

NEGROES FRAME
REVOLT TO PICK
OWN CANDIDATE

Elks Sponsor Move to
Break From Both Parties
Over Grievances.

BY RAY TUCKER
Times Staff Correspondent
SAN FRANCISCO, Aug. 14.—In
revelation against both Republicans
and Democrats, Negro leaders have
framed plans to nominate one of
their own race as a candidate for
the presidency.

With the sole idea of forcing
greater recognition from the two
major parties, 3,200 delegates of the
Independent Order of Elks, second
largest Negro fraternal organiza-
tion in America, will meet at Chi-
cago on Aug. 24 to name a candi-
date, probably Alderman Louis An-
derson of Chicago. The revolt is
sponsored by the Elks, which has
a membership of 400,000 and some
of the country's most influential
Negro politicians at its head.

Confer With Hoover
The reasons behind the revolt
were outlined to Herbert Hoover,
Republican nominee, by Robert R.
Church, Negro leader of Memphis,
and Roscoe Simmons, who controls
the black belt of Chicago. Church
and Simmons were members of the
notification committee, and stayed
over a few days to confer with Ho-
over. Both will go to Chicago to
speak against a separate Negro
ticket, and fight for Hoover.

Negro leaders, weeklies and dailies
recently have charged that the Re-
publican party seeks to use the col-
ored rule of the organization in the
South. They are particularly in-
censed at the indictment of Perry
Howard, colored national Republican
committeeman from Mississippi and
grand attorney of the Elks order.
His indictment is blamed on friends
of Hoover, particularly Mrs. Mabel
Walker Wilberbrandt, assistant at-
torney general.

Meanwhile, Democratic courting
of the Negro voters seems destined
to failure. Governor Smith's record
with regard to the Negro is unsat-
isfactory, according to colored lead-
ers. Though Tammany has included
them in distribution of patronage,
they charge that Smith never has
shown friendliness. Moreover, they
do not like Senator Robinson, Dem-
ocratic vice-presidential nominee.

Vote Is Important
The number of actual Negro
voters in States where the result
might be affected by nomination of
a colored man for President follows:
New York, 65,000; Tennessee, 80,000;
Kentucky, 60,000; Missouri, 60,000;
Indiana, 69,000; Ohio, 113,000; Illi-
nois, 260,000.

The Republicans never have car-
ried Tennessee or Kentucky by a
margin as great as the Negro vote.
In the other states loss of Negro
support might cause trouble for the

edonian murders. It is feared big

WEATHER AIDS IN WAR ON GERM CARRYING INSECTS

BY FRANK THONE
By Science Service
ITHACA, N. Y., Aug. 14.—War-
fare against insects whose bites or
stings plant deadly germs in the
human system, occupies much of
the attention of the members of
the fourth international Con-
gress of Entomology in their ses-
sions here Monday. Dr. R. R.
Parker of the United States Pub-
lic Health Service, outlined the
results of researches on Rocky
Mountain spotted fever which he
and his colleague, Dr. R. R.
Spencer, have been carrying on
in Montana.

This dangerous disease is curi-
ously uneven in its behavior, Dr.
Parker said. In parts of Mon-

tana 90 per cent of all persons
who take it die.
In the neighboring State of
Idaho, only 5 per cent of the cases
terminate fatally. There is no
effective treatment once the dis-
ease has been contracted, and no
control measures have been de-
vised against it.
During the last few months,
however, the effectiveness of a
preventive serum has been con-
clusively demonstrated in prevent-
ing mild forms and reducing the
death rate.

The weatherman should be
called into the alliance now
existing between the entomologist
and the medical scientist, accord-

ing to Dr. Erich Martini of Ham-
burg, Germany. He called atten-
tion to the need for a better
understanding of climatic factors
as they affect insect borne dis-
eases.
Frosty weather kills flies, and so
abates fly borne plagues, such as
some epidemics of typhoid fever.
But sometimes the operation of
climatic factors is not so easily
understood.

The peak of the annual spread
of tertian malaria, for example,
comes before the warm weather
that is most favorable for mos-
quitoes. The malaria germ is
found to be better able to carry
on its mischief making in mod-

erately warm than in very warm
weather.

Professor W. J. Baerg of the
University of Arkansas, noted
among entomologists as the man
who has the nerve to let taran-
tulas, scorpions and centipedes bite
and sting him, detailed the results
of his first hand experiences.
A centipede bite is about as
painful as a bee sting, but no
more harmful. The same is true
of most tarantulas—and it is
usually hard to get a tarantula to
bite at all. The much smaller
black widow spider of the South
is equally reluctant to bite, but its
venom is much more wicked in its
effects.

FASTEST BOATS
TO CHASE LAKE
RUM RUNNERS

Flying Speed Vessels to Cut
Waters at 60 Miles
an Hour.

By United Press
BUFFALO, N. Y., Aug. 14.—Once
again rum runners, who ply their
trade along the border waters of
the Niagara frontier have been
dealt a smashing blow by the United
States Coast Guard.

The latest move by the Coast
Guard in its attempt to wipe out
the many bands of smugglers in
these waters has been to order a
number of flying speed boats, cap-
able of cutting the water at a speed
of sixty miles an hour, and which,
it is said, will outspeed the fastest
boats used by rum runners.

Runners Use Fast Boats
The new boats, some of which
will be fifty-two feet in length, and
the remainder thirty-four feet, will
be placed into service sometime this
month. They will see service on the
Niagara River and Lakes Erie and
Ontario.

The boats owned by rum runners
and which have been confiscated in
the past by the Coast Guard rarely
have been capable of a speed greater
than thirty or thirty-five miles per
hour.

However, since the customs offi-
cials have concentrated more this
year on wiping out contraband
smugglers, the latter have pur-
chased faster boats in which they
hoped to outspeed the revenue cut-
ters. That they succeeded to some
extent is evidenced by the fact that
new and speedier boats have been
ordered for coast guard duty.

It was pointed out by officials
that it will be next to an impossi-
bility for rum runners to purchase
boats that will exceed the speed of
the new rum chasers, due to the
fact that boats capable of such a
speed as sixty miles an hour or
better are not being built with any
view to large storage space. With-
out room to store cases of liquor the
boats are of no use to rum runners.

Now Boats Behind Boat
A number of men have been ar-
rested lately in rowboats, disguised
as fishermen, for attempting to
smuggle liquor over the border. They
had two or three cases attached to
their boat by means of a rope and
rowed them across.

Several escaped penalty by cut-
ting the rope and letting the cases
of liquor sink to the bottom upon
seeing a revenue cutter approach.

It is estimated that more than
1,000 cases of pre-war liquor and
9½ per cent Canadian ale are rest-
ing on the bottom of the Niagara
River alone. All these cases were
dumped over by rum runners to
avoid arrest.

Numerous Thefts During Night Re-
ported.

John Bogus, 1948 W. New York St.,

fice of the Wachtel Reduction Com-
pany, Southern Ave. Later he dis-
covered \$18 was missing.

Mrs. W. C. Woerner, 107 W. South-
ern Ave., told the police a thief took
a watch valued at \$65 from her
home. While Miss Mary L. McMor-
ris, 613 Spruce St., was away a thief
took a \$45 fur coat from her room.

John Rader, 741 Hough St., re-
ported a trumpet stolen from his
house. Mrs. A. C. Stoltz, 1940 Caro-
line Ave., reported fishing poles
valued at \$10 stolen.

PLAN TO HONOR
DEAD RADICALS

Memorial Arranged for
Sacco, Vanzetti.

By Times Special
WASHINGTON, Aug. 14.—On the
twenty-second of this month occurs
the first anniversary of the execu-
tion of Sacco and Vanzetti in
Charlestown Prison, Boston.

On the evening of this day a me-
morial meeting is to be held in
Steinert Hall, Boston, sponsored by
a group of professors and others
interested in the social significance
of the Sacco-Vanzetti case.

While the incident over which
feeling ran so high a year ago has
to a great extent passed out of
the public mind, a small group of
people has continued to study it
and attempt to obtain final proof
of the innocence of the two Italian
radicals.

Announcement of the meeting
says it will be held not only to re-
member what happened a year ago
but "to contribute to that study of
the case by which alone its deep
significance in the life of American
society can be made manifest and
its value to oncoming generations
realized."

The meeting is being sponsored
by Prof. Eliot Morison of Harvard,
Dr. Alice Hamilton of Harvard
Medical School, Mrs. Gertrude L.
Winslow, Miss Catherine Hunting-
ton, Creighton Hill, and Gardner
Jackson.

The speakers will be Edna St.
Vincent Millay, Arthur Davison
Pierce, Dr. Alexander Meiklejohn,
Robert Morse Lovett and Rev. Har-
old L. Stratton of the Pilgrim Con-
gregational Church of Worcester,
Mass.

START STRIKE VOTE

Trainmen Turn Down Pay
Tilt Offer.

By United Press
CHICAGO, Aug. 14.—Declining
proposals to arbitrate a new wage
dispute, 300,000 trainmen and con-
ductors of western railroads con-
vened sectional meetings in various
cities today to vote on a strike.

Members of the Brotherhood of
Railroad Trainmen and Order of
Railway Conductors have been seek-
ing a 7½ per cent increase in
wages. A committee of the brother-
hoods met a committee appointed
by the railroads here last week to
negotiate the proposal.

The managers' conference com-
mittee, representing the railroads,
offered the employees the desired in-
crease if they would agree to the
abolishing of rules restricting the
use of two locomotives to a train
and limiting the number of cars
which may be hauled by two loco-
motives. If this were not acceptable,
the managers offered as an alterna-
tive a 6½ per cent increase.

Here in 1917.

A man at fourteen! And fighting
in the World War!
That is the record of Brace
Beemer, 25, of 2807 N. Illinois St.,
a soldier in Battery E of the 150th
Field Artillery of the famous Rain-
bow Division during the last war.

Beemer is a member of the Vet-
erans of Foreign Wars and reported
today for duty during the twenty-
ninth annual national encampment
in Indianapolis Aug. 26 to Sept. 1.
Beemer enlisted in this city April
17, 1917, when he was fourteen
years old. He weighed 109 pounds
and was five feet seven and a half
inches tall.

He was mustered out of service
May 9, 1919, and weighed 135 and
was six feet one inch tall.

The lad fought beside men in
battles at Champagne, Chateau
Tierry, Verdun, Sedan, St. Mihiel,
Meuse-Arrage and Lorraine.

His memories of the war include
gas rounds, shrapnel cuts and the
accolade signed by President Wood-
row Wilson.

HOME BURNED;
NO HYDRANTS

Another Blaze Is Believed of
Incendiary Origin.

Because there were no hydrants
in the vicinity firemen were unable
to save the home of Mrs. Nettie
Morrow, 2312 Thornberry St., this
morning. It was destroyed, with loss
estimated at \$1,000. No one was at
home when the fire broke out about
7 a. m.

The Morrow house is in a sparsely
settled section of West Indianapolis
and it was necessary to carry water
from a well to the pumper, firemen
said.

They are investigating the possi-
ble incendiary origin of a \$350 fire
at the home of V. H. Gehlbach, 1427
Bellefontaine St., early today.
Neighbors aroused the family about
2:30 a. m., after a passing bakery
wagon driver had seen the flames
and turned in the alarm.

Gehlbach, his wife and son, Mar-
vin, were able to leave the upstairs
bedrooms by the front stairway,
which was smoke filled. The rear
stairway was the seat of the fire.

Late Monday the home of William
O'Neill, 701 Fuller Dr., was damaged
by fire by a gasoline stove explosion.
Mrs. Jessie O'Neill, wife of William
and mother of three small children,
was next door at the time and tried
to enter the burning building, think-
ing her baby, Mary, 3, was in the
house.

However, the child had accom-
panied her 8-year-old sister, Pat-
ricia, to the store and returned to
wonder at the fire and relieve her
frantic mother.

Theft Trail

Police who investigated a
burglary at N. Missouri St.,
found a perfect trail had been
left by the thieves carrying
away a sack of flour with a
hole in it. The white line led
to a vacant house at 421 W.
Fifteenth St. There police
found the broken sack under
the porch. They also found
that a truck had been driven
there to haul the other loot
away. This includes hams, ba-
con, twenty-two sacks of flour,
cigarets and thirty pairs of
men's silk hose. Total value
was \$87, Morris Talesnich, pro-
prietor of the place, declared.

WIDENING FAVORED

Sixteenth St. Project to Be
Pushed.

When the city plan commission
meets Monday it will be presented
a report by a special committee ap-
proving the project to widen Six-
teenth St. from Delaware St. to
the canal. This was the decision
of the committee Monday afternoon.

The project will include elimina-
tion of the jog at Sixteenth and
Illinois Sts. This will cost about
\$352,000, of which approximately
\$264,000 will be paid by the city and
the remainder by owners of abut-
ting property.

At present about \$200,000 is avail-
able from the commission and the
remainder will come from next
year's levy, it was said.

The plan also includes erection
of a new double-width bridge over
the canal. Members of the com-
mittee and the commission believe
widening and the new bridge will
open a west line of traffic from the
north section of the city to the
south with West St. being used.
This, it is said, will relieve other
main thoroughfares.
