

GIANT CIRCUS DEAL IS DENIED BY PRESIDENT

Corporation Head at Peru
Says Other Shows Will
Not Be Bought.

By Times Special
PERU, Ind., Nov. 2.—Jerry Muggan, president of the American Circus corporation, today denied that a movement is under way to consolidate three large circuses with the already impressive roster that include the Hagenback-Wallace, John Robinson and Sello-Floto shows.

A rumor has gained wide circulation in the show world in the last two weeks that the corporation is negotiating for Miller Bros. 101 Ranch, the Robbins Bros. and the Sparks circuses.

A merger of the immense interests of these three independent shows with the corporation circuses would make Indiana the undisputed circus headquarters of the universe, with half a hundred elephants, miles of canvas, scores of specially constructed railroad cars, and a combined wild animal menagerie rivaling that of a wide area of Africa, under management of one central office—a business venture heretofore peculiar to chain stores and theatrical companies.

Muggan refused to comment on the report, except to state that "there is absolutely nothing to it." A statement in the circus section of the current issue of the Billboard, theatrical digest and review of the show world, suggests, however, that "of course, the A. C. C. president and other principals involved will deny everything until the deal, if any, goes through."

With arrival of the Sello-Floto circus, last of the corporation shows to return to winter quarters, in Peru Nov. 9, the colossal task of folding three thirty-car circuses

Campaign Log

Governor Alfred E. Smith was to parade up Broadway today. He is scheduled to speak at the Academy of Music, in Brooklyn, tonight, when he will deal with the state Democratic ticket and state issues.

Herbert Hoover left Washington for his home in Palo Alto, Cal. He was to stop in Louisville for a short appeal to Kentucky voters. He will speak from the courthouse steps, after being welcomed officially by Governor Sampson.

Charles Evans Hughes, former secretary of state, speaking in Brooklyn last night, said Smith's plan for modifying prohibition laws would "make matters much worse." He indicated that he suspected Smith of "having delusions of grandeur."

for the winter confronts the workers who remain on the scene throughout the year.

The vacating of the old West Baden quarters by the John Robinson aggregation to take up its permanent winter residence with the two other units will tax the Peru quarters to capacity and embrace a collection of circus stock and equipment surpassing even that of the huge Ringling Bros.-Barnum and Bailey circus, now wintering at Sarasota, Fla.

The American Circus corporation had its beginning with the acquisition of the John Robinson show in 1916. Three years later, the Hagenback-Wallace circus was purchased and in 1920 the Sello-Floto show was added to the enterprise.

The three units have operated separately since then, each maintaining its own complete road organization and playing territory arranged through the central office.

The personnel of all three circuses includes a large percentage of Hoosiers, some of whom will continue to work during the winter months on vaudeville circuits. Others will return to homes throughout the state for a rest before the opening of the 1929 season early next April.

CURTIS MAKES LAST BID FOR FARMING VOTE

Speaks in Moberly, Mo.,
Then to Home State;
No Hecklers.

DES MOINES, Ia., Nov. 2.—Senator Charles Curtis, Republican nominee for Vice-President, neared the end of his last bid for the farm vote today.

He left here for Moberly, Mo., where he will speak tonight. From there he goes to his home state for two last speeches before election, in Wichita and Topeka.

Speaking Thursday night before 4,000 persons here, Senator Curtis declared farmers may expect no relief if the Democratic ticket is elected.

"Since the war, the sympathy of the Republicans has been with the farmer and some form of relief will be found if Hoover goes to the White House," Curtis said.

Curtis' speech was not interrupted here as it was on his last visit to this state. In Spencer, Ia., a heckler drew Curtis' fire and was told "you're to damned dumb to understand."

We've Amazed Women with this Slo-baked bread

Thousands of housewives,
many of them actually neighbors of yours,
are changing to it every single day!
The first taste will show you why

A REMARKABLE bread!
A bread that quickly wins every housewife who tastes it.

A bread that keeps its original freshness for days . . . that slices quickly and easily . . . that makes marvelously dainty sandwiches.

A bread that was comparatively unknown a short time ago . . . and yet today is the favorite of America's most particular women.

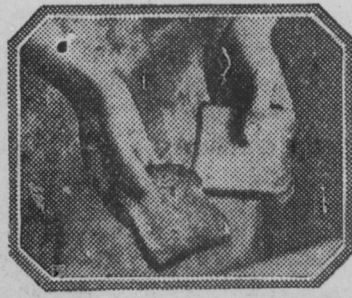

Madam, that's the story of Wonder Bread, summed up in three short paragraphs.

It is a bread that will surely win you and your family . . . just as it has won thousands and thousands of others everywhere.

Two big reasons

Two factors alone are responsible for Wonder Bread's remarkable success.
First of all, the ingredients

Please make this amazing 3-minute test
Take a slice of Wonder Bread and a slice of any ordinary bread. Toast each slice for 3 minutes. . . ½ minutes on each side. The Wonder toast will be browned evenly. The other will be partially browned. This simple test is the supreme proof according to experts.

we use. Specially selected flour, made from the nutritious heart of the wheat berry. Pasteurized milk. Fresh, sweet shortening. Even our salt is 99.5% pure!

And second, our unique method of baking. Every loaf of Wonder Bread is slo-baked by a special process . . . baked in scientifically heated ovens . . . longer than almost any bread you can buy.

This slow, careful baking is the secret of its delicate flavor . . . its delightful freshness . . . its high food value.

It is the reason, too, for the fine close texture . . . and the quick easy way that it slices.

Easy to prove
what we say!

It takes only a single loaf to prove every

WONDER BREAD

IT'S SLO-BAKED

"WONDER BREAD, PLEASE," say thousands of women every day. It has been surprising even to us . . . they've taken to it so quickly.

HERE'S a suggestion. Buy a loaf of your regular bread and a loaf of Wonder Bread . . . then just take them home and see which is best!

claim we make in this advertisement.

So please order a loaf tomorrow . . . simply as a test if you wish . . . compare it carefully with the bread you've been using in the past . . . and then make your own decision.

Just this one word of warning. Don't ever expect to find Wonder Bread flavor in ordinary breads. Only bread that's slo-baked in our own special way offers you the advantages described above.

So let your grocer distinctly understand that you want the genuine Wonder Bread. Your family will thank you for it . . . trouble. It is fresh twice every day!
