

## FINISH TUNNEL, 8 MILES LONG

Longest Railway Bore in  
U. S. to Open Dec. 28.

By Times Special  
NEW YORK, Nov. 16.—The longest railway tunnel in America, an eight-mile bore through the Cascade range, 100 miles east of Seattle, Wash., will be ready for train operation on Dec. 28, C. O. Jenks, vice-president of the Great Northern Railway, announced today.

Arrangements are being made to observe the occasion, he said. President Coolidge pressed the key that "holed through" the pioneer headings on May 1.

The railway's entire route through the Cascades, comprising about seventy-five miles of main-line trackage, will be changed from steam to electric operation on the same date.

The tunnel cost about \$14,000,000, and including electrification and other improvements entailed the expenditure of about \$35,000,000.

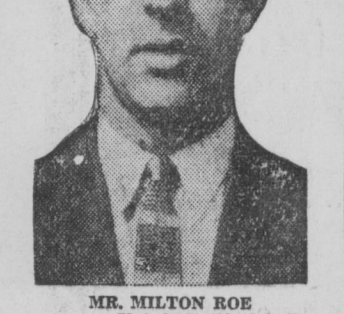

The Cascade tunnel lifts the American record from the Moffatt tunnel in Colorado, six miles long, and is exceeded by only four tunnels in the world—the Simplon, St. Gothard, Loetschberg and Mount Cenis tunnels in the Alps.

The first establishment of lace manufacture in England is said to be due to some refugees from Flanders, who settled in the village of Cranfield, west of the county of Bedford, adjoining Buckinghamshire.

FREE OF STOMACH  
TROUBLES SINCE  
HE GOT KONJOLA

Says New Medicine Is  
First to Give Him  
Lasting Relief.

It is an acknowledged fact that constipation leads to over forty other serious diseases. Constipation tires you out, saps your energy, causes pimply skin, bad breath, headaches, dulls your brain and causes awful stomach disorders.

MR. MILTON ROE

Photo by Northland Studio  
It will weaken your entire system. You can see that it is necessary to drive away constipation, and Konjola, the new medicine, has proved itself a compound that is able to do just such a thing—rid your body of poisons and restores the inner-system to normal action. Reports from former sufferers are received almost daily by the Konjola Man at the Hook drug store, Illinois and Washington streets, Indianapolis, where crowds are calling daily to find out for themselves about this remarkable remedy.

Just the other day Mr. Milton Roe, living at 1115 North Dearborn street, this city, made the following statement to the Konjola man:

"Konjola is the first medicine I have found to end my stomach trouble and give me lasting relief from the stomach miseries I had been suffering," said Mr. Roe. "Hardly a day went by that I didn't suffer some kind of pain and I was beginning to believe I would have to go through the rest of my life with that half-sick feeling hanging over me all the time."

"The worst thing about my case was constipation. I had taken so many different kinds of laxative tablets that I honestly believe they did me more harm than good, because I noticed, from time to time, that I had to increase the dosage and there was always more of a strain in order to get proper elimination. Sometimes I had such headaches that I thought my head would burst and I was often subject to dizzy spells. A dull, sluggish feeling came over my whole body and I always felt tired and worn-out. My stomach, too, caused me a lot of trouble. I had a good appetite, but my food never seemed to do me any good. In fact, it would form like a hard knot in my stomach and sour and ferment, until my whole system was bloated with gas. Sharp pains would strike me in my sides and sometimes they were so severe they would take my breath away."

"I finally made up my mind to give Konjola a try. After taking only one bottle I could notice a difference and within a few days more there seemed to be new feelings of health creep over my whole system. Altogether, I have taken three bottles of Konjola and the relief it gave me is amazing. My bowels move regularly without the aid of laxatives at all and I have not had a dizzy spell since taking the second bottle of this medicine. This medicine gave me relief from my stomach miseries almost at once. That heavy lump in my stomach disappeared and now my digestion is perfect. I do not have those sharp pains in my side and I can sleep all night through without waking up once. Konjola has certainly meant much to me and I will gladly tell others about it."

The Konjola Man is at Hook's drug store, Illinois and Washington streets, Indianapolis, where he is daily meeting the public and introducing and explaining the merits of this remedy. Konjola is now sold in all Hook stores and by all the leading druggists throughout this section.—Advertisement.

## M'Adoo Takes Up Flying

William Gibbs McAdoo Jr., son of the former secretary of the treasury, has just purchased an airport at Culver City, Cal., for commercial flying. He is shown here, left, with A. E. McManus Jr., wartime ace, who is associated with him in the venture. Notice the strong resemblance between young McAdoo and his father.

## ONE LOOK AT VESTRIS ENOUGH

City Lad Almost Signed on  
Ship in 1923.

The sinking of the Vestris in the Atlantic Monday confirmed some suspicions planted in the mind of an Indianapolis young man when he decided not to take a job on the ship after looking it over in 1923, it was learned today.

Herbert Stewart, 24, of 3231 McPherson avenue, law student and youthful globe-trotter said he wanted to get to Rio de Janeiro to visit friends in 1923 and decided to work for his passage. He learned the Vestris was in New York harbor and went on board. He was offered a job as ordinary seaman or as a bell boy.

"I decided to look the boat over before I signed anything and spent several hours on board, eating two meals with the crew. I went all over the ship. The year before I had been in a terrible storm on the Pacific

## British Editor on Coast

Among the British journalists visiting America in the interests of international peace, according to the plan of the Carnegie Foundation was Ralph D. Blumenfeld of the London Daily Express. Here he is shown in Hollywood, with Wilma Banky and Charles Chaplin on his right, and Ernest Lubitsch, producer, at his left.

and I got to thinking about what would happen to that ship if it got into the same kind of a blow.

"That, with the fact that the crew slept in the 'glory hole,' about the same distance below the highest deck as a sub-basement would be below the top of a four-story building, and that the meals were terrible, decided me. I walked off the ship

## CALLS REVOLT LATE

State G. O. P. Not Bothered  
by Coffin Quarrel.

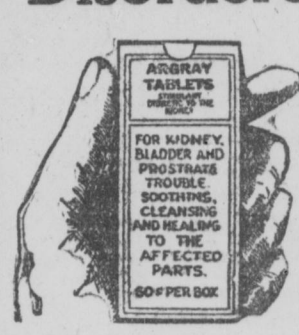

The smoldering revolt of Marion county Republicans against George V. Coffin, seventh district Republican chairman, has been given no cognizance by the Republican state central committee.

Coffin's rule, it should have been expressed in the primary to prevent his election, Eliza O. Rogers, state chairman, said today.

"Any move against Rogers would be coming late," Rogers said. "If the people of Marion county didn't want him as district chairman, the primary was their chance to act."

Tobacco seeds are so minute that a thimbleful will furnish enough plants for an acre of ground.

## Disordered Kidneys

C. W. Romine, 125 N. Sheffield Ave., Indianapolis, Ind., railroad conductor, says: "I suffered a kidney disorder for several years due to the daily jar of riding on a train. I was continually getting up nights due to bladder irritation. I was unable to rest at night until I used ARGRAY tablets. The first tablet soothed the irritated parts. After taking six or seven bottles I am completely relieved of all kidney disorders. I no longer have those dreadful rheumatic pains. I now sleep peacefully all night."
