Probe Activities of County Justices of Peace.

Investigation of activities of Marion county justices of the peace was started Friday by grand jury following reports that local justices

were fining persons arrested in other counties for alleged law violations. It was understood the jury received information that a man was arrested in Jackson county recently by two men who said they were deputy state fish and game wardens. According to information obtained, the alleged law violator was brought from there to this county and a justice fined him \$19.50.

Justice O. P. Bebinger of Washington township already is under indictment in criminal court on a bribery violation alleged to have been committed a year ago.
