

WHEAT FUTURES RALLY SLIGHTLY IN CHICAGO PITS

Recent Losses Place Grain in Favorable Position for Upturn.

By United Press
CHICAGO, July 20.—Two days of sharp losses put wheat into a position to rally moderately today on the Board of Trade, on stronger quotations at Liverpool. Corn and oats made fractional gains.

Wheat opened $\frac{1}{2}$ to $\frac{3}{4}$ cent up; corn was $\frac{1}{2}$ to $\frac{3}{4}$ cent higher, and oats were up $\frac{1}{2}$ to $\frac{3}{4}$ cent. Provisions were slightly lower.

Pressure on the Canadian and American wheat markets the past two days caused sharply lower levels. Traders believe the decline put the market in a healthy position. Liverpool was stronger than expected today.

July corn was again tight Thursday and imparted strength to the other deliveries. Weather conditions in all sections favored the crop.

New oats continued to arrive at southwestern terminals Thursday while threshing progressed northward. Ideal conditions were reported throughout the belt. Supplies of old oats are low.

RAILWAYS MAY PREVENT CHEAP RATES ON OHIO

Only Hope Is for Congress to Amend Act to Give Barge Service.

By KENNETH WATSON
WASHINGTON, July 20.—Opposition of the railroads may deprive Ohio, Indiana, Pennsylvania and other States bordering the Ohio River of the benefits of cheap water transportation when the canalization of that stream is completed in 1930, unless Congress amends the present Inland Waterways Corporation act.

This act provides extension of the Government barge line, with its low freight rates, to any tributary or connecting waterway of the Mis-

sissippi River as soon as a suitable navigation channel exists.

At the last session of Congress, however, a joker seems to have been inserted in the Dennison bill excluding the Ohio River from the Government barge service.

Gen. T. Q. Ashburn, chairman of the Inland Waterways Corporation, today deplored the fact that Congressmen representing territory bordering the Ohio River had failed to insist on inclusion of this great stream.

"The Ohio River offers more opportunity for tonnage than any river in the world and the people ought not be deprived of the opportunity of sending and receiving their products by a common water way," Ashburn said.

War Department engineers now are engaged in constructing the last four dams which will increase the low water depth of the Ohio River from around five feet to a minimum of nine feet.

"Barring unexpected delays from

high water the four dams will be completed by the end of next season," Col. Thomas M. Robbins of the Army engineering corps, said today.

Forty-nine dams already have been constructed in the 800-mile stretch from Pittsburgh to a joint just below Evansville, Ind. The navigation improvements afforded by these dams has enabled an increase from 6,000,000 tons hauled by barges in 1922 to more than 22,000,000 tons in 1926.

"Completion of the remaining four dams should double this tonnage," Colonel Robbins said.

Should the waterways act be amended so that the Government barge service can be extended to the Ohio, the great industrial district adjacent will have the benefit of the low rail-water route.

The last passenger pigeon in the world died not long ago of old age in the New York Zoological Gardens.

WARD BOSS SENTENCED

Judge Takes Case, Sends Politician To Jail for Thirty Days.

CHICAGO, July 16.—Justice is not served altogether in Chicago by ward bosses. And H. W. Chopp, ward-politician, contractor and candidate

ward committeeman, found it out.

When his friend Eugene Adams, taxi driver, was fined \$50 in Judge H. G. Immelhausen's court for three misdemeanors, Chopp rose to his feet and shouted, "What's the idea of giving this guy the 'rap'? I represent the people. You, judge,

couldn't keep me in jail five minutes."

But Judge Immelhausen, regardless of pineapple bombs, gave him thirty days in jail and made it stick.

A tie always should be "tied" through muslin before it is added to water.
