T. E. (Pop) Myers, Speedway vice president and general manager, will be field referee, and Odie A. Porter, Speedway timer, will be chief timer. Mayor L. Ert Slack, Postmaster Robert H. Bryson and Meredith Nicholson will be local field judges. H. H. Brooks, Marmon general sales director, is chairman of the

The First Lady Smiles

Mrs. Coolidge, surrounded by crowds as she stepped from the train in Duluth, Minn., on her way to get a marcel, paused for a moment to enjoy a laugh. Just what tickled the First Lady isn't known—maybe it was the tall buildings in Duluth. To her left is J. Fitzgerald, her personal secret service guard.

AIR-RAIL ROUTE STOPS PLANNED IN INDIANAPOLIS

Flying Fields of City Are Inspected by Officials of Nation-Wide Line.

Either Indianapolis or Terre Haute will be on the transcontinental air-rail route from New York to Los Angeles, it was indicated today by Maj. H. Clay Ferguson and Capt. Phil Love, who on Thursday inspected local airports. Captain Love accompanied Col. Charles A. Lindbergh on his American tour last summer.

Night Trip on Train

Love said the Transcontinental Air Transport Service Company, in which Colonel Lindbergh holds a high executive position, plans to make the ocean-to-ocean trip in two days and two nights.

The tentative schedule provides for planes leaving Columbus, Ohio, early in the morning and stopping either at Indianapolis or Terre Haute about 10 a. m. From here the planes will fly to Wichita, Kan., where passengers will be transferred for a night train trip, resuming the air flight the next morning.

The fliers were guests at the Columbia Club of Norman A. Perry. They were accompanied on their airport tour by Clifford L. Harrod, Chamber of Commerce industrial commissioner; Paul H. Moore, aviation secretary; and Capt. H. Weir Cook, regular army instructor of the 113th Observation Squadron, Indiana National Guard.

Leave for Ohio

In addition to inspecting the Indianapolis airport and the Speedway, Love and Ferguson also inspected two tracts, one southeast and the other northwest of the Indianapolis airport and another suitable field east of Irvington.

After spending the night at the Lincoln, Love and Ferguson left by train this morning, probably for Columbus, Ohio, to continue their inspection trip.

JAZZ PROMOTES BATHS

Women Crowd Vienna Beaches If Bands Play.

VIENNA, June 29.—Jazz music promotes bodily cleanliness, especially among women, it has been discovered here.

Before the war few "strands" or river beaches near Vienna were frequented by very small groups, the men outnumbering the women two to one. Today, at ordinary bathing places, there are twice as many women as men. And, where jazz orchestras are part of the establishment, women outnumber the men four to one.

As a result, jazz music will be a feature at every "strand" this summer.

Fish on Trial

Resigned to Fate, Dead Perch Figure in Suit Contesting Law.

ON two cakes of ice, two poor fish will ride into municipal court four this afternoon. They will lie there dead, heedless of the legal battle waged over and about them.

Earl Cox and Frank Symmes, attorneys for the Willis and Booth fish companies, will argue a motion to quash an affidavit charging the firms with selling yellow perch during the closed season. The State conservation department charges these companies had perch on sale in violation of the State law. The perch were seized, wrapped and placed in cold storage pending the trial.

It will be the first appearance of the fish since their "capture" by State authorities. No effort has been made to get them out on bond and as far as known, they have not communicated with relatives.

According to attorney's statements to Judge Paul C. Wetter, the fish were shipped into Indiana from another State. They will contend that the Legislature in passing the closed season law could not rule on fish involved in interstate traffic.

REVOLVING HOUSE NEW

FASHION FOR FRANCE

Southern Exposure Possible at Any Time of Day.

By United Press

PARIS, June 29.—If you are inconvenienced because you haven't got southern exposure or because just as you are finishing breakfast the pleasant rays of the sun disappear from your window, don't worry.

Send over to Paris for a revolving house. They are shown at the first exhibition of building and decorative arts.

All you will have to do is touch a button and the entire house revolves on a platform as far as you desire. You can thus follow the elusive sun until it finally "drops out of sight below the horizon."

A four horsepower motor furnishes the power. This is installed in the basement and all the gas water, electric tubes and wires are grouped ingeniously in a central chimney-like structure.

CUBA INVITES VETERANS

Anniversary of San Juan Battle to Be Celebrated.

KEY WEST, Fla., June 29.—Spanish War Veterans of Dixie will embark from here Sunday to attend the celebration in Cuba marking the thirtieth anniversary of the battle of San Juan Hill.

President Machado of Cuba is expected to participate in the ceremonies which will be held on the site of the battle field.

NORTH DAKOTA VOTE ON DRY LAW IN DOUBT

Frazier Appears Winner of G. O. P. Nomination for Senator.

By United Press

FARGO, N. D., June 29.—The contest to determine whether North Dakota shall repeal the State prohibition amendment was still in doubt today. Returns from 1,458 of the 2,192 precincts revealed 53,904 votes for the repeal and 55,765 against it.

The element favorable to the repeal of the amendment declared that wets would win their fights, since districts yet to be heard from were considered anti-dry.

Meanwhile, Senator Lynn J. Frazier, nonpartisan incumbent, appeared the winner for the Republican senatorial nomination over former Governor B. A. Nestos, Independent. Returns from 1,853 precincts showed Frazier with 75,623 votes and Nestos with 67,902.

In the gubernatorial race George F. Schafer, Independent, had a commanding lead over T. H. Thoreen, nonpartisan. In 1,645 precincts the count stood 75,202 for Schafer and 60,102 for Thoreen.

Story Winner

Miss Marjorie Foster, Alexandria high school girl, whose essay on meat entered in the Fifth National Meat Story Contest, won highest honors in the State of Indiana. The contest is conducted annually by the National Live Stock and Meat Board. More than 16,000 girls competed this year.

The average yield of a coffee tree is one pound.

THREE DIE IN ELECTRIC CHAIR

Pay Penalty in Oklahoma's First Triple Execution.

By United Press
McALESTER, Okla., June 29.—Three men, two of them Negroes, paid the death penalty for murder here today in Oklahoma's first triple execution.

Walter Wigger, white, convicted of killing his young sweetheart, Mrs. Ruth Harris of Miami, Okla., was the first to go to the electric chair.

He was followed by Theodore Bruster, Negro, convicted of slaying William Heeman, Muskogee, Okla., storekeeper. Willie O'Neil, slayer of Mark Hipscher, Oklahoma City street car motorman, was the third man electrocuted.

"I have nothing agin' you, my boy," were Wigger's last words to the executioner before a 2,300-volt current was sent through his body. All three walked to their deaths calmly.
