

BAN IS URGED ON MARATHON DANCE GRINDS

Damage Body and Mentality
Benefit Only Promoters,
Doctor Writes.

Preventative measures should be created to halt marathon dancing because of the damage often caused to body and mentality of the participants, says Dr. H. G. Cole, Hammond, in an article in the current edition of the Journal of the Indiana Medical Society.

Dr. Cole has just finished serving as physician in charge of a marathon dance at Hammond which extended more than 1,252 hours, exceeding all previous records by 270 hours.

The marathon dance recently held in Indianapolis extended more than 300 hours.

Rules of the contest at Hammond provided for forty minutes dancing in each hour and twenty minutes devoted to eating, bathing, receiving attention from trainers and rest.

Health Is Affected

Contestants were removed from the floor in hospital carts and usually were asleep before they reached their training quarters only a few feet away.

Forty-seven couples were entered in the contest and Cole examined them before the start and had an opportunity to study their condition at close range.

His articles states that: "During the first ten days the dance hall was a bedlam of sore feet, blisters, callouses, corns and other foot ailments.

"During this time every contestant developed inflammation of the eyelids.

"Many contestants had to discontinue dancing because of ignorant mauling massages administered by inefficient trainers. After the first day or two it became apparent that this was a contest where mind ruled body rather than vice versa, as one would presume."

Dr. Cole sets forth that throughout the contest the first break noticed in contestants was a change in mental state; they either becoming hilarious, depressed or irritable, the greater number falling in the latter classification.

Loss of Modesty

"Clouding of consciousness, disorientation, delusions, acute confusion and multiform hallucinations were the symptoms presented."

"A disorder of the mind as a result of exhaustion was developed in one case and it was more than two weeks before this disappeared."

"Loss of modesty as a result of dropping of inhibitions similar to that experienced under the influence of alcohol was also a development."

"One contestant developed a slight lung hemorrhage and immediately was disqualified and sent to the hospital. It later was learned that she suffered from tuberculosis and had had a slight hemorrhage three months before."

"Throughout the contest there was an almost universal fall in blood pressure, with varying acceleration and retardation in pulse rate."

Worst Hours in Morning

"The worst hours for the contestants was during the early morning and lasting until noon. This, however," Dr. Cole says, "was due to the absence of crowds and the consequent loss of glamor."

Some of his conclusions are: "Harm to the tissues, many foot troubles sure to be permanent, enlarged veins in the legs, which will result in varicosities; and possibility of heart trouble due, not to the strain of dancing, but to the improper care or the inability to properly care for the system."

Dr. Cole sums up by saying: "Preventative measures should stop such contests as no one but the promoter is benefited."

JARDINE VOICES PLEA TO CONSERVE FORESTS

Serious Damaged Caused by Present System, Says Secretary.

By Times Special

WASHINGTON, Jan. 3.—Expressing his belief that a "fundamental economic error" was made when the nation's forests passed into private hands, Agriculture Secretary Jardine today demanded an end to the evils of forest devastation.

"Under private ownership," he said, "our forest lands steadily have deteriorated in their capacity to grow new crops of wood. Most tragic of all, the basic resource—the soil itself—has been irreparably injured."

The ability to draw abundant timber from our virgin forests has prevented the public from realizing the real seriousness of the timber situation, Jardine said.

He advocated co-operation of federal government, states, and timberland owners.

Flu-Grip Checked at the Start

RUB your chest
with Vicks before
your little cold gets BIG.

Vicks acts two ways at once:
check the cold and prevent
complications:

(1) It is vaporized by the heat
of the body and inhaled for
hours direct to the inflamed air-
passages;

(2) It acts through the skin
like an old-fashioned poultice,
"drawing out" the tightness
and pain.

Long Hunt Ends

NATIONAL AUTO SHOW IN N. Y. TO OPEN SATURDAY

Motor Display Heralded as
Greatest in History
of Country.

By Times Special

NEW YORK, Jan. 3.—Virtually all preparations have been completed for the twenty-ninth national automobile show, which opens at the Grand Central Palace Saturday. From the following Monday it will continue through the week.

Already the exhibition is being termed "the greatest national show in history" and all signs and portents point to that as no idle boast.

A revised list reveals that more than 300 cars and chassis models will be displayed, comprising forty-six makes of passenger cars and three taxicabs.

Of the complete-car exhibits, forty-one are American and five foreign, this being the first time that European cars will be presented at a national exposition in this country. There will be also 120 accessory exhibits and fifty-six shop equipment displays.

In Setting of Luxury

The Palace itself is being revamped to form a proper setting for the latest and most luxurious products of motor manufacturers. The huge building has been so completely metamorphosed that last year's visitors hardly will recognize it.

As usual, certain days have been set apart for special emphasis. Monday, Jan. 7, is outdoor sports and golfers' day; Tuesday, international day; Wednesday, army and navy day; Thursday, aviation and engineers' day; Friday, theatrical and municipal and closing day.

For the first time descriptions of cars on display will be broadcast over a coast-to-coast radio hookup.

Many Makes on Display

The following makes of cars are to be displayed at the show:

Main Floor—Buick, Chandler, Chevrolet, Chrysler, Dodge Brothers, Durant, Essex, Graham-Paige, Hudson, Hupmobile, Kissel, Marmon, Nash, Oakland, Oldsmobile, Plymouth, Pontiac, Studebaker, Whippet and Willys-Knight.

Second Floor—Auburn, Black Hawk, Chevrolet, Chrysler, Cunningham, De Soto, Daimler, Dodge Brothers, Du Pont, Elcar, Erskine, Essex, Graham-Paige, Hudson, Marmon, Mercedes-Benz, Plymouth, Renault, Reo, Studebaker, Stutz and Vauxhall.

Third Floor—Auburn, Austin, Black Hawk, Chevrolet, Chrysler, Cunningham, De Soto, Daimler, Dodge Brothers, Du Pont, Elcar, Erskine, Essex, Graham-Paige, Hudson, Marmon, Mercedes-Benz, Plymouth, Renault, Reo, Studebaker, Stutz and Vauxhall.

Fourth Floor—Taxicabs: Bradford, Checker Cab and Yellow Cab.

During the show virtually all the automobile companies and many other organizations will hold special dinners and meetings.

1929 SUMMER COURSE TO BE I. U.'S FORTIETH

Arguments on \$100,000

Notes to Be Argued.

Arguments in the superior court two case in which Richard L. Lowther, receiver for the defunct J. F. Wild & Co. state bank, seeks \$100,000 in "accommodation notes" given the bank, turned over to him for sale purposes, are set before Judge Linn D. Hay Jan. 15.

The last hearing was held in September. The notes were given by the late Robert I. Todd, Indianapolis street railway company president; the late John M. Appel, business man, and Frank M. Millikan, capitalist. Mrs. Todd now represents her husband's estate, but no one has been substituted for Mr. Appel.

It is believed that the recent ruling of Criminal Judge James A. Collins, quashing the bank embezzlement indictments against John F. Wild, president of the defunct institution, and three other officials, may have some bearing on the superior court case.

The contention that the bank was not insolvent has been made by some of the parties in the case, Joseph R. Williams, attorney for the depositors' league, has announced he will seek to have a new indictment filed against the bank's officers. Williams said the bank was on the verge of insolvency since 1921.

SCIENTISTS TO SAIL

American Expedition to Make Study in December.

By Times Special

NEW YORK, Jan. 3.—A scientific expedition will leave New York for the Island of Dominica in the Lesser Antilles on Jan. 12. The party, led by Paul G. Howes of the Bruce Museum at Greenwich, Conn., and Dickenson S. Cummings of Stamford, Conn., will collect specimens for the Bruce museum, for the Smithsonian Institution and for the American Museum of Natural History.

Headquarters will be established at Corona, and from there side trips for special studies will be made into the mountains and jungles of the densely forested island.

\$60,000 BURDENOME

Vanderburgh County Unable to Make Loan Pay Interest.

By Times Special

EVANSVILLE, Ind., Jan. 3.—Vanderburgh county has \$60,000 it would be better off without.

The money is a fund created by fines and forfeitures in courts and for the use of county schools.

A state law provides that the money shall be loaned at not less than 6 per cent interest and the county can not induce any one to borrow at that rate. Despite this, the county is compelled to pay into the state school fund 6 per cent interest on the \$60,000, amounting to \$3,60 a year.

STUPSES GOLDEN RULE

Lions Club Speaker Applies It to Conduct of Business.

John Edwin Price, service manager of the A. Nash Clothing Company of Cincinnati, spoke on "The Golden Rule in Business" at the regular Lions Club luncheon in the Lincoln Wednesday.

Three reasons for the practical success of golden rule business methods were outlined. It is the humane in principle, it is economically sound, and the public supports it, he declared.

The correct recipe, improved by the addition of other ingredients, may be had in Wyeth's Sage & Sulphur Compound. All druggists carry it and since the cost is only 75¢ a bottle, there is really no need for any woman to go to the bother of preparing it herself. You would be surprised if you knew the number of men and women who employ Wyeth's Sage & Sulphur because its use is undetectable.

You simply moisten a comb or a soft brush with it and draw it through your hair, one small strand at a time. By morning the gray disappears and another application or two sees your hair beautifully and evenly restored to its full original color. There is no suggestion of that hard, dyed look that repels fastidious women. I advise any woman—or man—whose hair is turning gray to try Wyeth's Sage & Sulphur.—Advertisement.

Chosen Dean of Men

By Times Special

MUNCIE, Ind., Jan. 3.—Dr. E. L. Austin is the new dean of men at Ball Teachers' college here. He succeeds Professor Claude E. Palmer, who resigned so he could devote all his time to the work as head of the music department.
