

## MILLIONS PAID AS PROFITS TO RACKET KINGS

Organized Crime, Using  
Guns and Bombs, Nation's  
New 'Big Business.'

Editor's Note: This is the first of a series of eight daily articles by James P. Kirby, special writer for The Times and NFA Service, on the alarming growth of "racketeering" in Chicago, a trained investigator and author of textbooks on criminology, who personally investigated the conditions which he writes.

BY JAMES P. KIRBY  
Special NFA Service Writer  
CHICAGO, Sept. 11.—Racketeering now is Big Business.

"The Racket,"—organized graft, corruption and crime—has grown to proportions that seem magnified beyond imagination.

In Chicago alone—the birthplace of the "racket"—the receipts of these organized gangsters are from \$50,000,000 to \$75,000,000 annually, it conservatively is estimated.

In addition to garnering huge profits from bootlegging, gambling and vice, racketeers now either control or are active in fifty larger and 150 smaller lines of business and other activity in Chicago and collect an enormous tribute for protection from their own violence.

For years, the "racket," has been distinctively a Chicago institution. But it has been found such a profitable form of crime there that it is spreading to the other large cities of the Middle West.

### Invasion Other Cities

St. Louis, Detroit, Cleveland and Pittsburgh, heretofore complacent in their disdain of Chicago's terrorism, are awakening to find an invasion of racketeering with the accepted weapons—dynamite, stench bombs, the torch and machine guns.

It is much safer and more profitable to form rackets than it is to plan big mail or bank robberies.

"Dividends" so far have been paid with amazing regularity.

In Chicago, there is a large number of "mobs," as the gangs of racketeers are now called. At the head of each mob is an acknowledged and undisputed leader.

These leaders apparently have reached agreements to divide up the forms of graft and tribute and collections.

For instance, Al Capone, the outstanding racketeer, controls the beer trade and is said to direct all the rackets in the loop—Chicago's principal business section.

Other "mob" leaders have other districts and indulge in other forms of racketeering.

### Leaders are Shrewd

The rather frequent outbreaks of gang warfare generally can be traced to some violation or suspected violation of these agreements. The men at the head of the rackets are extremely shrewd and skillful, with a genius for organization.

Racket mobs in Chicago now control practically all the bootlegging, gambling and vice, but in addition have extended their domination to many forms of legitimate business. The stunt of the racket is to increase or keep up prices in any line of business and for this service (for which the public must pay) extort enormous sums from business men. Defiance of the racket generally brings violence.

This kind of racket started in the dry cleaning industry, with the public and the dry cleaners being taken for a "cleaning."

Next: Chicago murders and gang warfare.

## AL WILL GO TO MID-WEST AS CRUSADER

Seeks to Attract Vote That  
Swung to La Follette  
in 1924.

By THOMAS L. STOKES

United Press Staff Correspondent  
ALBANY, N. Y., Sept. 11.—Governor Alfred E. Smith has decided to go into the West and Northwest on his first campaign tour, somewhat in the role of a crusader, with an open bid for that numerous mixture of farm, liberal, labor, wet and foreign voters who rallied in such astonishing numbers about the banners of the late Senator Robert M. La Follette in 1924.

Democrats deserted the party in droves in the Northwest, leaving John W. Davis for La Follette.

The Democratic candidate has received reports that much of the La Follette vote will swing to him, Republicans who deserted Coolidge as well as the Democratic bolters.

Accordingly, he has determined to make a strong appeal with his farm relief program, his labor record, his water power policy and his prohibition modification stand issues which appeal to the various elements.

Former Senator Gilbert M. Hitchcock, Nebraska, told Smith last night:

"The situation in Nebraska is shaping up quite favorable to Governor Smith."

Polls taken through the State indicate that a large proportion of the La Follette vote, which was 100,000, will go to Smith, that the German vote which left the Democratic party in the war is coming back, and that the farmers are dissatisfied with Herbert Hoover's position on agricultural relief. The German vote makes up about 15 per cent of the total, he explained.
