

# AIR MAIL IS UP 50 PER CENT IN RATE CUT WAKE

New Type of Plane Made  
Necessary: Routes Will  
Be Opened.

WASHINGTON, Sept. 13.—A 50 per cent increase in volume of United States airmail has resulted from the reduction in rates which took effect Aug. 1, according to Post-office Department officials here today.

The increase has been particularly heavy on the trans-continental haul, but the feeder lines also are profiting. The new rate is 5 cents for the first ounce.

The heavy mails have necessitated the development of a new type of plane carrying mail exclusively, instead of mail and passengers as heretofore.

Planes of this type, carrying 1,800 pounds of mail will be placed in operation between Chicago and San Francisco on Oct. 1.

Mails to Orient Booked  
Mails to the Orient are benefited by the fast trans-continental service which permits correspondents on the Atlantic seaboard to save two days in the transmission of letters intended for trans-Pacific steamers.

The heavy volume of trans-continental airmail indicates that considerable volume of Oriental mail now is moving by airplane on the first stage of its journey.

On the trans-Atlantic mails, the great potential saving in time will be derived from the contact of airplanes at sea with the regular steamer lines.

Such connections still are in an experimental stage, but their future practicability already definitely has been indicated.

Helps Southern Republics  
Countries south of the United States soon will come into the scope of international air-mail facilities.

The United States Postoffice Department already has awarded contracts for air-mail lines connecting New Orleans with Brownsville, Texas, and Laredo, Texas, both on the Mexican border; and also for a service between Dallas, Texas, and the Mexican border which would handle mails from Chicago and the Mississippi valley.

The Mexican government recently has purchased airplanes for air-mail service between Mexico City and border points, to connect with the American lines.

The planes have been shipped, but it is understood that there will be a delay of several months until Mexico has available adequately-trained pilots for the new service.

In any case air mail traffic between the leading cities of United States and Mexico is in prospect for the reasonably near future.

An air mail line now is being operated between Key West and Havana, with connections to interior cities of Cuba.

The Postoffice Department has awarded contracts for air mail services between Key West and Porto Rico, and between Key West and the Canal Zone.

## Moving Vincennes Airport

VINCENNES, Ind., Sept. 13.—Plans for moving the Government airport here to a site south of the city has been tentatively approved by John Bonforte, always extension superintendent of the Department of Commerce, who visited here this week.

The new tract, almost a square, is 2,066 feet long and 1,749 feet wide. It contains 83 acres. There are no obstructions of trees or wires near the field. The land is expected to be contracted for about \$800 a year with an option to buy.

## Gyroplane Hop Planned

LONDON, Sept. 13.—The Spanish inventor, De La Cierwa, will attempt the first crossing of the English Channel in an auto-gyroplane Tuesday, he announced today. The flight will be from Croydon to Paris.

## In the Air

CONDITIONS AT 9:30 A. M.  
(Compiled for The Times by Government Weather Observer J. H. Armstrong.)  
Donald McConnell, Government aeronautical observer.  
Southwest wind, 4 miles an hour.  
Barometric pressure, 30.06 at sea level; temperature, 71; ceiling, 5,000 feet; visibility, 6 miles.

## Baby's Skin Kept Clear

Children always seem to be getting some sort of skin trouble—a rash, chafing, or more serious eczema. Often the irritation itches, and the infant's scratching leads to infection. For such disorders, thousands of mothers have found that Resinol possesses almost startling powers of relief. Resinol Soap, too, for baby's daily bath. *At all druggists.*

Sample of each free. Address Resinol, Dept. 22, Baltimore Md.

# City Aviation Fans Fail to Answer Air Queries

Not One List Is Correct in  
Contest: Chance to Win  
Ticket Awards.

Not one correct list!  
Indianapolis aviation fans must brush up their memories if they are going to win the ticket prizes offered in The Times-Circle Theater "Lilac Time" aviation question contest.

Out of the scores of lists of answers submitted to the first set of questions printed in Monday's Times, not an aviation fan turned in the correct answer to Question No. 2: "Where was the first aviation meet held in this country?"

It was held in Squantum, Mass., but the answers named almost every air field in the country except the Bay State one.

So—there are no winners. Just to make it right, twenty pairs of tickets will be given away for the first twenty correct sets of answers to reach The Times office to the questions printed Tuesday. Look them over, if you haven't sent your list in, and get busy at once.

Remember, to win theater tickets, your answers must be correct as well as among the first in the office of this newspaper.

Today, in addition to a fresh set of questions, we also print the answers to the first five questions asked in the "Lilac Time" contest.

"Lilac Time" is First National Pictures, Inc., new starring vehicle for Colleen Moore. Taken from the stage play in which Jane Cowl achieved a national success, directed by George Fitzmaurice, "Lilac Time" is one of the most impressive stories ever screened with its aviation background.

The answers to the first questions are: 1—The Wright Brothers, 2—Squantum, Mass. 3—The Spirit of St. Louis. 4—Lieuts. Maitland and Hegenberger. 5—A monoplane has a single set of wings, a biplane two sets, one above the other.

The questions today:

1. Who first flew from North America to Europe in a plane?
2. From what field did Colonel Lindbergh take off for his trans-Atlantic flight?
3. What Americans first flew from the United States to Germany?
4. What Englishman won the first long-distance race held in this country?
5. How long was the course of that race?

Mail answers at once to The Times Lilac Time Editor.

NEW ORLEANS, La., Sept. 12.—Mrs. Anna Azella Morrell, 63, is an enthusiastic air commuter. Mrs. Morrell mother, of three children and the grandmother of five, disliked waiting on "slow trains" and spending hours in automobiles making the journey from her Sidel home to New Orleans.

As a time saver, she decided to buy an airplane and let her son, a trained pilot, handle the controls at least until she herself became proficient in the handling of the plane.

**THE NEW KONJOLA**

Member of Christian Workers of America, Inc., Says This Medicine Restored Her Health.

Everywhere in Indianapolis and nearby towns, men and women are highly indorsing and recommending this new Konjola medicine, which the Konjola Man is now introducing at Hook's drug store, Illinois and Washington streets, this city.

MRS. MARY KING  
—Photo by Northland Studio

Konjola is helping thousands of people who were never benefited by any medicine or treatment before. Just a few days ago, Mrs. Mary King, 601 1/2 Division street, this city, made the following statement. Mrs. King is a member of the Christian Workers of America, Inc., a faithful organization which is unselfishly rendering blessed help among hundreds of homes in this city.

"I wish to tell my many friends about the wonderful results I have obtained through the use of Konjola," said Mrs. King. "I am enjoying better health today than I have in a long time."

"I had neuritis all over my body and there were times when I could hardly move. The pains I suffered were terrible and quite often I thought I would be unable to stand them any longer. I was unable to do anything for relief and was steadily getting worse. I was also bothered considerably with night rising caused by weak kidneys. It was a common occurrence for me to get up many times during the night. This made me weak and rundown and it wasn't long until I felt bad all over. I suffered severe headaches all the time and seldom was free from these pains. I believe this was caused more or less by neuritis. I couldn't eat a thing that I wanted and my appetite was very poor. What I did eat always disagreed with me and after worrying a long time about my condition I finally realized I would have to do something for myself if I ever intended to get well."

"A friend of mine had been taking Konjola and she told me about the wonderful results she had obtained through the use of this medicine. So I made up my mind to see what this Konjola would do for me. I started on the treatment and today I am so improved that I am making this indorsement in the hope that I may be able to help other sufferers toward health. My neuritis is gone and my liver and kidneys are wonderfully improved. I am still taking Konjola and believe that in another week I will be entirely free of all kidney trouble. I haven't an ache or pain in my body and I can eat whatever I like without suffering afterward. I had been in a very weak condition when I started taking Konjola and I want to say right now that the results I received through the use of this medicine are wonderful and words could not begin to express my appreciation for the good I have obtained. I gladly give this testimonial and shall always strongly indorse Konjola to anyone who is in ill-health."

The Konjola Man is at Hook's drug store, Illinois and Washington streets, Indianapolis, where he is daily meeting the public and introducing and explaining the merits of this remedy. Konjola is sold in every Hook drug store in this section and by all the leading druggists throughout this section—Advertisement.

**Obey and Smile!**

Besides the regular restrictions, the new traffic rules prohibit all parking on the Circle; no left turns at the three intersections of Washington at Illinois, Meridian, and Pennsylvania Streets; angle parking on designated portions of Washington, Ohio and Georgia Streets; and the new pedestrian ordinance at the intersection of Washington with Illinois, Meridian and Pennsylvania Streets.

MY DEAR, I'm all HOT and BOTH-ered over the way these POLICEMen are making SUCH A FUSS over their old STREETS.

At this POINT, I'm all of a FLUTter—no PARKING on the CIRCLE—can you IMAGINE it?

You can park on OTHER streets, of COURSE, but I mean 4 A. M. is HON-ESTLY too EARLY to park one's CAR. I mean I ACTUALLY think it is.

Then those HECTIC corners where you CAN'T left-turn, or BACK up, or any-thing, PRACTICALLY.

I ALmost fell into SPASMS of nervous PROstration, my dear, until I remem-bered those two perfectly DARLing gar-ages, the Meridian and the Central Parking. I mean I REALLY did! It was a relief to drive into one. I mean it ACTUALLY was.

We, of course, are for these new rul-ings. They're going to help Indianapolis quit being a hick town, and frankly, brother, they're going to help our busi-ness—because we're located RIGHT!

**OUR SERVICE FEATURES**

Uniformed attendants at Columbia Club, Circle and Indiana—look for the name. . . Drive to either garage. An attendant takes you to your destination, then brings the car back and parks it. . . When you're ready, call in. An attendant brings it to you. . . Convenient location. Strictly fireproof. Courteous, capable and reliable attendants—all careful drivers! . . . Always open. . . Give up worrying over parking space, stickers, bent fenders and theft—park with us for convenience and safety.

**POLK began delivering Milk to the people of INDIANAPOLIS**

**BACK** in 1893—seven years before the dawn of the Twentieth Century, the Polk organization started in the milk business. They had no reputation, and mighty little money. But they did have a determination to give the people of Indianapolis better milk than they could possibly secure from any other source. It is the result of that same determination that has built and sustained the great Polk plants of today.

The Polk dairies today are managed by men who have grown up in the business, thoroughly trained in Polk's principles. They continue as always to set the standards for an industry. At Polk's the richest milk from the choicest herds is prepared with every scientific safeguard. No hospital could be more careful, more painstaking. The Polk wagon passes your home every morning. Telephone Cherry 7183.
