

LIBERTY PLEA FOR MOONEY IS NATIONAL ISSUE

Pardon Petitions Flood
Office of Governor; in
Jail 12 Years.

BY MAX STEERN

SAN FRANCISCO, Nov. 19.—The Mooney-Billings case has become a nation-wide issue with the drive begun from New York by the American Civil Liberties Union for an immediate pardon for the pair.

"Everybody who has examined the evidence in the light of perjury in the trial has agreed that these men are innocent," says a letter to Governor C. C. Young from the union.

"Interests" Blamed

"But they remain in prison because powerful interests in California oppose their release."

Formal pardon petitions made by Frank P. Walsh, Mooney's attorney, are before Young, together with evidence so exhaustive that the papers weigh fifty pounds.

The California Federation of Labor, San Francisco Labor Council and 126 independent unions have passed strong resolutions demanding pardon. Judge Franklin P. Griffin, who sat at their trial, all living Mooney jurors save one, the president district attorney, captain of detectives Duncan Matheson, who handled the case, the Hearst and Scripps-Howard papers and hundreds of prominent Californians have made similar appeals.

In Prison 12 Years

Tom Mooney and Warren Billings have been twelve years in prison. In mid-afternoon of July 22, 1916, an explosion occurred in a crowd watching the preparedness parade in San Francisco, killing twenty and wounding many more. Mooney was a radical labor agitator and young Billings was his understudy.

Mooney and Billings were arrested, tried, convicted and sentenced to hang. The state's chief witness was one Frank Oxman, "Honest cattlemen," who identified Mooney and Billings as men he saw planting a bomb in the side-walk crowd.

Oxman, arrested later for perjury, was found to have been on a railway station at Woodland 100 miles away when the bomb went off.

ELDERLY MAN FREED FROM RHEUMATISM

Bloating and stomach pains were also relieved. Tell now.

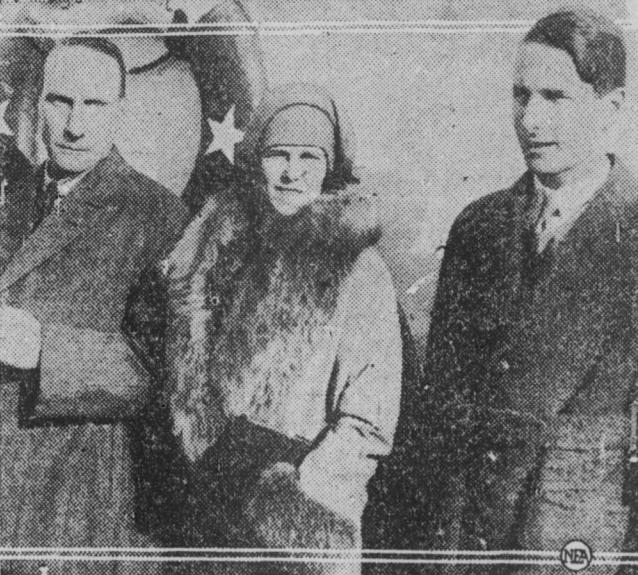

Elderly people whose lives are burdened by rheumatism, backache, or stomach distress, will read with interest a letter recently received from F. L. Pratt, 72 years of age, 601 Whitman St., Rockford, Ill. He writes:

"I was hopelessly sick for five long years with stomach trouble and rheumatism. The rheumatism in my shoulder gave me intense pain. Whenever I ate anything, gas would form, accompanied by severe intestinal cramps. Dizziness would attack me so frequently that work became almost impossible. I was weak and tired all the time, rolled and tossed all night, and got up more tired than when I went to bed. Recently I started taking Viuna. Already my rheumatism is gone and the dizzy spells have entirely ceased. The gas trouble is nearly gone and my stomach pains have stopped. I am eating well as I could ten years ago. It seems hard to believe, but it is true, every word of it."

Viuna acts promptly on sluggish bowels, lame liver and weak kidneys. It purifies the blood, clears the skin, restores appetite and digestion, and brings new strength and energy to the whole body. Take a bottle of Viuna, your money will be refunded. \$1 at druggists, or mailed postpaid by Iceland Medicine Co., Indianapolis, Ind.

'Flying Infante' Arrives

His Royal Highness, Infante Alfonso of Spain (left) is shown upon his arrival in America with his wife, the Princess Beatrix, and their son, Prince Alvaro. A royal air fan, the prince has come chiefly to look over American aviation activities while the princess, who is greatly interested in gardening and farm questions, says she wants to see one of the big American chicken farms. They posed for their pictures on the S. S. Majestic.

MANY IN STATE DIE OF HEART DISEASE

Kills More Than Any Other
Two Maladies; Nephritis
Is Second.

Heart diseases killed more Hoosiers during 1927 than any other two afflictions, according to statistics released today by the department of commerce at Washington.

There were 218 deaths from this cause for every 100,000 population, the total number during the year being 6,689. Nephritis was second in fatalities, with a total of 3,521.

Then followed, in the order named, cancer and malignant tumors, tuberculosis, accidents, congenital malformations, and diseases of early infancy.

Two hundred homicides and 488 suicides are recorded.

Total death rate for the state decreased to 1,196 for 1927, as compared with 1,281 for each 100,000 population in 1926. The department accounts for these decreases by the drop in influenza, 55 to 29 for each 100,000; pneumonia, 96 to 76; measles, 14 to 2; diarrhea and enteritis, under 2 years, 28 to 20; tuberculosis, 83 to 75; whooping-cough, 13 to 6, and nephritis, 16 to 11.

Increases in the 1927 death rates were from heart disease, 211 to 218.

ACES DEATH SECOND TIME

Dreyfus Rhoades Guilty as
Officer's Slayer.

By Times Special
PRINCETON, Ind., Nov. 19.—For the second time in two years, Dreyfus Rhoades today faces death in the electric chair.

A jury in Gibson circuit court here early Sunday returned a verdict of guilty against Rhoades on a charge of murdering Simon Carle, Vincennes policeman, April 1, 1926, shot down when he attempted to arrest Rhoades and Albert King, accused of passing unsigned bank notes.

King, serving a life term in the Indiana state prison for his part in the slaying, was a witness in the trial of Rhoades.

Shortly after the slaying, Rhoades entered a plea of guilty and was sentenced to die. Before removal to the state prison for execution, the Indiana supreme court granted a new trial on the ground that a death sentence had been imposed without a jury hearing.

Rhoades escaped from the Knox county jail at Vincennes while awaiting the next move in his case, and was at liberty a year, having been recaptured last September in Colorado.

WAR ON PROPAGANDA

Teachers Join to Block Misuse of Schools.

WASHINGTON, Nov. 19.—More than 70 well-known teachers and publicists have banded to keep propaganda, particularly utilites propaganda, out of the public schools, it was announced here today.

The committee is to be known as the "Save Our Schools Committee." Its chairman is Bishop Frances J. McConnell, of New York. Dr. John Dewey of Columbia university is vice-chairman.

Dr. J. W. Crabtree of the National Education Association announced today that the association's own committee to study circulation of propaganda in schools will begin work soon. Dean H. L. Smith, school of education, Indiana university, is the Hoosier representative.

BROKEN SLEEP

Stephen Gray, 2162 N. Illinois St., Indianapolis, Ind., says: "I was unable to sleep or rest due to a kidney and bladder weakness. I was compelled to get up several times each night. I had cutting pains across my back that were driving me mad until I began to take Argray tablets. I received relief from the first dose. Continuing the treatment for several weeks the rheumatic pains and kidney trouble disappeared. I now feel twenty years younger, as I sleep all night without being disturbed."

ARE YOU A "TIPSTER'S LILY"

The appearance of this Public Service Message in these columns is evidence that this publication subscribes wholeheartedly to the principles of the Better Business Bureau, and cooperates with the Bureau in protecting you . . . even to the extent of refusing to accept the advertising of firms whose advertising and sales policies are proved to be contrary to public interest.

With refinements in his methods of swindling, the financial "shark" has refined his slang. Instead of "Suckers," because they suck in without much question any attractive offering placed before them, he now calls them "Lilies," because their undefined innocence makes them "easy picking." And so if you are innocently following the financial advice of a "Tipster" you may be a "Tipster's Lily."

It has been estimated that 15,000,000 people in the United States are periodical recipients of "tipster sheets," publications in various forms of market letters or financial sheets, mailed out by so-called brokers or financial advisory services for the purpose of selling to the public for dollars some "pet" security which they have purchased for cents.

These "tipster sheets" appear in the guise of unbiased and reputable publications. The propaganda concerning their own "pet stocks" appears among the list of well-known and dividend paying securities discussed. One such publication goes unsolicited and without charge to a weekly mailing list of 600,000 at a cost of \$36,000 for stamps alone. The Better Business Bureau gives you a "tip" that the public, who purchase these stocks, pay for the cost of printing, mailing and the usual follow-up telegrams and long distance telephone calls.

"Tipster sheets" depend for their success, and they have had success, on the inherent desire of the investor to make easy money and get rich quick. They do not merit public confidence. They should not be confused with reputable financial publications or financial services.

The Better Business Bureau is able to separate the good from the bad. Call upon us.
