

THREE FINED IN ELEVEN CASES OF GAMBLING

Five Are Dismissed, Three Others Are Given Stay by Court.

In eleven gambling cases in municipal courts Tuesday, fines were assessed in three, five cases were dismissed, judgment was withheld in two cases, and one was continued. Judge Paul C. Wetter was on the bench in court No. 4, and Special Judge Paul Rochford was on the bench in the afternoon in Judge C. R. Cameron's court, No. 3.

Judge Wetter ruled there was no evidence of law violation in the cases of Charles Patterson, 1631 Yandes St., when the officer suspected Patterson was selling pool tickets. The case was discharged.

Investigated Too Late
Sergeant C. Hodges testified he saw Patterson in the 700 block on Indiana Ave. with several papers in his hands which looked as if they were pool tickets, but did not investigate until after the arrest was made.

Melvin French, Sr., 1446 Silver Ave., was fined \$5 and costs for pool selling and \$25 and costs for keeping a gaming device. The case of Melvin French, Jr., same address, held for pool selling, was discharged for lack of evidence.

The cases of James Whitney, 1356 Bridge St., and Max Stewart, 1754 S. Talbot St., also were discharged for the same reason.

The four men were in the establishment of the senior French when arrested. Roscoe Rowe, 541 Arbor St., was fined \$5 and costs for gambling and \$10 and costs and sentenced to ten days for keeping a gambling house.

Judgment Suspended
Thomas Williamson, 503 Coby Ave., was fined \$5 and costs for gambling and \$10 and costs and sentenced to ten days for visiting a gambling house. Judgment was suspended on both charges.

Case of William Shiner, 1200 Oliver Ave., was discharged. Judgment was withheld in the cases of Samuel Lance, 554 Division St., and Paul Nicols, 544 Arbor Ave. All three were charged with gambling and visiting a gambling house.

The five men were said to have been playing poker at Rowe's house when arrested.

The case of Gill Sarbinoff, 65 S. Chester St., charged with pool selling, was continued to Aug. 1.

AIMEE'S AD REJECTED

Bible Association Organ Declines to Print Publicity.
By United Press
LOS ANGELES, July 18.—The only rift in the convention of 8,000 World's Bible Association delegates here centered around Aimee Semple McPherson, the titian-haired evangelist.

Mrs. McPherson wished to place an advertisement of herself and of Angelus Temple in the convention publication and those in charge of the paper declined to accept it.

Harry C. Munro, St. Louis, an editor of the publication said that they had "been approached" concerning the advertisement, but none appeared and it was intimated plainly that the message was not desired.

He told of the enormous progress made by Czechoslovakia and its worship of Woodrow Wilson.

The Tyrol section of Europe was recommended as the most scenic.

OPEN CHURCH DRIVE

Christians Seek \$1,750,000 for Capital Edifice.

"We have too long impoverished our souls by the absence of the aesthetic and artistic qualities in our worship," said Dr. A. D. Harmon, Cable, Wis., Tuesday, in a plea for great church architecture at a meeting of national church leaders assembled in the Central Christian Church.

The meeting marked the opening of a three-day retreat and conference to plan for the final campaign to raise \$1,750,000 for the erection of a suitable Disciples of Christ Church in Washington. Thus far \$1,000,000 has been raised through special solicitation.

The objective of the present conference is to prepare for the observance of Washington Church Victory Sunday, Oct. 21, when the entire membership of the Christian Churches of America will be given opportunity to share in the money-raising project.

Dr. H. H. Harmon, Indianapolis, director of the crusade for the National City Christian Church enterprise, presided.

Street railway directors were to adopt resolutions on Mr. Todd's death at a meeting at 2 p. m. today.

BOARD TO ASK \$1,090,000 FOR FLOOD CONTROL

Program Calls for Widening, Dredging White River; Contracts Upheld.

City council probably will be asked for a \$1,090,000 bond issue for the flood prevention program of the board of works at the next council session.

John W. Holtzman, city corporation counsel, has advised the works board that the White River widening and dredging contract and the Morris St. bridge agreement let by the Duval board of works appear to be legal. Oren S. Hack, works board president, said the board is awaiting a written opinion on the legality of the Duval contracts.

National Concrete Company was awarded a \$268,000 contract to remodel Morris St. bridge over White River in May, 1927, when the board was composed of Virgil Vandagriff, Frank Cones and John W. Friday.

Ouster Delayed Contract

Ousting of former Mayor John L. Duval and election of Slack who named a new board of works delayed the execution of the contract. There has been considerable objection to the National Concrete Company and which provides for lengthening the bridge at its present width. Some engineers feel that the present width will be sufficient to handle traffic for ten or twenty years.

Charles Jefferson was awarded a contract for \$497,000 for widening and dredging of the river between Morris and Raymond St. Judgments of \$225,000 to the Granite Sand and Gravel Company and \$100,000 to Dilling & Co. for ground acquired for the widening project will be included in the bond issue, it is said.

Bond Sale Unlikely

It is likely that the city will be unable to sell bonds because of the litigation against Slack's title to office.

Work on the Belt railroad \$12,000,000 south side elevation project is being delayed until work is begun on the flood prevention program. The railroad agreed to start work thirty days after work is started and finish in ten years.
