

## COOLIDGE SAYS U. S. MUST CUT DOWN EXPENSE

Margin Between Prosperity  
and Depression Always  
Small, He Says.

BY ROBERT MOOREFIELD  
United Press Staff Correspondent  
WASHINGTON, Jan. 29.—Ad-  
dressing the last scheduled business  
meeting of his administration, Pres-  
ident Coolidge Monday night ex-  
pressed satisfaction with his  
economic program, pointing out at  
the same time that national pros-  
perity could continue only through  
constructive economy in govern-  
ment.

The President warned against  
unnecessary drains on the federal  
treasury. He called attention to the  
increasing costs of state and local  
governments.

"The margin between prosperity  
and depression is always very small,"  
Coolidge said at one point. "A de-  
crease of less than 10 per cent in the  
income of the nation would produce  
a deficit in our present budget. The  
cost of state and local government  
rapidly are mounting."

He predicted his statement by  
pointing out costs of state and local  
governments had increased from  
\$3,900,000,000 in 1921 to \$7,931,000-  
000 in 1927, and continued:

"This is such a heavy drain on  
the earnings of the people that it  
is the greatest menace to the con-  
tinuance of prosperity."

"It is a warning that should be  
heeded by every one entrusted with  
the expenditure or appropriation of  
public funds."

Coolidge pointed out that since  
the inauguration of the budget sys-  
tem the public debt had been re-  
duced \$6,667,000,000, and that the

## Eyes Gouged

In a savage frenzy of jealousy,  
George Thomas, 30, a rubber  
worker of Akron, O., attempted to  
gouge out his wife's eyes, killed  
his son, Robert, 4, wounded his  
daughter, Rosamond, 2, and then  
committed suicide. Mrs. Thomas,  
24, shown above, probably will re-  
cover her sight, doctors say.  
Thomas became enraged when his  
wife started action to divorce him  
after alleged threats.

saving in interest from this and re-  
funding operations was \$963,000,000.

He said further that four tax re-  
ductions had returned to the peo-  
ple about \$2,000,000,000 a year  
which would have been required had  
the revenue act of 1918 remained in  
force, and that two and one-half  
million people entirely had been re-  
lieved from federal taxation.

Brigadier-General H. M. Lord,  
budget director, who followed the  
President, warned that the govern-  
ment might end the year with a  
deficit unless expenses were cur-  
tailed.

## 'WEAKER SEX' THEORY BLASTED BY EDUCATOR

Men and Women College  
Students Found About  
Equal Mentally.

BY ARTHUR F. DE GREVE  
United Press Staff Correspondent  
WASHINGTON, Jan. 29.—Anoth-  
er theory of the "weaker sex" has  
been blasted by Dr. F. A. Moss, pro-  
fessor of psychology at George  
Washington university.

After a series of tests extending  
over several years, Dr. Moss an-  
nounced today he found men and  
women college students about equal  
mentally with a possible shade of  
difference—if any exists—in favor  
of the women.

In the army Alpha test the re-  
sults showed a slight difference in  
favor of the women. In social in-  
telligence, women students demon-  
strated a noticeable superiority.  
They also excelled in judgment on  
matters of social tact and in ac-  
curacy of observation of human be-  
havior.

Comparative intelligence tests  
showed slightly better results for  
the men. Moss found men stu-  
dents excelled in breadth and va-  
riety of interests while the two  
sexes were equal in the ability to  
remember names and faces.

The psychologist reached the  
conclusion that women are more  
willing to submit to authority,  
have developed a degree of patience,  
far in excess of men and have an  
equal desire for social approval.

Women are more interested in  
persons while men are more inter-  
ested in material things, Moss said.

TWO UNDER LEGAL AGE  
IN SUIT FOR \$25,000

By Times Special

KOKOMO, Ind., Jan. 29.—Miss  
Elizabeth Cammerer, through her  
father, Max Cammerer, has filed  
suit for \$25,000 damages in Howard  
circuit court here against Sigmund  
B. Kling and his son, David Kling.  
Both the younger persons are un-  
der legal age, so the fathers are  
parties in the suit.  
It is alleged by Miss Cammerer  
that while she was riding in an  
automobile driven by David Kling it  
was wrecked, causing her to suffer  
severe injuries. She charges Kling  
operated the machine in a reckless  
manner.

## CLAYPOOL SHOT UP IN 'HOLDUP' OF BANK HEADS

Robbery Turns Out 'Fake'  
to Show Bandits Proper  
Place.

A "holdup" in which a dozen  
shots were fired startled more than  
100 guests at the Claypool Monday  
afternoon when a mock bank rob-  
bery was staged in the assembly  
room to illustrate an effective  
method used to deal with bandits in  
Oklahoma.

The "holdup" was staged in the  
midst of an address by Eugene P.  
Gum, secretary of the Oklahoma  
Bankers' Association, as the feature  
of the afternoon program of the  
mid-winter meeting of the Indiana  
Bankers' Association. All but a few  
of the bankers present at the meet-  
ing were startled when the bandits  
appeared. As the method of signal-  
ing showing how bandits are trap-  
ped it became apparent that the  
"holdup" was for illustrative pur-  
pose only.

The speaker declared that in view  
of the "pulls" loopholes in the law  
and other resources of imprisoned  
bank bandits for getting out of  
prison the only really effective cell  
for bank bandits was six feet long,  
about the same depth, and about  
three feet wide and the only key  
to which would be a court order  
for exhumation of the body.

Another instructive address of the  
afternoon was that made by W. E.  
Devlin, Chicago, of Delvin & Ben-  
nett, advertising counsel for the In-  
diana Bankers' Association.

"In 1927 the total invested cap-  
ital of all banks of the country was  
\$2,731,000,000," said Devlin, "and the  
net earnings of banks on this cap-  
ital was \$252,000,000. Of these  
amounts General Motors had an in-

vested capital amounting to one-  
fourth of the total or \$727,000,000  
and net profits of \$157,000,000 in the  
first half of 1928."

Devlin pointed what he terms as  
a glaring fault in the banking sys-  
tem of today. He declared that  
many small depositors left but a  
few dollars balance in the bank, but  
were continually doing a checking  
business thus causing increase in  
bank expense through bookkeeping,  
pass books and overhead. One way  
of solving the problem, he said, is  
for banks to show the depositor how  
to keep as big a balance in the bank  
as possible; to hold a reserve ac-  
count.

Expedition to Central Africa  
PERPIGNAN, France, Jan. 29.—  
Viscount Rochefoucauld left here  
today for Oran, Algeria, at the  
head of an expedition which will  
make military and anthropological  
studies in central Africa. The party  
will tour the region of the Nile in  
five automobiles.

## Madge Bellamy explains the growing popularity of Old Golds in Hollywood

"The 'hero' in a movie may easily  
become the 'villain' if he coughs at  
the wrong time. A cough isn't nice  
at any time, but when it interrupts  
the taking of a movie scene, it's a  
calamity! Re-takes are costly!

"The high tension of movie work  
makes smoking a vital relaxation. But

we relax with OLD GOLDS. They're  
so smooth...as smooth as the polished  
manner of Adolphe Menjou, who him-  
self is an OLD GOLD fan.

"While they're the most enjoyable of  
cigarettes, OLD GOLDS mean abso-  
lute 'fade-out' for throat-scratch and  
smoker's cough."

## Don't let Rheumatism make an invalid of you. S.S.S. stands ready to knock it out.

THOSE muscular pains, commonly called  
rheumatism, are generally due to a run-  
down condition, with the number of red-blood-  
cells below the normal count.

S.S.S. aids the system in building up these red-  
blood-cells and in getting rid of the condition of  
which the rheumatism is but a symptom. The  
body becomes strong and disease-resistant, and the  
rheumatic pains go.

Pains in your muscles and joints make you mis-  
erable, less efficient, interfere with your working  
hours, ruin your sleep. If allowed to continue,  
as the years pass the danger increases.

"After suffering several years,  
six bottles of S.S.S. completely  
relieved me of rheumatism. It  
also cleared up a skin eruption  
and gave me a good appetite. I  
think S.S.S. is a wonderful  
medicine."

R. L. Busic,  
Southern Railway,  
Knoxville, Tenn.

But what a change with rich, red-blood-cells in  
your body—Nature's building material—making  
the flesh firm—giving strength to the vital or-  
gans.

You can't rub rheumatism out. It is deeper  
than that. It must be knocked out. And the sure  
way is by helping the fighting blood—the red-  
blood-cells!

Increase your army of "workers" (red-blood-  
cells), and those muscle and joint pains, com-  
monly called rheumatism, vanish. S.S.S. has  
brought this change about for thousands. Why  
not for you?

"I was very nervous; had hardly  
any appetite, and suffered with  
rheumatism. I tried many medi-  
cines, but S.S.S. is the one that  
did me the most good. I am  
now well, and feel like a new  
man."
