

SUSPECT HELD IN CHICAGO AS OMAHA FIEND

Negro Suspect Is Beaten
Insensible by Fireman
in Home.

By United Press
CHICAGO, Nov. 22.—A mulatto, who appeared to answer the description of the Omaha ax slayer, was held under guard in a hospital today, awaiting arrival of Omaha detectives.

The suspect, who said his name is Harry Gonsa, was captured Wednesday by Alfred Samuelson, a fireman, after a battle in which the fireman beat the mulatto insensible with the Negro's ax.

Gonsa was questioned three hours Wednesday night and early today by Captain James Doherty of the Cragin police station.

Answers Are Evasive
The suspect's answers were evasive, Doherty said. Gonsa admitted he had been in Omaha, but said he left there last June.

Doherty notified Omaha police that the man was being held. Two detectives are being sent to question the suspect, Omaha police messaged.

Omaha has been terrorized all week by a mysterious ax murderer, who killed three persons there and wounded two more.

Samuelson awoke early Wednesday to find a flashlight playing in his face. He saw the mulatto with a hand ax upraised.

The mulatto demanded money. The voices awoke Mrs. Samuelson, whose first thoughts were for the two Samuelson children, Lawrence, 9, and Frank 3. The intruder assured her they had not been harmed.

The fireman directed the mulatto to \$15 in a drawer, which the intruder took and departed.

Burglar Is Beaten
Samuelson, deciding to call the police, stepped out the back door and saw the burglar crouching in a shadow.

When Samuelson advanced, the ax man drew the hand ax from a holster and struck at Samuelson. The blow glanced from the fireman's shoulder. The two clinched and Samuelson seized the ax from the mulatto.

He beat the Negro until he fell unconscious, with wounds in the head and neck.

The Glendale yards of the St. Paul railroad are within a block and a half of the Samuelson home and freight trains from Omaha slow down there.

LARGE CROWDS HEAR
NAVY BAND CONCERTS
Thousands of Orphans Guests at
Wednesday Program.

Large crowds heard the United States Navy band, which gave concerts Wednesday afternoon and night at Cadle tabernacle under auspices of the police and firemen's emergency fund.

Mayor L. Ert Slack introduced the musicians and Lieutenant Charles Bentler, director of the band. In the afternoon several thousand orphans and persons from local charitable institutions were guests.

In the evening carriers of local newspapers were guests.

Railroad Men, Others.

A five-day visit to Indianapolis beginning Monday will be made by Instruction Car 1, of the American Red Cross, first aid service, William Fortune, chairman of the local chapter, announced today.

This car is travelling over the Big Four lines and making stops at the principal cities en route to give instruction in first aid to railroad men, employees of stores and factories, and police and fire departments.

PONDERS FLOOD TAX
Superior Judge Joseph M. Milner will rule Friday on a test case to determine whether assessments for flood prevention may come under the Barrett law provision of paying for improvements over a ten-year period.

Patrick Ward of Cartersburg, owner of property at Tenth and Brook streets, which has been assessed, filed suit. Ward, in his complaint, asks that Clyde Robinson, county treasurer, be compelled to prepare an agreement providing for payment of the assessment under Barrett law procedure.

A CLEAR COMPLEXION
Ruddy cheeks—sparkling eyes—most women can have. Dr. E. M. Edwards for 20 years treated scores of women for their liver and bowel ailments. During these years he gave his patients a substitute for calomel made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. Know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system. If you have a pale face, yellow look, dull eyes, pimples, coated tongue, head-aches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results. Thousands of women and men take Dr. Edwards' Olive Tablets—now and then to keep fit. 15c, 30c and 60c.—Advertisement.

FORD BELIEVES IN THEORY OF REINCARNATION

Geniuses of Today Called
'Old,' Experienced Souls'
by Motor King.

By Times Special
NEW YORK, Nov. 22.—Henry Ford believes firmly both in thought-transference and the theory of reincarnation.

He believes that reincarnation accounts for the world's great inventors, industrialists, philosophers, and geniuses in all fields. "They are old and experienced souls," he explains.

This psychic side of the automobile magnate is revealed in a verbatim report of a conversation between Ford and Ralph Waldo Trine, the philosopher, published in the December issue of McClure's Magazine.

Trine, according to the article, asked the manufacturer for his explanation of a genius, or "a man who seems to have an aptitude or a sense perception different from that of the ordinary man."

Experience Stored Up
"That is experience," answered Ford. "Some seem to think that it is a gift or talent, but it is the fruit of long experience in many lives. Perhaps I ought to explain that I believe we are reincarnated. You and I, we are reincarnate over and over."

"We live many lives and store up much experience. Some are older souls than others, and so they know more. It may seem to be an intuitive gift, but it is really hard-won experience."

"You would say, then," asked Trine, "that the inventor, the poet, the prophet, and perhaps others who have the greater faculty or depth of seeing and apprehending things—would you say that they have the larger experience in the lives that they have lived before?"

"Yes," answered Ford. "They are older persons in experience. Christ was an old person."

Sums Up Theories
"There is nothing to me that is established more thoroughly than thought transference," he declared. "And its explanation probably is very simple when we learn how to explain it."

"To my mind thought is a force, or thought has force—put it as you like. It is a stream of little living organizations that go to and fro."

When thought goes out, some of the energies of personality go out with it. These energies are around us all of the time.

"Intensify your thought and you set up attraction. Concentrate on a job and you attract all the energies necessary to accomplish it. Thoughts are materials."

Something
that is all hers!

Perhaps she has suggested, as women so often do suggest, that you give her this Christmas something for the home. But wouldn't you really prefer to give her something for the home and for her too—something that would show her unmistakably just how much you do care, how much you want to relieve her of every possible burden?

Give her a Hoover. It tells so plainly that you want her to have less drudgery in her life, more rest and fun. It shows that you care enough for her youth, her happiness, to safeguard them. And safeguard them The Hoover will.

Its exclusive cleaning principle, "Positive Agitation," gives faster cleaning of rugs—to save her time; easier cleaning—to save her strength; and deeper cleaning—to save her treasured floor coverings.

Come in this week and arrange to have The Hoover sent out for Christmas. Pay only \$6.25 down; the balance you can pay in small monthly amounts. Easy, isn't it? And, too, there is a new popular-priced Hoover obtainable at a figure no higher than you would pay for an ordinary vacuum cleaner. Dusting tools and floor polisher are available at slight extra cost. Liberal allowance for your old cleaner.

"I never knew what minute I would have to catch hold of something to steady myself until my head would clear up. That's how bad off I was ever since I had the flu five years ago. I couldn't walk to the grocery and back without getting clear out of breath."

"It worried me. Not a thing I took got me to feeling right again, until I began taking this new medicine—Husky, and just think. In only two weeks time I got over it all. I have to laugh now when I think how lucky I was that I took one more chance, when my neighbor told me how she got over the same kind of spells when she took Husky. I have gained fifteen pounds, my color is grand and I don't know what it is to have a headache or to get dizzy. I am as strong as any woman now."

The first thing to do for a person who has dizzy spells, is bilious and faints, is to relieve the gas pressure in the stomach. And stomach gas is the direct sign of chronic acidity, which is the cause of a skinny body, sour stomach, gas, biliousness, nervousness, loss of sleep, broken out skin, rheumatism, etc.

Chronic acidity inflames the mucus lining of the stomach and bowels, robs the blood of the red corpuscles it must have to keep it from becoming thin and watery. In test after test, Husky has proved why more than 500,000 have so much confidence in it when most ordinary medicines failed them. It will do the same for you.
