

# LOS ANGELES UTILITY RATES BELOW CITY'S

Municipally Owned Plants Charge Far Less Than Local Concerns.

Municipally owned electric and water plants in Los Angeles are serving more customers than the same utilities in Indianapolis, but the rates are considerably less, according to a pamphlet received today by the public service commission.

The pamphlet was printed by the department of water and power of Los Angeles and is designed to dispel the metaphysics which surround meter reading and charges made by utilities, so the people can understand what their bills are all about.

There are simple designs of both electric and water meters and descriptions of how they operate.

**Rates Are Low**

Los Angeles is a city with an estimated population of 1,350,000 and 64 per cent of its water is transported 240 miles to the city limits, through the mountains and desert country of San Fernando valley. Yet there is a minimum charge of \$1 a month to the householder for water while the Indianapolis Water Company charges \$1.50, bringing the water in from the canal at the edge of the city.

Other comparisons are 13 cents a 100 cubic feet for the first 10,000 in Los Angeles, 21.5 cents for the first 700 here; 11 cents for the next 40,000 in Los Angeles, 14 cents, 11.90 here; 9 cents for next 50,000 in Los Angeles, 12 cents for next 10,000 here; 7 cents in excess of 100,000 in Los Angeles and 10 cents for over 20,000 here.

**Light Charges Less**

The domestic light rate at Los Angeles is 5 cents per kilowatt for the first 150 hours; 2.5 cents for the next 125; 2 cents in excess thereof. Indianapolis Power and Light Company rates are 6.5 cents for the first 150; 6 cents for next 1000, and 4 cents for next 200 or over.

Chairman John W. McCordie of the commission has been declaring in lectures over the state that "we have the lowest utility rates in the country."

**FASTS THIRTY DAYS IN PRISON: GAINS 2 POUNDS**

Aim of Hunger Strike Is Death, But Communist's Health Improves.

By United Press

ALLAHABAD, India, July 22.—Tragedy was turned into comedy when it was learned from prison officials that the imprisoned Communist Bhagat Singh, who issued a statement recently that he expected to die after being on a hunger strike for thirty days, actually had gained two pounds in weight during his self-imposed fast.

Singh was sentenced to life imprisonment for throwing a bomb into the legislative assembly at Delhi last April.

**GERMAN CHANCELLOR UNDERGOES OPERATION**

Mueller Expected to Recover From Inflamed Gall Bladder.

By United Press

BERLIN, Germany, July 22.—Dr. Hermann Mueller, chancellor of the German reich, still was in a grave condition today after an operation had been performed on him for an inflamed gall bladder.

The chancellor's condition during the night remained critical, but the supervising physician told the United Press representative that the patient's condition was as good as might be expected under the circumstances, after such a serious operation.

**MOBILE PAPER ATTACKS HEFLIN'S POWER RECORD**

Article Urges Voters to Inquire Into Senator's Actions.

By United Press

MOBILE, Ala., July 22.—Scarcely veiled charges that Senator J. Tom Hefflin of Alabama was plotting to large power interests and his presence in the United States senate desirable to them were published in the Mobile Sunday Register.

"The voters probably will make a pretty careful inquiry into Senator Hefflin's voting record to determine whether there is a reason why the power interests should favor his retention in the senate," an article in the Register signed by C. M. Stanley, associate editor, declared.

**German Flier Off**

# Aviation

Aerial Pullman Tested

ROOSEVELT FIELD, L. I., July 22.—An "aerial Pullman," which carries sleeping and dining service, two-way code and vocal communication, steam heat and running water, has been put through its preliminary tests here.

Most significant is the fact that the huge Curtiss Condor transport plane developed by the National Air Transport, is equipped with only two motors, either of which is capable of maintaining an altitude of 5,000 feet with a full load of 17,378 pounds.

Colonel Charles A. Lindbergh, technical advisor for N. A. T., recently predicted that "the trimotored plane is heading toward obsolescence," and the tests Sunday were described by passengers and officials as entirely successful.

Colonel Lindbergh is expected to arrive here next week to witness the final test flights of the plane.

Planes Perform in Attica

Two planes, piloted by Tot Douglas and Lieutenant Fred Lanier of the Capitol Air corps, were in Attica Sunday, participating in the opening of a landing field there. The pilots engaged in field hopping.

Muncie Airport Opened

Walker Winslow, sales manager of Curtiss Flying Service of Indiana, flew a Robbins Challenger to Muncie Sunday and participated in the ceremonies attending the opening of the Silver Fox airport there.

Stops Here for Fuel

Eugene Cutrell of Chicago, aviation inspector for the Department of Commerce, stopped at the Curtiss-Mars Hill airport Sunday to refuel on his way to Chicago.

Planes Being Repaired

Lieut. Matt G. Carpenter flew a Douglas C-2-H plane and Sgt. E. M. Caldwell a Consolidated O-17 plane to Fairfield air depot, near Dayton, where minor repairs were to be made on the ships.

Flies to Visit Relatives

John Sutherland, assistant field manager for the Embury-Riddle Company, flew to Cincinnati Sunday by mail plane to visit his relatives.

Plane Fueled Here

A Stinson Detroit, piloted by Buddie Jones, en route from Detroit to Ft. Worth, Tex., halted at the Capitol airport Sunday to refuel.

Fliers Near Drowning

BUFFALO, July 22.—A pilot and his mechanic narrowly escaped drowning today when a Sikorsky amphibian passenger-air mail plane operating between Buffalo and Toronto struck a floating log in the harbor and partly was submerged.

The pilot and his mechanic were taken from the water by a police boat.

The craft, flying from the airport to its water base to pick up passengers for the Toronto trip, made a perfect landing and was taxiing when it struck the log.

that he expected to fly to America. He is using a Dornier-Walwin-motored flying boat of the type used by Commander Ramon Franco and his two aids on their ill-fated attempt to span the Atlantic by way of the Azores. Von Gronau is one of the directors of the German government flying school.

Ground Schools to Open

All persons interested in aviation are invited to attend the first lecture of the ground school of the Capitol Air college at the airport on West Thirtieth street at 7:45 p. m. Tuesday.

The classes will be held in the hangar club room, with Lieutenant Fred N. Lanier as chief instructor. Other members of the faculty include M. C. Hauck, Charles Cunningham and Tot Douglas.

Subject on the curriculum are theory of flight, aerodynamics, aircraft construction, meteorology, navigation and air traffic rules and regulations.

Boost Air Mail Line

Recommendation that the post-office department approve the proposed Evansville to Detroit air mail route with stops at Indianapolis and Toledo will be made by Postmaster Robert H. Bryson within a few weeks.

Survey of the proposed route is nearly completed. There is a great need for such a route, which also will form a complete line from Detroit to Atlanta, Ga., Bryson said.

The Detroit-Evansville line would carry more mail from this region than would be sent to New York and eastern points via the proposed St. Louis-New York line.

Cincinnati and Louisville are urging that the east-west lines be routed through those cities instead of through Columbus and Indianapolis.

In the Air

Weather conditions at 9:30 a. m. at Indianapolis airport: Southwest wind, six miles an hour; temperature, 80; barometric pressure, 30.16 at sea level; ceiling and visibility unlimited; field good.

Gone, but Not Forgotten

Automobiles reported to the police as stolen belong to: Edwin Tansel, Lebanon, Ind., Ford roadster, from statehouse yard parking space.

Lyle Cason, rural route No. 1, Kirkland, Ind., Ford roadster, from Riverside park.

Isaac Wayne, 1301 Van Buren street, Essex coach, 717-012, from Indiana avenue and North street.

D. P. Green, 1205 Hoefer street, Ford touring, from Olive street, near Prospect street.

BACK HOME AGAIN

Stolen automobiles recovered by the police belong to: Checked Cab Company, West Henry street, Checker Cab, license 9055, found at Delaware street and Ft. Wayne avenue.

Willie Brothers, 213 West North street, Marmon sedan, found at Fourteenth and Meridian streets.

Henry Russ, Lawrence township, Chevrolet touring, found at New Jersey and Market streets.

John L. Yott, 3448 North Capitol avenue, Chevrolet coach, found at Pine and Washington streets. Car wrecked when it hit safety zone guard. Thief escaped.

Diver Suffers Brain Injury

# HUSBAND SUES TUNNEY FOR LOSS OF LOVE

Breach of Promise Case Is Basis of 'Claim for \$500,000 Damages.'

BRIDGEPORT, Conn., July 22.—James J. (Gene) Tunney was accused of alienation of affections and seduction in a suit for \$500,000 damages brought in Fairfield county superior court today by the former husband of Mrs. Katherine King Fogarty, John S. Fogarty, Ft. Worth (Tex.) plumber.

Mrs. Fogarty's \$500,000 breach of promise suit against the retired heavyweight boxing champion is now pending in the same court.

In his complaint, Fogarty charged the boxer induced Mrs. Fogarty to obtain a divorce so she might marry him.

It further alleged Tunney and Mrs. Fogarty lived as man and wife. Judge Charles J. Martin of New Haven, Fogarty's lawyer, said the Ft. Worth man had been considering a suit for "some time," but was unable to start action until the suit of his divorced wife gave him sufficient evidence. Fogarty is now living in New Haven, according to his attorney.

**Tunney's House Attached**

The old colonial farmhouse in which Tunney and his wife, the former Mary Josephine Lauder, Green-wich society girl, will live in Stamford on their return from Europe, has been attached for \$500,000 in connection with Fogarty's suit.

The complaint charged Tunney, in February, 1925, "on and divers days since that time" lived with Mrs. Fogarty and, in consequence, "the plaintiff lost the affections of said Katherine King Fogarty and has been deprived of her society and assistance, which he otherwise would have had, and has suffered great distress of body and mind."

**Met at Hot Springs**

The complaint charges Tunney and Mrs. Fogarty became acquainted at Hot Springs, Ark., in 1924 and that Tunney by his arts and blandishments alienated the love and affection of the plaintiff's wife and destroyed the happiness of his home.

"At the solicitation and request of the defendant, the wife of the plaintiff began proceedings for a divorce against him at Ft. Worth in the state of Texas and at said time, as a part of the unlawful acts and association with the plaintiff's wife, the defendant promised to marry her in event of her being divorced from the plaintiff."

The defendant on various occasions and in the presence of divers witnesses had publicly stated he was the husband of the plaintiff's wife. "Said wife of the plaintiff, as a part of the association with him, held herself out as the defendant's wife, notably at Lakewood, N. J., St. Paul, Minn., Chicago, and New York city."

**"I Am So Tired"**

"I'm always tired. I am to get up in the morning and I'm weary before the day is half done." Such fatigue is unnatural and usually indicates improper eliminating and a poisoned condition of the body. Mountain Valley mineral water will aid kidney elimination and assist nature to flush out the health-sapping poisons. Don't endure "chronic tiredness" any longer.
