Whatever happens in 1928
YOU'RE THERE WITH A CROSLEY
"THE SHOWBOX"

Master of the Air

Selectivity
Tone
Quality
Volume

A completely shielded, genuine neutrodyne, with three stages of frequency amplification, detector and two stages of audio.

The last stage utilizes two tubes and two transformers in the famous "push-pull" hook-up, which produces immense volume without distortion.

\$137
Without Tubes
