

PLANES HUNT EXPLORERS IN GRAND CANYON

Missing Married Couple Are Believed Stranded on Rock Ledge.

By United Press
FLAGSTAFF, Ariz., Dec. 19.—Three army airplanes roared over the Grand Canyon of the Colorado today in the search for Mr. and Mrs. Glenn R. Hyde, amateur explorers of Hansen, Idaho, who left Green river, Utah, two months ago for a trip through the mile-deep gorge.

Two of the planes left March Field, Riverside, yesterday to follow the Colorado river north from Needles, Cal., to Las Vegas, Nev. The third a tri-motored army plane from Grand Canyon, Ariz., Tuesday joined the search starting from the upper reaches of the river.

Indians were reported leaving their villages to thread the narrow trails on the river's edge at the bottom of the canyon.

Robert C. Francy and Jack Harbin, of Grand Canyon, yesterday launched a small boat into the swift waters to shoot the rapids as far as Needles in search of the missing couple. A second boat probably will follow today.

Hyde and his wife left Green River, Utah, on Oct. 20 on a vacation trip that would take them through the canyon as far as Needles, which they expected to reach not later than Dec. 11. It is feared that the frail craft was broken up on the rocks and the couple was drowned or that they are stranded on a ledge and facing starvation.

Report Long Earth Shock
DENVER, Colo., Dec. 19.—An earthquake of 19 minutes duration was registered on the seismograph at Regis college today. It probably was outside of the American continent.

Honor 'Modern Carrie'

After Mrs. Maude Wilson of Kansas City took an ax in hand and wrecked a bar where her daughter and her husband were said to have been serving liquor, business men of the neighborhood bought her a nice basket of flowers to show their approval. Mrs. Wilson is pictured here receiving the tribute at a luncheon in her honor.

PHONE TOLLS TO STOP WOMEN'S TALK DENIED

Condition No Different Since Merger, Commissioner Rules.

Because the Southern Indiana Telephone Company knew how the women talk, Commissioner Harvey Harmon of the public service commission Tuesday denied a petition for toll rates between the Holland

Telephone Company and exchanges at Jasper, Ireland, Haysville, Schnelville, St. Anthony, Birdseye and Ferdinand recently merged.

The company based its petition on the grounds that women were using the lines for "purposeless visiting."

Ellis said in his order that the situation has not changed from the time the merger was made and therefore the company knew about it and the no-toll service must continue.

COOLIDGE ACTS TO KEEP DOWN U. S. EXPENSES

Kills Rivers and Harbors Bill, Blocks Postal Measures.

WASHINGTON, Dec. 19.—President Coolidge has taken definite steps to prevent congress from making appropriations that will add to an estimated deficit of \$18,000,000, it was learned today.

Besides intervening to kill the \$48,000,000 rivers and harbors bill pending before the house, the President is said to have taken precautions to prevent action on several postal bills that would have required expenditures.

For a week the house postoffice committee has been unable to meet and report out the Mead-La Follette bill providing a forty-four hour week for postal employees. Despite a petition for a meeting signed by a majority of the committee, including Republicans and Democrats, Acting Chairman Saunders of New York has declined to issue the call.

A special rule may be required to bring the measure up this session, and it is not expected house leaders would favor this action.

Saunders admitted that Coolidge's economy warning might be the reason for his course, though he would not admit that the President had intervened. He suggested that committee members carry their complaint to Majority Leader Tilson, but the latter said he would not interfere with the program of a committee chairman, meaning Saunders.

The rivers and harbors committee declined at first to accept the presidential order to kill their bill, and delegated Chairman Dempsey to canvass the sentiment of house leaders. They turned thumbs down on the proposition to defy Coolidge by passing the measure.

20-Year-Old Cat

Cats are said to have nine lives, but Maltie, owned by Mrs. Sadie Loffel, 58, of Denver, Colo., apparently needs only one, as he is now 20 years old and doing fine, thank you. Maltie was born during President Roosevelt's second administration and seems to have a good chance of seeing at least a part of President-Elect Hoover's term.

SCOUTS' PARTY TONIGHT

Collect Food to Be Given Poor; Bugler to Give Selections.

A feature of the Christmas party of Boy Scout Troop 69 at the Utley hut, Boulevard place and Thirty-eighth street, tonight will be several bugle selections by Robert Cavanaugh of the troop. He recently won the gold bell silver bugle offered by the Rexcraft Company of New York in a contest among Indianapolis scouts. The party is sponsored by parents of the scouts. Admission will be by food for baskets which will be distributed by the scouts to the poor.

A choir composed of twelve boys will sing carols.

RECORD 'DOPE' HAUL MADE IN PROBE OF 'RING'

\$4,000,000 Allotment Is Seized in New York by Officers.

By United Press
NEW YORK, Dec. 19.—Charles H. Tuttle, federal district attorney, revealed late Tuesday night that \$4,000,000 in drugs, described as the largest allotment in history, had been seized here.

Tuttle immediately announced he would go before the grand jury today and seek an indictment against a man named "Klein," believed to be Joseph Unger, now in Tombs prison here, on a charge of placing \$2,000,000 worth of narcotics on board a train bound for Chicago recently.

Boxes Marked 'Brushes'
The drugs, packed in boxes marked "brushes," were seized at Pier 2, Jersey City, by Gregory O'Keefe, special agent for liquor seizures. O'Keefe found five cases and opened one which contained 1,000 ounces of cocaine. The other cases will be opened today.

The drugs, Tuttle said, were shipped from France and arrived Friday on the French liner Rochambeau. The Rochambeau docked at West Fifteenth street, Manhattan, and the drugs then were taken across the Hudson river to the Jersey City pier for shipment to Philadelphia, the federal attorney said.

Tuttle said arrangements for the drug shipment had been made by "Klein."

Unger, who will be arraigned today in federal court in connection with the \$2,000,000 drug shipment, has used Klein as an alias.

New York Clearing Port

Tuesday's seizure, Tuttle said, bore out his suspicion that an in-

Close Fit

The noise of the motor and the cold of the upper atmosphere combine to make life miserable for the aviator who would try to keep in touch with land below and at the same time feel comfortable.

But this new type of helmet solves the dual problem. It's warm and it encloses the head of the airplane radio receiver, snugly and comfortably.

Sergt. Earl Logan of the U. S. Army Signal corps is shown wearing it while talking into a portable transmitter.

international drug ring, operating from bases in France and Switzerland, was using New York as a clearing port for the American trade. He declared the source of the shipment was the same as that of the \$2,000,000 allotment.

Arnold Rothstein, gambler who was slain in the Park Central hotel here, has been mentioned as the financial backer of the narcotic ring.

DURBIN BURIAL WILL BE MADE HERE SATURDAY

Two Funeral Services for Indiana's Former Governor.

By United Press
ANDERSON, Ind., Dec. 19.—Funeral services for Colonel Winfield Taylor Durbin, 82, former governor of Indiana, who died Tuesday, will be held at the First Methodist church here Friday afternoon.

After the ceremonies here the body will be returned to the home and will be taken to Indianapolis, where public services will be held in the Masonic temple Saturday afternoon. Burial will be made in Crown Hill cemetery, Indianapolis.

Colonel Durbin's widow and son, Fletcher, of Chicago, received condolences from persons from all over the world, including Republican statesmen, of which the former Governor was a leader.

The former Indiana statesman was stricken with influenza several weeks ago, and after apparently rallying, suffered a relapse. He had been active until recently, when the malady forced him to his bed. His son and widow had been in constant attendance for the past week, although Mrs. Durbin also was afflicted with the disease.

Colonel Durbin served Indiana as Governor from 1901 to 1903. During his administration he handled a number of difficult problems, including a street car strike at Evansville.

Since his retirement from political life, Colonel Durbin had been active in civic and industrial organizations.

VAST ASSORTMENTS•LOWEST PRICES•CONVENIENT TERMS•PROMPT SERVICE

ROCKERS!

Red rocker, as shown, or chair—very well built—while they last—Only—

39c
