

LESLIE HITCHES HOPE ON TO TAIL OF HOOVER KITE

Emphasizes Allegiance to Secretary's Views; Scores Dailey.

By Times Special
LOGANSPOUT, Ind., Oct. 12.—Resuming efforts to cement his candidacy to that of Herbert Hoover, Harry G. Leslie, Republican nominee for Governor, closed a tour of Cass County with an address here Thursday night.

Recognizing that his hope of election depends on Hoover's ability to pile up a large majority in the State, Leslie divided his time between a bitter personal attack on his opponent, Frank C. Dailey, and professions of allegiance to Hoover on questions of national rather than State interest.

"I stand with Hoover for the enforcement of the Constitution and all laws enacted pursuant thereto," Leslie added, predicting that the cabinet member would attain a majority of from 220,000 to 300,000 in Indiana.

Again he attacked Dailey for being a member of a law firm which has represented utilities before the public service commission.

"It would be bad business and against public policy to put this utility lawyer or any other of his stripe in the Governor's office where he would name the public service commissioners and the tax commissioners, and select judges where vacancies might occur," Leslie asserted. Frederick K. Landis, Logansport, who denounced in his primary campaign for the gubernatorial nomination and was defeated by Leslie in the convention, did not attend the meeting.

Landis persistently has refused to participate in the campaign.

SALVAGED SILVERWARE GIVEN TO CHARITIES

Fortune in Unclaimed Silver Taken From Garbage.

Organizations supported by the Community Fund will receive about 6,000 pieces of unclaimed silver from the city sanitary board.

The silverware will be pro-rated to charity organizations operating dining rooms, on the basis of the amount received from the fund.

"The board decided the Community Fund could make better use of the silverware than any one else. There is almost a truck load of unclaimed silver accumulated from the garbage collected by the city," said O. C. Ross, sanitary board president. Floyd Baber, garbage plant superintendent, has charge of the distribution.

PRESS LIQUOR CHARGES AGAINST YALE SENIORS

Arrested for Assault, Will Be Tried for Intoxication.

By United Press
CHAMBERSBURG, Pa., Oct. 12.—Two Yale seniors, convicted Thursday of simple assault, and acquitted of charges of assault with intent to rob, and impersonating an officer, today faced additional charges.

The students, Alexander Knapp of Baltimore, and Sydney R. Prince, Jr., of Washington, were arrested on suspicion that they tried to hold up a grocer.

They said they were intoxicated at the time, and thinking the man they held up was a run runner, stopped him to buy some liquor.

Prince will have to stand trial for driving while intoxicated, and Knapp for allowing an intoxicated person to drive his car.

FAVORS TAXING AREAS OVER BARRETT LAW

Accounts Board Head Advocates Change After Survey

By Times Special
MICHIGAN CITY, Ind., Oct. 12.—Creation of separate taxing districts to take the place of the

present Barrett law relating to street improvements in cities was advocated by Lawrence F. Orr, State board of accounts head in an address before the Rotary club here. Orr said his recommendation for a change followed study of data obtained in a survey of conditions under the Barrett law by the accounts board. He said use of auto-

mobiles has increased tremendously since the law was enacted, and that today street improvements are of more benefit to the public than to the owner of property affected.

Use Biggest Power Belt
By Times Special
OAKLAND, Cal., Oct. 12.—Possibly the largest power belt in the

world has been constructed in this city. It is 1,020 feet long, 42 inches wide and contains 10,000 pounds of rubber and 9,000 pounds of cotton fabric in eight piles. It is valued at close to \$9,000.

Basic Foods

The taste of food is no guide to its final reaction in the body. The sourest lemons, grapefruit or oranges prevent acidosis, the bread which tastes neither acid or alkaline is one of the most potent factors in producing a serious acid condition.

A list of the acid and alkaline producing foods can be found in the booklet "Eat Wisely and Keep Well." This booklet is put out by the Russet management and may be had for the asking either at lunch or dinner in the evening.
