

Kate: Thanksgiving is coming—and I hope you realize that we should be thankful that we've been dealing with Polar for over thirty years and have never had cause to kick.

Queen: If all business houses had Polar's platform of service about the only kicking that would be done would be on the football field.

Industrial & Business NEWS

CITY BUILDERS TAKE TO USE OF FIRM'S PIPE

Reinforced Concrete Tubes Put on Pleasant Run Drive.

Approximately 34,000 feet of reinforced concrete pipe, 42 by 48 inches in diameter, recently was installed for the Pleasant Run boulevard improvement by the Independent Concrete Pipe Company, 201 Northwest street.

J. H. Lambert, secretary of the company, today declared that the city of Indianapolis, recognizing the permanency of concrete piping, has made a practice of installing this product.

"In recent years, all of the Indianapolis leading contractors including the Columbia Construction Company, J. H. King Company, the Sheenan Construction Company, and other prominent local firms have installed Independent Reinforced Concrete Pipe," he said.

The Independent Concrete Pipe Company, now in its fourteenth year, is said to be the largest reinforced concrete pipe manufacturer in the country using the hand-tamped field method.

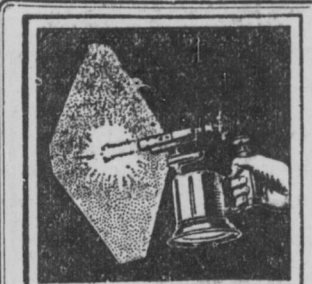

Howard Schurmann, president of the company, has been associated with the manufacture of reinforced concrete pipe for a number of years. Lambert has been with the Indianapolis concern since 1917. H. R. Duckwall is chairman of the board of directors.

Manufacturing for national as well as local installation, the company has extended its scope to include Michigan, Ohio, Kentucky, Wisconsin and Illinois. Large storage facilities are maintained at East Seventeenth street and Sherman drive, where concrete mixers, steel forms, cast iron top and bottom rings, boilers for steam curing the pipe and other equipment sufficient to produce about two miles of pipe per day, are housed.

PLAN REALTY SURVEY
Local Men on Committee Named by National Group.

Appointment of a committee of local realtors to make the twelfth annual survey of the real estate market for the National Association of Real Estate Boards was announced today by Emerson W. Challie, Indianapolis Real Estate Board president. The committee will be composed of Joseph J. Argus, chairman; Leo F. Welch, George W. Klein, Albert J. Quigley and E. E. Shelton.

The committee will report on local conditions now as compared to November, 1927. It will include a summary of general market conditions, the building situation, the subdivision market, the residential and business property rental situation, the subdivision market, the action, and conditions in the mortgage money market.

BUILDING PERMITS TAKE SUDDEN HOP

Realty Market Is Brisk; Apartment Building to COST \$220,000.

Building permits took a sudden jump this week, and the local real estate market showed fair strength, according to the weekly report of the Indianapolis Real Estate Board.

New construction for which permits were issued totaled in cost \$855,460. Of this \$140,960 was for new residences and \$220,000 for an apartment building at 3060 North Meridian street.

Business as well as residential property were included in the week's realty deals.

Purchase by Frank Lawson, local contractor, of a property on the northwest corner of Capitol avenue and the first alley south of sixteenth street was announced by F. C. Tucker of the F. C. Tucker company. The property, sixty-one feet fronting on Capitol avenue and 208 feet deep, will be held by Lawson as an investment. There are three residences on it. The property was bought from Dora Wehler through H. L. Yelch of the Tucker company.

Exact consideration involved in purchase of the Capitol avenue property was not disclosed, but it was understood to be in excess of \$250,000.

Other Deals Closed
A number of other deals were closed by the Tucker company. A building site, being erected on property of the company at Thirtieth street and Martindale avenue, was leased to William Carriero for five years. The lease will average approximately \$1,200 a year.

Three residential properties also were sold by the Tucker organization. Ada M. Dixon bought a property at 320 South Gray street for \$2,800. A residence at 344 South Edgemoor road was sold for C. E. Thomas to Shirley H. and Stella Woody for \$3,400. Representing Albert and Myrtle Blomk, the company bought at 1714 Ruckie street from John C. any, Eva Olenchain through Neal Grider. The price was \$2,400.

The Tucker company traded nine lots to Henry B. Knue, builder, for a new residence, 2914 E. East Fifty-second street. Seven lots are in Tucker's East Thirty-fourth street addition and two are in Tucker's Emerson avenue addition. Value on each side of the transaction was estimated at \$2,000.

Office Is Removed
Removal of the office of Goode & Goode from 11 to 50 Union Trust Company building was announced by Joe Goode, realtor. Increase of business made removal to larger quarters necessary, Goode said.

A new five-room bungalow, 3300 North Emerson avenue, started just two weeks ago, was sold to Henry and Ruby Bonsett by the company for \$2,800. The company also purchased a six-room, two-story modern house at 519 North Graham avenue from Hugh Ball through J. T. Gray.

Sales amounting to approximately \$25,000 were closed by the lot department of the Union Trust Company, according to Tom L. Dillon, manager. Several northside properties were among the transactions. A lot on the east side of Meridian street, south of Fifty-sixth street, was sold by Emma J. Pfafflin to John M. Ritter, builder, for \$25,000. A brick veneer residence, 2914 E. East Fifty-second street, bought a nearby lot from Mrs. Pfafflin said have contracted with Ritter to build a house to cost approximately \$30,000.

Lots Are Sold
Earl S. Hensler of the Union Trust Company lot department sold to Martha B. Denny a lot at the southeast corner of Fifty-sixth and Meridian streets as the site for a residence to cost between \$30,000 and \$35,000. The company sold to William F. Parrish, builder, a lot at Fifty-third street and Central avenue.

Property in the Armstrong Park addition on East Thirty-eighth street was bought by the Croel Corder company as the site for a new bungalow, and Adolph Hansen bought a lot at South Meridian street and the Norwood road, where he will build a bungalow.

Salesmen for the Washington Bank and Trust Company, real estate department, also closed a number of deals. A. L. Conn negotiated a trade in which two properties at 28 North Holmes avenue and 611 Tomlinson street changed hands between William J. Ragan and Floyd Winnell.

Property at 423 South Linhurst drive was sold to William J. Williamsburg by H. L. Marsh, and Louis L. Beard sold to Russell Sherwood a five-acre tract in Eastern Acres.

A lot in Meridian Hills addition was sold by James C. Myers, representative of the company, and a residence at 1058 South Sheffield avenue was sold by E. H. McLean. H. J. Palm sold another property in Vernon Acres.

EXCURSION OFFERED

Union Traction Prepares for Thanksgiving.

Union Traction Company of Indiana is making elaborate preparations to handle the usual heavy Thanksgiving traffic, according to F. D. Norviel, general passenger and freight agent.

Excursion rates will be held Nov. 28 and 29 with return limits to and including Dec. 3. The excursion fares will apply to points located on the Indiana Service Corporation, Ft. Wayne-Lima railroad, Winona railroad and Chicago, South Bend and Northern Indiana Traction Company as well as in Union Traction Company territory.

Norviel states that freight and express business is showing increase at Indianapolis and other points and that a substantial business boost is expected in 1929. Plans are under way to extend the fast overnight package car service, popular with shippers and receivers of freight.

TULAREMIA WARNING STOPS RABBIT SUPPER

Annual Affair at Seymour Church Postponed Until Cold Weather.

By United Press
SEYMOUR, Ind., Nov. 24.—The annual rabbit supper which was to have been held Friday night at the First Baptist church here was postponed as a result of a state health board warning against rabbit fever.

"We cannot get the women to come to the church and cook the rabbits and we cannot get the men to come and eat them," said F. O. Whitmer, superintendent of the men's department of the church, referring to announcement by the state board that there is danger of tularemia in rabbits.

Whitmer announced that the supper would be held later after the danger of the disease is eliminated by cold weather.

ROOFING JOB FINISHED

Boem Company Completes Work on Apartment Building.

The J. F. Boem Tinning and Roofing Company recently has completed the roofing on a large apartment building at Fifteenth street and Central avenue. The metal work and ventilating in the new structure also were supplied by the Boem company.

Shingles and asbestos are popular with home builders, according to J. F. Boem, who stated that his company is roofing a number of Indianapolis residences.

SEAL HOUR ON RADIO TONIGHT

Health Campaign Program Over WFBM.

Second of the series of Christmas seal hours will be broadcast over WFBM Saturday night at 7:30 from the main studio of the station, 229 North Pennsylvania street, Mrs. Chantilla White, seal program chairman of the Marion County Tuberculosis Association, announced today. The seal hours have been donated by WFBM as its part of the co-operation of many Indianapolis civic agencies to make the 1928 Christmas seal sale of the tuberculosis association the largest in the history of Indianapolis and Marion county.

The seal hour program Saturday night also has been donated by Norman Perry, president of the Indianapolis Power and Light Company, which owns and operates WFBM. The program will be given by the WFBM concert orchestra, well known to radio enthusiasts.

Dr. Herman G. Morgan, secretary of the Indianapolis board of health, will give a three-minute address on the subject, "The Christmas Seal and Public Health."

Dr. Morgan will discuss the various phases of preventive and curative tuberculosis work being carried on in the community and will tell how the Christmas seal sales of the tuberculosis association since 1914 have been the greatest single factor in building up both public and private agencies for control of the disease.

ROOFERS HAVE BIG JOBS

Three Major Projects Handled by General Asbestos Co.

Three large roofing jobs are receiving the attention of the General Asbestos and Supply Company, Inc. Built-up asbestos roofing is being used to cover the new buildings of the Wheeler-Schebler Carburetor Company, the new educational building at the First Presbyterian church, and the Phyllis Wheatley colored Y. W. C. A. structure.

The built-up asbestos material generally is used on commercial and industrial building roofs, while slate and tile are popular on residential jobs, according to G. F. Hoppe, sales manager.

Repair \$5,000 Worth of Toys
By United Press
RICHMOND, Ind., Nov. 24.—Approximately \$5,000 worth of toys repaired by city firemen are to be distributed to poor children here on Christmas eve and Christmas day. The toys are practically as good as new. Several persons have offered to donate the use of trucks in distributing the toys.
