

LINKS FUGITIVE AS ACCOMPLICE IN AUTO DEATH

Woman to Testify Before Grand Jury Today in Newcastle Case.

By United Press
NEWCASTLE, Ind., Sept. 11.—Homer Patterson, fugitive from Terre Haute, will be accused of aiding in the murder of Mrs. Myrtle Miller, 36, of Muncie, in evidence to be given the Henry County grand jury today, Sheriff Elmer Cannon has revealed.

Mrs. Irene Moyer, 24, Terre Haute, who repeatedly has accused Charles Beasley, 34, of the slaying, will testify before the jury today.

A new angle in her confession was revealed by Sheriff Cannon on Monday night, in which she admitted that Patterson struck Mrs. Miller with a hammer after Beasley had attacked her with his revolver.

The body, with the head badly battered, was found along the road near here, where Mrs. Moyer says both men placed it. In her latest confession she has denied robbery as the motive of the crime, but that Mrs. Miller was killed in fear that she might "squeal" on the guilty.

The silence Beasley has maintained since his capture in Terre Haute with Mrs. Moyer was broken Monday night, when he asked for an attorney. The court will not appoint counsel for him until after the grand jury has completed its work. Fifteen witnesses were heard by the jury Monday. Three indictments are expected.

REPORT PETTY THEFTS FROM HOUSES, AUTOS

Clothing, Silver, Furniture, Car Parts Stolen.

Prowlers were active in Indianapolis Monday. Nine petty thefts, in which household articles ranging from bed clothing to clocks were taken, were reported to police, and a tenth attempt to enter a home resulted in failure when the burglars were frightened.

Slashing a screen door at the home of Louise Graham, 1030 Fayette St., thieves took bed clothing. From the home of Sadie Mumford, 430 Massachusetts Ave., a prowler took silverware, clothing and dishes valued at \$20.

Furniture valued at more than \$100 was carted away from the home of Mrs. Nellie Scott, Negro, 1545 Reisner St. John Guy, 4152 Washington St., reported the theft of a suit from his car. A clock was stolen from the dash of the car of Marion A. Cooley, 934 N. Beville Ave.

Elmer Grayson, 704 S. New Jersey St., reported the theft of a license plate and a spare tire.

CAR BURNS ON ROAD

Chrysler Left by Owner Is Destroyed.

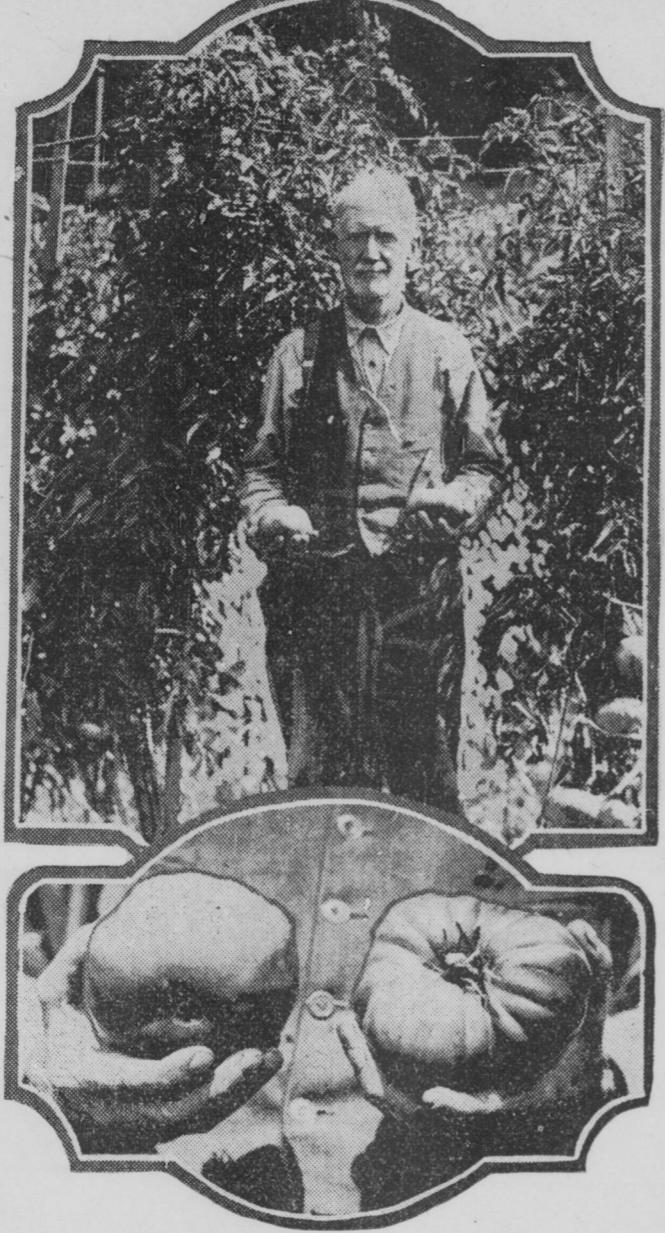

A Chrysler roadster, Indiana license 622-400, was destroyed by fire on National Road four miles east of Plainfield, Ind., early today. The marshal at Plainfield told Indianapolis police the driver got onto a bus at Five Points, deserted the burning car, and went to Plainfield.

There he got on an interurban car bound for Terre Haute. Records of the secretary show the car's license was issued to Adonis Poole, Rural Route 3, Greenwood, Ind.

JOHN RAU DEAD; HEAD OF GLASS INDUSTRY HERE

Began Work at 9, Became Leader in His Field of Endeavor.

Death claimed a pioneer in the glass industry when John Rau, 72, vice president and founder of the Fairmount Glass Works, passed suddenly at his home, 1504 Park Ave., at 9:45 Monday night.

Heart disease, with which Mr. Rau had been troubled for several years, caused his death. He returned a week ago from a vacation with his wife and other members of his family at Lake Wawasee, Monday, he was ordered to bed by his physician, Dr. O. S. Jaquith.

Mr. Rau retired from the presidency of the glass works three years ago, but since had been an active vice president. His son, John H. Rau, Jr., succeeded him as president.

Began Work at 9

Mr. Rau began work in a Louisville (Ky.) glass foundry at the age of 9, continuing there until he was 18. By night work and consistent effort he was able to surmount the deficiencies of his early education. Following employment in a Milwaukee glass factory from 1884 to 1885, Mr. Rau became manager of a new plant in Golden, Colo., where he remained for two years.

A year in a Massillon (Ohio) glass works, as glass blower, helped him to gain more practical experience.

In 1889, Mr. Rau formed a partnership with three other men and established the glass plant at Fairmount. Coming to Indianapolis in 1904, he and several associates built a large bottle manufacturing plant.

Held Many Patents

Mr. Rau, besides being identified with the executive angle of the glass business, held almost a score of patents, involving many phases of glass making. He built the first continuous tank ever used in the United States. The value of this experiment was demonstrated when, six years later, other glass men began to follow his example.

Many of the machines used in the Fairmount plant are Mr. Rau's inventions. His factory was the first to turn out machine-made bottles of five-gallon capacity.

Mr. Rau was president of the One-Piece Bi-Focal Lens Company and of the Twin-Sight Optical Company for a number of years, and at various times during his connection with the glass industry held almost every office in the Glass Blowers' Union. He was a member of Marion's Athletic Club.

Mr. Rau was married to Miss Alice Marsh, Louisville, in 1883. Mrs. Rau and three children survive him. They are: Charles D. Rau, 4653 Carrollton Ave.; John H. Rau Jr., 5207 N. New Jersey St., and Mrs. Kenneth K. Woolling, 2135 N. Meridian St. Funeral arrangements have not been completed.

Court Dedication Set

BRITAIN DETAILS STAND ON ARMS

Each State Must Judge for Self, League Told.

By United Press

GENEVA, Sept. 11.—Britain's attitude toward disarmament was discussed before the League of Nations assembly today by Lord Cушenden, British delegate.

He defended the Franco-British efforts to reach a naval agreement, as Aristide Briand did in behalf of France Monday.

"Disarmament is the predominating question in the present assembly," Lord Cушenden said. "Its importance cannot be overestimated. I appreciate the disappointment of Chancellor Mueller of Germany and others at the slow progress made, but I fear Herr Mueller doesn't appreciate the difficulties facing the preparatory disarmament commission."

"Resolutions can not produce disarmament. Only work along practical lines can do that. Each state has a right to judge for itself the level of armaments necessary for its security."

A standard tennis court is thirty-six feet wide.

The basis of treating sickness has not changed since Dr. Caldwell left Medical College in 1875, nor since he placed on the market the laxative prescription he had used in his practice, known to druggists and the public since 1892, as Dr. Caldwell's Syrup Pepsin.

Then, the treatment of constipation, biliousness, headaches, mental depression, indigestion, sour stomach and other indispositions that result from constipation was entirely by means of simple vegetable laxatives, herbs and roots. These are still the basis of Dr. Caldwell's Syrup Pepsin, which is a combination of senna and other mild laxative herbs, with pepsin.

The simpler the remedy for constipation, the safer for the child and for you, and the better for the general health of all. And as you can get results in a mild and safe way by using Dr. Caldwell's Syrup Pepsin, why take chances with strong drugs?

A bottle of Dr. Caldwell's Syrup Pepsin will last a family several months, and all can use it. It is good for the baby because pleasant to the taste, gentle in action, and given from narcotics. In proper dose, given in the directions, it is equally effective at all ages. Elderly people will find it especially ideal. All drug stores have the generous bottles.

We would be glad to have you prove at our expense how much Dr. Caldwell's Syrup Pepsin can mean to you and yours. Just write your name and address in the special

coupon you see at the end of this announcement, and send for a bottle to try. This complimentary bottle is forwarded, prepaid without charge of any kind.
