

BIG EASTERN PLANT TO MOVE TO CITY SOON

Arrangements to Install
Machinery Made by
Mallory Company.

Arrangements for installation of machinery in the old National Lamp Company building, Gray and Washington streets, by the P. R. Mallory Company of Indiana, large eastern concern which Wednesday announced decision to move here, were being made here today.

The company, which expects to begin operations here soon, will have approximately 875 employees at the start, with more being added later, and will have a monthly payroll of more than \$70,000. Shipping of machinery will start at once.

Employ Many Women

The new company will include a large part of the manufacturing divisions of Elkon, Inc., of Weehawken, N. J., and the Knapp Electric Company, Port Chester, N. Y.

Products of the plant will include Carbonyl and Elkonite, expensive metal alloys, radio equipment, electro-mechanical toys, tungsten electrical contacts, fractional horsepower motors and other articles.

Large quantities of products of other Indianapolis industries will be purchased by the company. Its employees will be about 60 per cent women and girls.

Appreciates Co-operation

The factory is the largest single industrial acquisition for Indianapolis in years and came here as the result of several months intensive efforts on the part of the Indianapolis Chamber of Commerce industrial commission. Many visits to the company's eastern offices were made by C. L. Harrod, industrial commissioner, during the period.

W. H. Knowles, vice-president in charge of operations, who was here today with M. S. Green, treasurer, expressed appreciation of assistance given the company by the commission.

STANDS MUST MOVE

News Venders Obstruct Street Traffic, Is Charge.

Owners of street news stands have been ordered to move back from the intersection twenty-five feet in accordance with the new city traffic code.

Street stands too near the corner might obstruct the view of motorists who contemplate turning a corner, Fred W. Connell, board of safety president, said.

Pershing Over Flu Attack

WASHINGTON, Feb. 14.—General John J. Pershing has notified his office he has recovered from an attack of grippe suffered at sea while en route to France. Pershing will remain abroad until about June.

'Good Riddance'

When Mrs. Ethel P. Laden, 29 (above), of Dyer, Tenn., told her husband that she loved the Rev. E. D. Dawson, pastor of the Baptist church, Laden gave his wife \$150 to help pay her fare when she eloped with the pastor.

Laden, who is 47 and a wealthy hardware merchant, said he congratulated himself on "a good riddance." The preacher told his wife, too, before departing, and she returned to relatives in Manila, Ark., saying she was "used to this," and that "he always comes back."

LITTLE BOY AT MUNCIE GIVEN ROYAL COURTESY

Letter to English King During Illness Brings Reply.

MUNCIE, Ind., Feb. 14.—Bobby Hill Orr, 7, has attracted the attention of King George V of England. During the king's recent severe illness, the boy persuaded his mother to write to the monarch, saying, "a little boy in this country is thinking about you and praying every night for your recovery."

Beneath the red crest of the British royal family, a reply to the boy reads: "The private secretary is commanded by the queen to thank Mrs. Orr for her letter of the 10th instant and to ask her to thank her little boy for his message to his majesty, Jan. 28, 1929."

ROB SUBWAY STATION

Bandit Holds Up Agent, Takes Charge of Booth.

NEW YORK, Feb. 14.—A bandit robbed the change booth in the Bleecker street subway station and took charge of the booth while the money was being sacked. He held a pistol to the side of David Antlos, agent, as passengers stopped at the booth asking for change. After the platform was clear the bandit disappeared upstairs.

LINDY AND HIS FIANCEE KEEP PLANS SECRET

Even Miss Morrow's Parents Do Not Know When Rites Will Be Held.

BY GESFORD F. FINE

United Press Staff Correspondent
MEXICO CITY, Feb. 14.—Colonel Charles A. Lindbergh and Miss Anne Spencer Morrow apparently are the only persons who know when they are going to get married and where. They are keeping their own counsel.

Even Ambassador and Mrs. Dwight W. Morrow, parents of the bride-to-be, have not been informed of the wedding date.

Miss Morrow continued to experience today the penalty of Lindbergh's fame.

Cables and telegrams poured into the Morrow home in increasing quantities from Mexico, the United States and abroad. Many messages were from persons unknown either to Lindbergh or the Morrrows.

One enterprising newspaper cable asking details of how Lindbergh proposed, whether it was in the air and what were his exact words.

If the wedding is in Mexico, the couple may have an aerial honeymoon.

Lindbergh is familiar with Mexican air routes and almost does his traveling by air.

His bride-to-be has made several flights with him.

This Will Can't Be Fought

NEW YORK, Feb. 14.—Three hours before he died in Mt. Sinai hospital, Eugene Littauer, retired glove manufacturer, made a gift of \$25,000 to the institution.

Knightstown Man Kills Self

KNIGHTSTOWN, Ind., Feb. 14.—George S. Foster, 74, restaurant proprietor, is dead, a suicide from poison. He is said to have worried over financial affairs.

**For Cold
Drink
Hot Tea!**

Don't let a cold develop into flu! At the first chill or feverish feeling, go right to your druggist and get a small package of Hamburg Breast Tea. Put a tablespoonful of this Hamburg Tea into a strainer, pour a cup of boiling water over it, and drink it at any time. It is the most effective way to break a cold and relieve gripe, as it heats the body and opens the bowels. This breaks up congestion and frees the body of poisons. Hamburg Breast Tea is inexpensive and entirely vegetable, therefore harmless.—Advertisement.

CANAL FROM MAINE TO FLORIDA CONSIDERED

Project for Intra-Coastal Route Will Be Laid Before Hoover.

WASHINGTON, Feb. 14.—The house rivers and harbors committee has under consideration a 21-foot intra-coastal canal, extending from Maine to Miami and from Florida to Corpus Christi.

The project is still in a nebulous

state and is to be laid before President Hoover soon after he takes office with the plea that rivers and harbors legislation be considered at the special session of congress.

A group of transportation leaders including Leonard F. Loree of the Delaware & Hudson railroad is believed to have suggested the plan to Representative Wallace Dempsey of New York, chairman of the house committee. Dempsey is known to consider the idea favorably, although he will not discuss it for publication.

LOANS 2,187 BOOKS

Library Breaks Circulation Record in January.

All existing records for daily circulation from the Indianapolis central library were broken in January, Librarian Luther L. Dickerson reported today.

On Jan. 19 the central library loaned 2,187 books and on Jan. 25

it loaned 2,114. Inasmuch as four books are used in the building when one is withdrawn, this means that on each of these days approximately 10,000 books were taken from the shelves.

During January, 229,252 volumes were borrowed for home use, an increase of 3.7 per cent over January, 1928. Fifty-seven per cent of these books were fiction and 43 per cent non-fiction.

Eighty thousand carrier pigeons were used by Great Britain during the war.

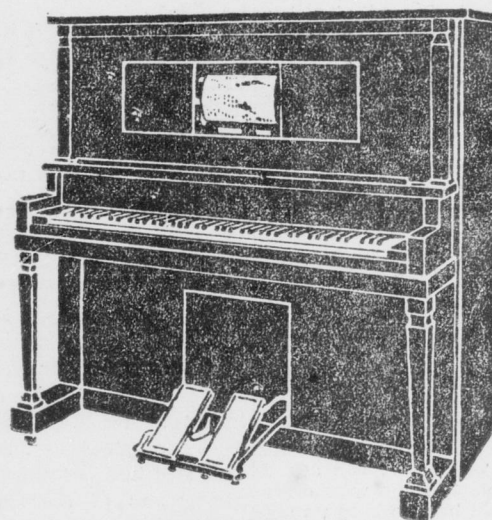

CHIROPRACTOR BILL UP

Board of Examiners Urged in Measure.

The fight of chiropractors for recognition as a separate branch of practitioners was resumed in Indiana Wednesday when a bill providing for appointment by the Governor of a board of five chiropractic examiners was introduced by State Representative Emerson E. McGriff of Portland. The chiropractors lost their fight by one vote in the legislature two years ago.
