HOME LIFE OF  
FISHES STUDIED;  
TAG 500,000

U. S. Experts Make Close  
Investigation to Aid  
Industry.

BY HERBERT LITTLE  
United Press Staff Correspondent  
WASHINGTON, Sept. 14.—The  
Federal Government is investigating  
the home life of the fishes.

The Bureau of Fisheries has  
marked and tagged more than  
500,000 fishes of the important food  
varieties in the last few years, in  
an effort to aid the 200,000,000 fish-  
ing industry of the United States.

The purpose is to discover  
whether fish migrate. Determina-  
tion of this point will enable the  
fishermen more accurately to cast  
their nets and lines.

Stay at Home Fellows  
Evidence gathered so far indicates  
that the principal food fishes are  
stay-at-home fellows, officials said  
today.

Cod, haddock and mackerel  
tagged and released were recaptured  
in many cases only a few miles from  
the place of their first capture.

The tagging of salmon, the great  
sea product of the Pacific coast and  
Alaska, has revealed part of the life  
story of this most mysterious of  
fishes.

The salmon spawns in the upper  
parts of fresh water rivers, and at  
the age of a year goes down stream  
to the sea.

Disappears Into Depths  
It disappears into the ocean's  
depths for a period of two to five  
years. Where it stays no one knows.  
Salmon have never been caught far  
out in the ocean, but they must be  
there, for during the stage they have  
never been found near the shore.

When the salmon reaches sex  
maturity, it returns in great droves  
to the fresh-water rivers to climb  
waterfalls and cascades, then in the  
upper reaches to spawn and die.

The shad, important Atlantic food  
fish, makes a similar pilgrimage an-  
nually into the ocean depths.

20 YEARS AWFUL  
SUFFERING FADES;  
KONJOLA TRIUMPHS

Miraculous Work of New  
Medicine Is Described  
by Indianapolis  
Resident.

Konjola has proved itself to be a  
medicine of such exceptional merit  
that it is said no sufferer can afford  
not to give it a trial. In hundreds  
of cases the former sufferers re-  
port complete and permanent relief  
so that they have been able to give

up taking medicine entirely. Among  
the latest endorsements received by  
the Konjola Man at the Hook Drug  
Store, Illinois and Washington Sts.,  
this city, is one from Mrs. Stella  
Wendel, 1149 Perry Ave., who tells  
how Konjola relieved her suffering  
after twenty years of hopeless  
misery.

"After finding a medicine to re-  
lieve me of suffering of twenty  
years standing, I believe I owe it to  
that medicine to indorse it so that  
others may learn of its wonderful  
value," said Mrs. Wendel. "I know  
that Konjola is the only preparation  
that has helped me in all that time  
and I can truthfully indorse it as an  
honest medicine."

"I always suffered from nervous-  
ness, which made life anything but  
pleasant for me. It became so bad  
at times that I felt as if I was los-  
ing my mind. I had severe head-  
aches and as time went on they be-  
came almost unbearable. My stom-  
ach was in a very bad condition and  
I was unable to eat any food that I  
craved. As soon as I finished a meal  
the food soured and caused me to  
belch up a hot, sour liquid which  
burned my throat like fire. I be-  
came deathly sick at times and soon  
I wondered if I would be able to  
stand this misery any longer. My  
kidneys also caused me quite a bit of  
suffering. I had a severe pain  
across the small of my back and was  
forced to rise several times during  
the night due to the weakened con-  
dition of my bladder. I also had  
hot flashes at times."

"Konjola has been such a wonder-  
ful success in Indianapolis that I  
felt I owed it to myself to give this  
medicine a trial, so I went to the  
Konjola man for several bottles. I  
took it conscientiously, and although  
I am not completely well, I have no  
intention of discontinuing the treat-  
ment. It is a splendid medicine and  
I shall never be without it in my  
home. I have taken other remedies,  
but I want to say that Konjola has  
done more for me than all the others  
put together. I hope that my tes-  
timonial will be the means of other  
sufferers finding new health such as  
I have."

The Konjola Man is at the Hook  
Drug Store, Illinois and Washing-  
ton Sts., Indianapolis, where he is  
daily meeting the public and intro-  
ducing and explaining the merits of  
this medicine. Konjola is sold at  
every Hook store in this city and by  
all the leading druggists throughout  
this section.—Advertisement.
