

# TESTIFIES MATE TOOK NAPS ON 'EYE OPENERS'

Mrs. Inman Explains How  
Effects of Liquor  
Differ.

By United Press  
RENO, Nev., April 9.—The contested divorce suit of Walker P. Inman, New York millionaire, may continue at least another week.

Mrs. Helene Patton Inman today continued the recital started last Thursday.

As in previous testimony, Mrs. Inman's testimony centered on her husband's consumption and effect on her husband. She testified that "besides drinking three quarts of Scotch whisky a day," her husband did "nothing but to get himself into a corner and read magazines."

## Effect of Liquor

"What effect did liquor have on you?" Mrs. Inman was asked.

"Why, it opened my eyes," she answered.

"And what effect did liquor have on Mr. Inman?" was the next question.

"Oh, it put Walker to sleep," Mrs. Inman testified, and glanced down at her shoe tops.

Mrs. Inman testified newspaper reporters had "pestered me to death" when questioned relative to whether she had any animosity towards Mrs. James Duke, her mother-in-law and widow of the Atlanta "tobacco king."

She said she had no way of knowing whether Mrs. Duke had anything to do with her home being broken up, saying she hadn't seen Inman's mother since she and her husband separated.

## What Hotels Are for

Questioned why she had stayed overnight at the studio of Robert Yaw following a quarrel with her husband, Mrs. Inman said:

"I wasn't in the habit of staying at hotels."

"It didn't occur to you to call a hotel?"

"No sir."

"You knew what hotels were for?"

"Oh, of course."

# FATE OF WAR DEBT DISPUTE IS IN BALANCE

Reparations Conference Is  
Expected to Succeed or  
Fail This Week.

By United Press  
PARIS, April 9.—The success or failure of the conference of reparations experts should be determined during the next few days, most observers believed today.

Whether the work of the world's financial experts, who for two months have been striving to reach a workable agreement between Germany and her allied creditors, has been in vain should be known not later than the end of this week, according to prevailing opinion.

So far even the most expert of experts refused to hazard an opinion as to the ultimate result of the conference.

The long expected "flat offer" from the Germans has failed to have its desired effect.

Germany, through Dr. Hjalmar Schacht, its chief delegate, offered a starting annuity of approximately \$300,000,000, which would be increased over a period of thirty-seven years to a maximum payment of approximately \$500,000,000.

To this the French would not listen at all and the Italians stood by them.

The Belgian delegation soon joined them in their disapproval. These three nations worked in a

# QUART OF WATER CLEANS KIDNEYS

Take a Little Salts if Your  
Back Hurts, or Bladder  
Is Troubling You

No man or woman can make a mistake by flushing the kidneys occasionally, says a well-known authority. Eating too much rich food creates acids, which excite the kidneys. They become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood. Then we get sick. Rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders often come from sluggish kidneys.

The moment you feel a dull ache in the kidneys, or your back hurts, begin drinking a quart of water each day, also get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast, and in a few days your kidneys may act fine.

This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to flush and stimulate the kidneys; also to help neutralize the acids in the system, so they no longer cause irritation, thus often relieving bladder weakness.

Jad Salts is inexpensive; makes a delightful effervescent lithia-water drink which everyone should take now and then to help keep the kidneys clean and active and the blood pure, thereby often avoiding serious kidney complications. — Advertisement.

# BOARD WILL CONSIDER WIDENING DAMAGES

blocc, thoroughly united in their attitude of dissatisfaction.

The American, British and Japanese delegates did their utmost to persuade the die-hards to adopt a more conciliatory attitude.

Neither France nor its supporters had made any specific offers beyond making it crystal clear that they would not start dickering with anything less than \$450,000,000 as a starting figure.

# 'CHEAP' LABOR FROM CANADA HIT BY RULING

Supreme Court Bars Aliens  
From Visting Six Months  
in U. S.

By United Press  
WASHINGTON, April 9.—Students of international law and United States organized labor evinced great interest today in the remarkable supreme court decision placing foreign-born Canadian residents who work in the United States under the immigration quota restrictions of their native lands.

The unique feature of the case was the court's ruling that the war of 1812 canceled the provision of the 1794 Jay treaty between the United States and Great Britain whereby unrestricted intercourse has been permitted between the United States and Canada for more than 130 years.

The important feature to United States labor is that the decision upholds the attempt of the labor department and the American Federation of Labor to shut out cheap alien laborers, including Chinese, who could get jobs in the United States after establishing a residence in Canada, and stay in for as long as six months, thereafter either returning or "losing themselves" from United States immigration authorities.

It was held the 1921 immigration act in allowing visits of up to six months of aliens entering for business purposes, can not possibly have meant to include "laborers."

The decisions reversed a circuit court of appeals decision and does not apply to native-born Canadians, who are specifically exempted from the quota limitations.
