A Prominent

Indianapolis Bank President

Recently made a purchase at our store. Curiosity, no doubt, prompted this bank president to inquire about our credit policy.

Our amazingly different "credit plan" was explained in detail, and this genius of finance, said—

"Wonderful"—This is positively the finest plan of credit convenience that has ever come to my attention. It is fair, just to all, and imposes no hardships upon the buyer.

We appreciate such a compliment, especially from a "money man"—

The worthy public of Indiana, is entitled to the convenience of credit—it is a service we are proud to render—
