

# HOOVER GUIDE TO PROSPERITY, FORD ASSERTS

Only Man Who Can Lead  
Nation to New Wealth,  
Says Motor Magnate.

NEW YORK, Nov. 2.—Henry Ford believes Herbert Hoover alone can guide this country to new prosperity. For this reason and not because Hoover is a Republican, Ford is backing him for the presidency, he said today.

In an interview copyright by Dow Jones & Co., Ford said:

"It is not because Mr. Hoover is a Republican that I support him. If he had nothing but party qualities, he would not interest me as he does.

"From my acquaintance with him I believe that his background and abilities and vision especially fit him for these very special times in which we live.

"It is going to take more than mere political experience to pilot this country in the future. Government can always be a hindrance to progress and often it can be a help, but it is never a help unless it is guided by a man who knows which way progress is going and what its elements are.

"No prosperity is possible unless the country is sober. Our present high qualities of production and high rate of wages—the highest in the world—are made possible by the sobriety of the American workman.

"It is almost a mathematical certainty in my mind that if liquor comes back there would be an unavoidable decrease in wages, because liquor and prosperity never go together."

## She's a Bright Girl

Bright colors are doing their share toward the glorification of the American girl this fall. Sportswomen have adopted a new medium of brightness that has the advantage of welcome warmth—the big woolen scarf, in checks, stripes or geometric designs. Frances Stevens, member of a Broadway musical show, displays one here.

## WOMAN VISITS GORILLA HAVEN

Explorer Akeley's Widow  
Reports to King.

By NEA Service  
BRUSSELS, Belgium, Nov. 2.—Mrs. Mary Jobe Akeley, personally has submitted to King Albert a final report of the scientific mission in the gorilla sanctuary of the Parc National Albert in the Belgian Congo. She was accompanied by Dr. J. M. Dorscheidt of the Congo Museum of Tervueren.

This was the second report made by Mrs. Akeley since the death of her husband, and covered primarily recommendations as to way and means of preserving this interesting primate in his natural habitat. It also included necessary data to complete maps of the volcanic region north of Lake Kivu and information concerning weather conditions there and the local food supply.

The Cross of the Knight of the Order of the Crown, has been conferred upon Mrs. Akeley in recognition of her successful conclusion of Mr. Akeley's work.
